

*how can we refill the toner of HP 12A.*

Unscrew the both end of the hp 12 toner cartridge. Total you will find 4 screws. Open the drum side cover by just pulling it from drum gear side. Get out the drum by simply sliding the drum by side. Remove the magnetic roller by slightly making gaps and inserting the twiser on the other side of the hp 12 a toner. Remove the magnetic roller washer by the twiser. Open the other end of the cartridge by pulling it gently until it separated. Seperate the other end of the hp 12 a toner cartridge. Do not remove the gears. You have successfully separated the cartridge. Then you will get two part, one is waste toner part and other is empty toner part. Get out the tension spring located at waste toner part. Remove the drum pressure roller from the waste toner part of the hp 12 a cartridge. You will see the wiper blade just below the pressure roller. Unscrew and remove the wiper blade and clean it by soft cloth. Do not twist the transparent blade part. You will see waste toner dust beneath the wiper blade. Remove the waste dust completely with the help of brush. Fix the wiper blade and fasten the screw gently. If necessary clean the roller by a wet cloth. Fix the peassure roller to its position. Make emty the tonner unit is any dust remains. Shake well the tonner dust before refilling. Pour the dust by help of a piece of paper. Assemble the both unit of the crtridge gently. Check for correct adjustment i. Do not make excess pressure during assembling, simply make the position it will get its position softly. Clean the magnetic roller with a soft cloth. Do not rub hard thoroughly. Fix the magnetic roller gently. Match the shape with the cartridge body. If necessary use a new drum for the best result. Place the drum by gently sliding to the cartridge body. Do not touch the drum area, hold the drum by its gear. Fasten all the screws. Place the tension spring by the help of a twiser. Just get test print

### 2: How to Refill laser Printer Toner: Step by Step Instructions

*Hp 12a Cartridge Refilling Manual Pdf Step by step procedure for process of how to refill or recycle toner cartridge powder of hp laserjet , 12a,88a, canon lbp printer in hindi In this video. how to merge different PDF files in to one single.*

Although the toner used here is HP 12 A toner, you can refill similar toner cartridges of other laser printers by following the same steps. Tools needed to refill laser printer toner Cartridge Before you start refilling the toner cartridge, it is important to buy a quality toner ink. Be prepared with a star-cut screwdriver, a newspaper sheet or any waste-sheet, soft cloth, any sharp edged driver and a quality toner ink bottle. Step by Step Instructions Step After pulling the toner from a laser printer the first step is to open the screw of side cover as shown below: Now take the side cover off: After you have taken outside cover, the next step is to take out drum unit. Hold it from a white portion gear and pull it in the direction instructed. This is how the laser toner cartridge will look after plugging out the drum unit: Now you need to plug-out PCR roller as shown below: Next step is to separate the waste unit and ink unit, which are joined together with the help of pins. So you have to take out the pins which are on both sides of the cartridge. After you remove pins from both sides of the toner cartridge, you have to remove a spring as shown: Next step is to set-apart two main units of the cartridge. One unit is a waste unit and the other is called ink-unit. Hold the toner as shown in the picture and pull both units apart. View of Waste Ink Unit and closer view of Spring which is to be removed to open waste ink unit. Remove spring and then remove plastic cover as shown: Now that you have managed to open up Wiper-Blade , you should clean the waste collector unit and Blade part. Wiper-Blade should be cleaned with a soft cloth and not with a brush as the brush can put scratches on blade. First, fit the wiper-blade and then the plastic cover as shown: Now Fit the spring back to its position as shown in the image below. Now what you have done so far is that you have opened the waste ink-unit , cleaned it and then closed that unit. Now begins the main part that is to refill the laser printer toner cartridge. So now, take the other unit where the ink resides. Open it and fill the Ink dry in it then close it and finally re-assemble the two units which were separated earlier. After removing the side cover, you can see a white plastic cover, you have to remove this and fill here the toner-ink: After removing the cap of the bottle you can apply plastic nozzle-cap which you normally get along with a bottle or you can ask for one from the vendor. Make sure to align them as shown in the directions mentioned below: Time to install Drum-Unit back to its position i. After Re-installing drum, Fit the side-cover. And Finally Re-insert Spring. In case you have any queries you can ask us by posting your question in comment box.
