

### 1: Main cancer treatment protocols - Cancer Tutor

*Natural therapies, like the "Day Home Cancer Cure" destroys cancer, is natural to the body, and restores health. Purchase this report and then use the knowledge to help yourself and to educate others.*

Shocked Doctors Forced to Eat Crow! We can ask Ty if he can get the photos of the others. First let me briefly tell you who I am. My name is Ty Bollinger. I knew hardly anything about cancer until it killed seven members of my family, including my mom and dad! Radiation burns, and chemo poisons. No wonder the cancer industry hates it! The Day Cancer Cure could save you or a loved one from dying an early death from cancer. All I ask is that you refrain from disbelieving while I show you my proof. Can it cure every case of cancer? No one can make a claim like that. But I knew exactly what to do. This is what the skin cancer on my temple looked like before I used the natural remedy I describe in my new Special Report. I also had skin cancer near the bridge of my nose. The cancer is gone, and my face healed without scarring. Frank Woll and his wife were devastated when the doctor gave him less than a year to live. But he avoided disfiguring facial surgery, got rid of his terminal melanoma skin cancer, and plans to spend the next few decades with his wife in the Florida Keys, thanks to the Day Home Cancer Cure. He also instructed Frank to stay out of the sun for good. Frank is an outdoorsman who lives in the Florida Keys. He told his wife: But his mind was made up. The results speak for themselves. The doctor could find no trace of the cancer After one month, Frank returned to his doctors to show them his cancer was gone. She called for the doctor. So he grabbed a magnifying glass and tried again. The doctor was speechless when Frank told him how he got rid of his cancer. But the doctor had no choice: His future is bright. You see, the real miracle is the human body. One unique aspect of The Day Home Cancer Cure is the systematic detox plan, which is based on my seven years of arduous research. Kevin Irish from Michigan broke down in tears when his doctor told him he had terminal lung cancer. But he beat his cancer and is now able to enjoy golf and travel, thanks to the Day Home Cancer Cure. With no health insurance, Kevin had no choice but to go on Medicaid in Michigan. And his doctor put him through conventional cancer treatments for a few months. The chemo and radiation were horrible. I felt as if I was dying. I looked like Uncle Fester on the Addams Family. I even had to wear a face mask when I went out in public because my immune system was wiped out! So he stopped all treatments no and looked for an alternative. He found out about my Day Home Cancer Cure and started using it. When Kevin returned to his doctor for a follow-up visit, no longer did he have the swollen face that made him look like Uncle Fester on the Addams Family. Are you the terminal patient I saw a couple months ago? Cobus Rudolph from South Africa was dying of stage four colon cancer. His flabbergasted oncologist told him: In South Africa, doctors gave Rev. Cobus Rudolph a death sentence on March 27, Even if he submitted to chemo, they said he only had a few months to live. This was the same kind of cancer that killed Hollywood legend Jack Lemmon. Rudolph discovered my Day Home Cancer Cure, he began to see a ray of hope. Having been sentenced to death, he knew he had nothing to lose by trying an alternative. And so he said no to chemo and started using the home cure. Rudolph sent me a few months later: Thirty-one different tests were performed on my blood, and I am perfectly healed. No cancer in my body! Since day one that I started the alternative healing route, I never, ever used any drug or other tablets for my pain. Yet I experienced hardly any pain. But Richard got rid of his terminal brain cancer and is now as healthy as a horse, thanks to the Day Home Cancer Cure. Devastating news for the year-old father of three Richard Wiebe from Georgia had glioblastoma multiforme, the deadliest form of brain cancer. This is the kind of cancer that killed Senator Ted Kennedy. Richard was only 30 years old. His children were four, two, and one. Because he thought his life was quickly drawing to an end, he planned to do a sweet 16 video for his daughter before he became bedridden. Before Richard had even finished conventional treatment, he met other "terminal" cancer patients who had beaten their cancer by using elements of the same home cure I describe in my Special Report. So he, too, adopted the home cure plan. Some of them privately asked his wife what she was doing for him. She gladly told them about the home cure. Part of the secret is putting the right nutrition into your body, which is good for everybody. It makes you feel better and look younger. Not so with chemotherapy. It makes you look old, sick and half-dead. Remember

