There is always a woman with a past, an acidulous dandy, a shameful secret, and a self-righteous young man or woman who has to come to terms with that secret. Otto Preminger seems like a poor choice to interpret Wilde. Watch the Lubitsch silent version instead. Preminger downplays the comedy-of-manners aspect without eliminating or destroying it, but he succeeds in translating the cardboard melodrama into something subtle, complex and moving. Here the whole cast is tamped-down and naturalistic: The first half of the film is original, setting up the situation that the play lays in our laps in its first scene. To begin with there is a framing device set in contemporary post-war London, where the octogenarian Mrs. Erlynn Madeleine Carroll discovers the fan at an auction of unclaimed property from bombed buildings. In order to reclaim her property she has to prove ownership, so she tracks down Lord Darlington George Sanders, now a doddering "museum piece" living in a remnant of his former home. We learn that Lord and Lady Windermere were killed in the Blitz; that the two worldly, ambiguous characters have survived the pure couple feels appropriate to a changed world. The frame gives the costume-drama portion a wistful edge; instead of the usual Hollywood gloss, here the past gleams through nostalgia like a flower buried in a paperweight. The flashback unfolds as Mrs. Erlynn relates her story to the reluctant and skeptical Lord Darlington. George Sanders might seem like almost too obvious a choice to play this role. Some of the dialogue "As a wicked man I am a complete failure. In fact, there are some people who say I have never done anything really wrong in my life. Of course, they only say it behind my back" might have been written for that inimitable dry-sherry voice, at once rich, acid and smooth. But Sanders, like the rest of the cast, does not lean on wit, delivering the bon mots casually, almost under his breath. As Lady Windermere, delicate Jeanne Crain turns the tiresomely shrill, uncompromising puritan of the play into a fresh, gentle innocent, a young woman of innate but untested fineness. All too often relegated to decorative roles, here she gives a nuanced performance as a complicated woman: She manages the mother-love scenes with compelling emotion, never sliding into sentimentality. As a young woman Mrs. In middle age, still relying on youthful allure and trailing a scandalous reputation, she returns to London. Gossip turns this transaction into an affair, and Lady Windermere is devastated when she believes her handsome young husband has betrayed her. Interestingly, the film shows Lord W. Erlynn, suggesting he is no plaster saint. Meanwhile, Lord Darlington seizes on the alleged infidelity to declare his love for Lady W. Would he really have devoted his life to her, or would he have abandoned her after a year, as Mrs. This must be one of the few cases in which the movie version of a literary work has a less happy ending than the original. The elimination of Mrs. Few films have done a better job of hiding their stage origins; this one never feels static or talky, and the interpolated activities like a fencing match and a shopping trip feel natural and evoke an elegant lost world. Was this review helpful? Sign in to vote. Jeanne Crain does a credible job playing a British aristocrat, accent and all and Martita Hunt as always steals every scene she is in. The sets and costumes are stunning, and it is a pity it was not filmed in color. Otto Preminger is a strange choice as a director for this vehicle but he is always fascinating, even his misfires and this certainly is NOT one of them. A must see believe me

Individual countries within the UK have frameworks for the promotion of their indigenous languages. In Wales, all pupils at state schools must either be taught through the medium of Welsh or study it as an additional language until age 16, and the Welsh Language Act and the Government of Wales Act provide that the Welsh and English languages should be treated equally in the public sector, so far as is reasonable and practicable. Irish and Ulster Scots enjoy limited use alongside English in Northern Ireland, mainly in publicly commissioned translations. The Gaelic Language Scotland Act, passed by the Scottish Parliament in , recognised Gaelic as an official language of Scotland, commanding equal respect with English, and required the creation of a national plan for Gaelic to provide strategic direction for the development of the Gaelic language. There is also a campaign under way to recognise Scots as a language in Scotland, though this remains controversial. The Cornish language enjoys neither official recognition nor promotion by the state in Cornwall. The United Kingdom has ratified the charter for: British Sign Language is also a recognised language. Some cities in close proximity have a different dialect and accent, such as Scousers from Liverpool and Mancunians from Manchester who are separated by just 35 miles. Robert Burns is regarded as the national poet of Scotland The early 18th century is known as the Augustan Age of English literature. From the late 18th century, the Romantic period showed a flowering of poetry comparable with the Renaissance years earlier, and a revival of interest in vernacular literature. In Scotland the poetry of Robert Burns revived interest in Scots literature, and the Weaver Poets of Ulster were influenced by literature from Scotland. In Wales the late 18th century saw the revival of the eisteddfod tradition, inspired by Iolo Morganwg. A Vindication of the Rights of Woman , by Mary Wollstonecraft , is one of the earliest works of feminist philosophy. The most widely popular writer of the early years of the 20th century was arguably Rudyard Kipling , the youngest ever recipient of the Nobel Prize for Literature. By the early 19th century it was no longer represented by stage plays at all, but by the closet drama, plays written to be privately read in a "closet" a small domestic room. Their Victorian era comic operas introduced innovations in content and form that directly influenced the development of musical theatre through the 20th century. In , a critic using the pseudonym "Dramaticus" published a pamphlet describing the parlous state of British theatre. At the same time, there was a burgeoning theatre sector

