It is also later revealed that her father is Arthur and her mother is Priscilla. The reason the Sword Master of Black Iron befriended Rika was to gain her trust so he could carry out his plan to sacrifice her to revive her dead father, Arthur. Arthur is revived, but Rika still lives due to her second life. Rika had two lives, and only one died when she was sacrificed. Rika was only with her father for a short time, but the White Dragon mentioned that the day Rika met her father, she began to improve her skill day by day. Now Rika has set off to find her cat friend Nomi with the help of the White Dragon. It is said that he once served the Sword Master of Black Iron. Arthur Arthur is the husband of Priscilla and the father of Rika. He is also the sword master of Black Iron best friend and the most powerful wizard that ever live. Arthur deeply loves his daughter and wife, whom he cares for. He has no more magic after being brought to life, it was explained that he knew that his friend, the Sword Master of Black Iron was going to ignore his wish to remain dead. He was not going to let his daughter be an ordinary wizard so he transferred all his powers to his daughter, Rika. He knew all those powers were maintaining her other life, so when the Sword Master of Black Iron killed her to bring Arthur to life, Arthur knew that his daughter would survive. Arthur only lived for a while, but he was happy that he got to see his little daughter Rika grown up and his wife Priscilla one more time. Priscilla Priscilla is the wife of Arthur and the mother of Rika. She loves both her daughter and husband. This is because Priscilla knew if she did she would sacrifice her own daughter life for Arthur as she dearly love him and wanted to see him again so she gave Rika to Louis who does care for and love Rika as if she was his daughter.