when the late Hollywood star Patrick Swayze—who starred in the hit movies *Ghost* and *Dirty Dancing*—got cancer? His doctors put him on chemo. He was only 57 years old at the time, but the chemo made him look like an elderly man with one foot in the grave. Patrick Swayze was a handsome young man before chemo made him look decades older. They can have trouble remembering where they put their car keys, where they parked the car, or the name of the person they just met five minutes ago, even though they still remember events from decades ago. The damage is permanent. The way to prevent chemo brain is to avoid chemo. And you can—just by trying my Day Home Cancer Cure. It bears repeating that the home cure I recommend is inexpensive. Just about anyone can afford it—even uninsured patients on Medicaid. Paul spared no expense to help his wife. But like most people, he trusted the doctors. And the doctors put Linda through the standard grueling cancer treatments that ruined her immune system, made her feel rotten, and finally pulled her under. But consider the case of someone who had the same kind of cancer Linda had: Lesya Brown from Pennsylvania. Lesya had just turned 48 when her doctor found a lump in her breast. And just as hard for them to hear the devastating news. Instead, she followed the home cure religiously: It changed her body chemistry from acidic to alkaline—a health secret that has saved thousands. How to cancer-proof your body To explain what I mean by cancer-proofing your body, let me use the analogy of a forest. The ideal conditions for a forest fire are a dry forest, low humidity, and strong winds. Just one match will start a catastrophic firestorm! And the standard American diet changes your body chemistry to acidic, which cancer loves. No wonder so many Americans are getting cancer! But if you eat the right foods, you change your body chemistry from acidic to alkaline. The eating plan I recommend not only can help cure cancer but also can help you cancer-proof your body. In fact, many happy people report that they got rid of just about ALL degenerative diseases—not just cancer—by changing their body chemistry from acidic to alkaline. Alkalinity is a healthy body chemistry that makes disease feel unwelcome. Most Americans would love to lose, say, 10 or 15 pounds.

