

The popular Blackwell's Five-Minute Veterinary Consult series offers a range of books and electronic products designed with the busy veterinarian in mind. Featuring a concise, user-friendly format and contributions from hundreds of international experts, these books provide fast and easy access to authoritative coverage of essential diagnostic and therapeutic information.

As a reliable and educated source, veterinarians must help guide their clients in the right direction. Canine and Feline Behavior facilitates veterinarians in counseling clients and treating small animal behavior problems. As part of the popular Blackwell's Five-Minute Veterinary Consult series, this unique manual is designed as a quick reference for veterinarians and students alike. Information is readily available in a practical and easy-to-use format, with topics organized alphabetically for easy reference. Coverage includes typical problem behaviors in dogs and cats, such as various types of aggression, anxiety, fear, soiling and marking, vocalizing, and destructive behaviors. Appendices provide additional resources on psychopharmacology, learning and behavior modification, and client handouts, while an accompanying CD-ROM offers electronic versions of handouts for easy use. Table Of Contents Preface. Destructive Play and exploration: Fear of places and things: Fear of the outdoors: Shadow and light chasing: Tail chasing and spinning: Wool sucking and fabric eating: Appendix B Learning and Behavior modification.