*We would like to show you a description here but the site won't allow us.*

A flurry of flashbulbs popped as photographers vied to get the best shot and the line of fashion editors sitting front row scribbled furiously on their notepads. Did any one of the assembled crowd really think this model - bony cleavage, dark circled eyes - looked good? Could they genuinely say that this image was aspirational? And ultimately, would the model do what must be her main purpose here: The answer to all of the above should surely be a firm no. As debate rages on about the irresponsible use of underweight models in fashion shows, it seems the designers themselves - those with the power to evoke change - are just not listening. In Milan formally barred ultra-skinny models from catwalk shows as the fashion world came under pressure to promote a healthier body image. The agreement signed between the city and its powerful fashion industry banned models with a body mass index of less than 16. The accord included the introduction of courses on healthy eating and exercise and called for a variety of clothing sizes in shows. Realistically, four years on, it is very unlikely these measures are being adhered to. It is, say insiders, just too difficult to enforce. Pressure from the high profile designers in New York, Paris and Milan prevents change, they say, because the designers ignore requests not to use underweight or underage girls. There is, however, a small number that are taking the first steps towards promoting a healthier image on the catwalk. Boys brag about it, girls gossip about it. Its one of those things that just never gets old. Your Tango is here to help. Click here to uncover what they found and the quick fixes to have you ready for action literally! How can we stop playing the comparison game? Last week, a cover appeared on Time magazine that rocked the parenting world, the body image blogosphere, and my Facebook feed I am a breastfeeding mother with many parents in my social circle. Did you ever think about what YOUR role is We did, so we asked renowned sex expert and family therapist Dr. Tyra removed her bra in front of audience. Without the bra her breasts look natural and swings free. To prove further that her breasts are real she allowed the plastic surgeon to use ultra sound to identify any foreign material. The year-old man fell about 25 feet from an upper roof to a lower roof, Lt. He suffered a broken back and other injuries and was taken to Santa Rosa Memorial Hospital. Police have not released his name. Phoenix Theater manager Tom Gaffey said he knows the injured man as Jesse, a regular patron of the theater who hangs out downtown. Lyons said the man told police he ate some food in the theater, a popular youth venue at Washington St. He said he believes someone surreptitiously put "acid" in the food and that he became delusional and thought he could fly, Lyons said. He was naked and alone when police found him on the lower roof around 5: Sunday after receiving an anonymous call, Lyons said. The roof can only be accessed from inside the theater, he said. Gaffey said there was a memorial dance at the theater Saturday night for a Petaluma teen who died in a skateboarding accident last year. About 40 people attended the dance and Gaffey said he left around 3 a. He said Jesse also left the theater but apparently returned at some point, and that a janitor heard someone on the roof, Gaffey said. He must have gotten naked downtown. The theater provides instruction in music and video production in addition to serving as a concert venue. Pardon my dismay and my tone, if it should sound a bit incredulous, but, really? Does the first world domineering thing that actually originated from Ghana have to be labelled as devilish? Is the Ghanaian showbiz industry ready to be shaken by these rumors of underlying devilish meanings to acts as perpetrated in Hollywood? Read the post culled from ghleak. Is it really right, bring the world into the Church? Despite its origination from Chorkor, Bukom, it has included some seduction gestures which is unspeakable. And what is Azonto. Yet good sex offers those health benefits and more. So to really take a look at how our sexuality adds to our life and enhances our life and our health, both physical and psychological, is eye-opening for many people. Among the benefits of healthy loving in a relationship: High quality global journalism requires investment. At one voting centre near a housing complex that saw heavy fighting between Gaddafi loyalists and former revolutionary fighters, officials reported voter turnouts of higher than 50 per cent. The seat General National Congress will be tasked with forming a government until a constituent assembly drafts a new national charter. The voting was marred by small incidents of violence and voter intimidation in the south and east, where at least one person was

killed in a shooting incident. Some election centres were shut because of incidents of unrest. Eight of the shuttered voting centres were reopened on Sunday. But the most dire fears about the election appeared to be unfounded. Election officials gave a preliminary turnout figures of 62 per cent, or more than 1. His loyalists said they were winning but declined to give figures. In the city of Bani Walid, a stronghold of the Wurfulla tribe from which Col Gaddafi recruited many of his military leaders, 20, out of 40, registered voters cast ballots, said the city. Salem al-Agili, a Libyan television reporter who covered the nearby town of Tarhouna " also considered a Gaddafi stronghold " reported high turnout and no security incidents. At a naval academy serving as a squalid temporary shelter for Libyans forcibly expelled from their homes in the town of Twergha for their alleged pro-Gaddafi sentiments and wartime crimes, turnout was higher than 60 per cent in some polling centres. Photo Getting a sneak peek at Angelina Jolie as Maleficent for the first time was certainly chill-inducing " but seeing the actress fully in character as the evil sorceress is an entirely different story. Holding a long, black staff and sporting an intimidating expression, Jolie looks, well, pretty menacing. And for Kim to suggest that closeness in a present for Blue Ivy really put Beyonce off. Right now, Beyonce is on her guard. Photo of The Day Katy Perry: Bunmi again stood up to be committed and strut the runway like she owns it. As Crystal is currently on the international stage as well, she is adamant to assist in the development of those she left behind: This is important information when transitioning from the small island to a larger, more diverse international industry. Victoria Beckham, formerly known as Posh Spice, has been rumored to have undergone quite a lot of plastic surgery in her time. However, none of that seems to have stopped her penchant for plastic surgery if the rumors found at Plastic Sergeant and Make Me Heal are to be believed. According to these speculations Victoria Beckham has had a rhinoplasty, and several separate breast augmentation procedures. The Case For Plastic Surgery Rumors of cosmetic surgery have dogged her because of the photographic evidence. The singer shows a flatter nose in one picture and a wider nose in another. Another set of pictures may show her to have a slightly larger cup size than she did in an earlier picture. The problem has always been that later photographic evidence will contradict earlier photographic evidence. Has Rihanna Had Cosmetic Surgery? Pictures of Rihanna suggest that the star may have had plastic surgery in the form of a nose job and breast implants. The star moved to the United States at the age of 16 to begin her career as a singer. Rihanna has sold 20 million albums and 60 million singles. Her records continue to sell well throughout the globe. Collecting paraphernalia over the years is fantastic because it means we can do pretty much anything without having to hit the shops first to buy special items. Vintage fashion is back in? Perfect " we kitted our wardrobe out for this trend back in the s. You need a melon baller? Reason to embrace getting older 2: Less spots and more laughter lines As we get older our skin tends to get drier, which means less chance of spots hooray! This is great news as we no longer have to worry about the dermatological impact of eating a greasy pizza when we need a little pick-me-up. Reason to embrace getting older 3: Researchers from the University of California scanned the brains of Californians aged between 60 and , and found that older people " despite having a slower reaction time " are remarkably good at making decisions because of the lower levels of dopamine in their brains. The high level of dopamine in younger brains often leads the younger generation to react to difficult situations emotionally rather than logically. Older people are less likely to be fuelled by emotion and more likely to make well-informed decisions. The best bits about getting older Reason to embrace getting older 4: As we get older, we seem to leave the hardest parts of life behind us. Old age means less stress, and less stress means we have more time for family, hobbies, and general happiness. Reason to embrace getting older 5: Concessions, discounts, offers for OAPs, senior citizens passes Reason to embrace getting older 6: Tricking people so you can get away with being cheeky is a definite plus side to getting older. Was that a slip of your walking stick, or did you really just push your way to the front of the queue?

### 3: Healing Cancer: 31 Day Home Cancer Cure

*The Day Home Cancer Cure is valued at a highly reasonable \$ and people have indicated they'd be glad to pay it. But right now, I'm willing to give you.*

Treating cancer successfully—and stopping it from ever returning—comes down to one crucial question: The result of this crucial oversight? New cancer cells keep forming inside your body and existing ones are much harder to kill. This makes fighting cancer an uphill battle. These traditional treatments barely make an impact on the ruthless killer that hides inside you. You might kill some cancer cells, but the underlying conditions that created them will still remain. This hidden condition is like a ticking time bomb. So what exactly is the X-Factor? Renee defeats the X-Factor and ends her year cancer ordeal! Renee was a year old college student when she came down with breast cancer. She submitted to a double mastectomy, but her cancer kept coming back. Over the next 14 years, Renee had multiple surgeries, but eventually she became so sick her doctors insisted on a leg amputation, a liver transplant, and fistfuls of toxic prescription drugs. Renee was prepared to meet her Maker and joined a Bible class. It was there that a friend who knew a great deal about alternative health suggested that Renee might suffer from the X-Factor. Renee thought it was ridiculous at first. Then Renee started doing some reading. She was astonished by the cancer-causing power of this unlikely perpetrator. She cancelled the leg amputation, refused the liver transplant, and tossed her drugs in the trash. To handle her cancer, Renee immediately began a remarkable natural treatment plan to eliminate the X-Factor and improve her overall health. It included targeted natural formulas, organ cleanses, and dietary changes. The protocol worked like gangbusters! Renee was so inspired by her own recovery, she went on to become a naturopathic doctor with a PhD in nutrition - - and cancer patients flocked to her clinic from all over the world. They were extremely passionate about this higher calling. Unfortunately, when Jane was diagnosed with lymphoma, they had to return to the States. After a year of cancer treatments, including lumpectomies in her cheek and left shoulder, Jane and her husband returned to the Far East. Tragedy struck again six months later. Jane started having excruciating pain in her lower back. It was so serious that she had to return to the US again. Doctors explained that the chemo and radiation had collapsed one of her vertebra. Not only that, but another cancerous lump was now growing under her jaw. Jane decided she needed to try another route and started researching all the alternative options. She soon discovered the astonishing truth about the X-Factor and the powerful strategies for beating it. Today, the couple is back in the Far East and spreading the Word of God. Jane is cancer-free, pain-free, and happy! About the Authors Ty Bollinger is a happily married father of four, a CPA, health freedom advocate, and author of best-selling cancer books. After losing 7 members of his family to cancer including his mother and his father, Ty had seen the dark side of chemo, radiation and surgery and began to explore alternative cancer treatments. In his journey, Ty has made a remarkable discovery: Andrew Scholberg is a freelance writer who travels the world researching alternative cancer treatments. He has authored or co-authored several best-selling Special Reports on cancer, including Adios Cancer! Andrew and his wife have four children and live in Chicago. He was the defendant in a landmark First Amendment case before the Supreme Court. He is an adventurous outdoorsman in his free time. The usual answers about cancer are just not good enough! How bad has it been? Seven of my beloved relatives died in less than a decade: I lost both my Dad and my Mom to cancer. I lost both my Grandfathers to cancer. I lost one of my Grandmothers to cancer. I lost one of my uncles and one of my cousins to cancer. It was a living hell for my entire family, going through unsuccessful cancer treatments—over and over again. I needed a real solution to cancer—a different kind of solution. I needed something that would work. I also knew the conventional treatments of surgery, radiation and chemotherapy cut, burn and poison were useless against this disease. I knew there had to be a better solution for cancer—one that really works—so I started a full-time effort to crack the cancer code. And after vast research and reading hundreds of books and articles, I found what I was looking for. I was surprised by what I found -- to say the least! I identified unrecognized health issues that keep cancer growing out of control inside the body. I also found little-known treatments that turn off these cancer triggers. I discovered this precious life-saving information too late to save my mom and dad

and grandparents. But I found it in time to save myself and my kids—and you. My newly-minted Special Report helps you take charge of your own cancer treatment and gives you the very best odds to come out on top. It also includes the identity of the X-Factor—the scourge of cancer patients everywhere. Are you ready to find out what it is? Get ready to be shocked! You can get up to a whopping 10, larvae from a single piece of beef! This parasite, the trichinella worm, is one of the most common parasites in America. You can pick it up from undercooked food, and it can grow up to three millimeters long. It can cause fever, abdominal pain, diarrhea, and vomiting. If it takes up residence in your guts, the tape worm can grow to a length of 19 feet. To eliminate parasites, you must know and use the right natural treatment plan! In The Day Home Cancer Cure—my hot-off-the-presses Special Report—you get the best all-natural strategies to detoxify your body—remove unwanted occupants—boost your healing ability—and put a real licking on cancer! In just 31 days, your body becomes a cancer-fighting machine! One of the most important aspects of The Day Home Cancer Cure is a protocol—a treatment plan -- for putting an end to parasites inside your body. After digging through the best cancer treatments in the world, I settled on a parasite-killing plan developed by a genius scientist who used her revolutionary insights to cure the cancer patients that no one else could. This legendary scientist recognized that two factors are always involved in cancer: My day protocol eliminates both. Most cancer patients who follow this plan get results incredibly fast. Breast Cancer—Doctors told D. By committing to the parasite-killing protocol, she wiped out the tumor herself She used the day protocol to get rid of parasites and solvents. Liver Cancer—Even though her case was considered hopeless, J. But getting rid of parasites and solvents did the trick instead, leaving her without a trace of liver cancer He finally eradicated his cancer with the day protocol, much to the surprise of his oncologists His brain cancer was finally cured by removing the huge amounts of parasites and solvents from his body Taking matters into his own hands, he started the day protocol and the cancer faded away in a very short time My protocol has also been successful in cases of colon cancer— skin cancer— cancer of the thyroid— cervical cancer— kidney cancer— bladder cancer— pancreatic cancer— uterine cancer— ovarian cancer— bone cancer— stomach cancer— leukemia Thousands of cancer patients are benefiting from this unique information. Do you want to be one of them? With these valuable insights at your fingertips, you can understand exactly why people get cancer—and exactly what you can do about it. This Special Report is a cornucopia of under-recognized facts and under-utilized secrets for defeating cancer. The fat cats in the medical establishment want to keep the profits rolling in. Alternative doctors know the score about the medical establishment, but sometimes the best treatments escape their attention, too. Only the most informed and sophisticated health experts and caregivers have this information at their disposal. My entire day cancer-killing protocol—and how to quickly and easily put the five crucial stages into practice at home! Popular anti-cancer foods and exercise programs that are fast, affordable, and easy to use at home. How to identify open-minded doctors and health practitioners who will support your decision to try alternative healing! The blackballed German doctor with a powerful answer to cancer. Why mainstream medicine is shunning his amazing nutritional protocol! The super cancer supplement that can increase your immunity, energy and well-being in just five days or less!

### 4: Stop Smoking!!: The Day Cancer Cure

*The 31 Day Home Cancer Cure by Ty Bollinger - This book is about a highly successful 31 day treatment for cancer. The key to its success is in getting rid of massive numbers of parasites that are suppressing your immune system.*

DCA Cancer Cure – ty bollinger 31 day cancer cure The DCA cancer cure is one of the more popular soul stipulated cancer remedy narcotics in society today. Thousands of frantic cancer cases have worked the inexpensive DCA cancer cure to try to cure themselves of cancer or at least help them control the symptoms of cancer better. This article will go into more detailed information about the DCA cancer cure. What is the chemical structure of the DCA cancer cure? These salts contain certain parts that restrict the production of certain enzymes that in turn gasoline cancerous increment. More exclusively, the DCA cancer cure will curb the production of the pyruvate dehydrogenase kinase enzyme in the body, helping the body push cancer in the process. The DCA cancer cure is still not medically approved although several people have made health risks of experimenting with the treat on their own. There have also been several instances where doctors have abused the DCA cancer cure to help their patients fight against cancer when every other care alternative does not produced any results. The subject on lab rats showed that the DCA cancer cure was able to restrict the growth of cancerous cadres in the body by establishing a process called apoptosis. The reactions too showed that the DCA cancer cure rendered relatively limited side effect or toxicity in the lab rats that undergo the trial. DCA Cancer Cure- Clinical tribulations conducted on humans There are some notes to a small clinical test that involved precisely 5 cancer cases in its first year , conducted by the University of Alberta. The results of that clinical tribulation show that the DCA cure was successful in extending the life of four out of the 5 cancer patients who underwent the DCA cancer cure treatment. There is a lot of controversy about the mentioned clinical tribulation because the University of Alberta firstly announced that the DCA cancer cure clinical test would include 50 cases, beginning in the year However, in , they published a report that said that merely five patients exist as topics in the DCA cancer cure clinical trial. What stimulated the mentioned DCA cure clinical trial even more suspicious or controversial was the fact that University of Alberta never publicly published the report on the clinical inquiry although women announced that the report on the clinical visitation was accomplished. This particular DCA cure clinical tribulation was involved in even more spat when some discipline journals reported that the University of Alberta deliberately withheld some for reporting on the DCA cancer cure clinical test. However, the University of Alberta managed to quell these says as rumors that were unsubstantiated. What are the risks associated with such DCA cancer cure? Doctors have advised that self drug of this remedy is not recommended as improper application can frame a horrid strain on the liver. Some doctors claim that the therapy can actually degenerates the health of a cancer patient, obliging it very difficult to recover from cancer.