featuring a diet of low melodrama and musical burlesque ; but critics described British theatre as driven by commercialism and a "star" system. A change came in the late 19th century with the plays on the London stage by the Irishmen George Bernard Shaw and Oscar Wilde , who influenced domestic English drama and revitalised it. Gilbert and composer Arthur Sullivan , nurtured their collaboration, and had their first success with Trial by Jury. In , Lyceum Theatre stage actor Henry Irving became the first actor to be awarded a knighthood. Is not a comonty a Christmas gambold, or a tumbling-trick? No, my good lord, it is more pleasing stuff. It is a kind of history. Taming of the Shrew, Induction 2. Soft, so busily she turns the leaves! What would she find? Lavinia, shall I read? Titus Andronicus , 4. It is a scene less notable for what happens than for what does not happen: In what is to follow I would suggest that precisely for all that does not happen in it, the "translation" scene offers an illumination of the play of which it would seem but a marginal moment and of the social issues and tensions that traverse that play. At the same time, in a play set so self-consciously in a "foreign" land, the Latin lesson exemplifies the uses of things foreign, and in particular the domestication of foreign language, throughout the play, offering a comic peek at the acculturating power of translation, and a comic rehearsal of that process of cultural expropriation in which Nietzsche would assign translation a central part, whereby a culture "vergangene Zeiten und Bucher sich einzuverleiben sucht," "seeks to embody past epochs and books into its own being. A comedie, I meane for to present, No Terence phrase: The verse that please a Romaine rashe intente, Might well offend the godly Preachers vayne. For in a play that, as Marianne L. Novy has put it, "gives lip service to patriarchy and victory to youth,"<sup>11</sup> the genuinely undercover advances of Lucentio, bearing a text intoning the ruination Priami regia celsa senis <sup>3</sup>. Indeed, and much to our purpose here, in the degree to which the translation scene brings briefly to the foreground the treatment of education and formal learning in the Shrew, it reminds us of the prominence in the play of more practical educational projects and brings into metonymic focus the curiously synergetic, and ultimately, I would argue, parasitic relationship in the play of the educational and domestic. Now, at a glance, the vectors in this relationship seem to go decidedly in one direction, with much of the "bounded" or domestic space we encounter in the play employed as classrooms of one sort or another, and with many of the "things" we encounter, the semiology of which Lena Cowen Orlin has exhaustively parsed,<sup>15</sup> from books and musical instruments, to clothing and even quasi-, or not so quasi-, pornographic paintings, deployed as materials in broadly defined exercises in pedagogical outreach, in teaching lessons and "with a nod to the humanist elision of intellectual and moral formation" "inculcating and modifying certain behaviors. At the same time, though educational projects of a practical and social nature have a way of encroaching upon domestic space in the Shrew, it is also true that what the play, or what Sly calls in that interesting elision, the "comonty," transacts is the domestication, not only of Kate as one more, as Petruchio punningly classifies her, "household Kate," <sup>18</sup> but of learning itself, with the simultaneous commodification and transformation of the objectives and processes of education into "things," and "things" for the home. We get a socially satiric hint of this "reifying" commodification and its corruptive potential in the Induction, when the meddling Lord, having ordered his men to carry the inert Sly to his "fairest chamber," instructs them to deck out the room with "all my wanton pictures," the better to persuade Sly that he really is a lord Induction 1. Baldwin and, quite recently, by J. And if, as Walter J. One instance, and, perhaps, a comic warning of the power of classical learning to inculcate incorrect, or culturally inappropriate lessons, especially in weak minds, comes very early in the play when Lucentio tries his hand at classical analogy by way of Vergil to demonstrate the extremity of his immediate infatuation with Bianca, "confessing" to Tranio, That art to me as secret and as dear As Anna to the Queen of Carthage was, Tranio, I burn, I pine, I perish, Tranio, If I achieve not this young modest girl. The hint that Bianca is not precisely what she seems only echoes, of course, the duplicity in which Lucentio and Hortensio are engaged in the scene and infuses it with the sort of liberating, transgressive energy which one associates with a fabliau, and that percolates throughout the Shrew, providing an insurgent counternote to the socially prescriptive and patriarchalist fantasy that is its central fable. To be sure, part of the comically trasgressive energy released in this scene arises both from our sense that we cannot be certain who knows more, or less, about Latin here, the

tutor or the "tutee," or whether, to paraphrase Casca, the Latin in question is equally Greek to both, and also from the possibility that we as audience, and as critics, are being teased and "braved" as much as the characters onstage. In, for example, his compendious assault upon the questions of how much Latin Shakespeare could have known and how and when he was likely to have learned it, T. Seizing upon what may in fact be a questionable piece of commentary by Lucentio in identifying the grandson of Aeacus as Ajax rather than Achilles,<sup>34</sup> Bianca employs the rhetoric of academic quibbling to express her emotional suspicions: I must believe my master; else, I promise you, I should be arguing still upon that doubt. In this respect, however, the translation exercise stands as but the most sustained example in the *Shrew* of the role and treatment generally accorded the various snippets of foreign language that dot especially the early portions of the play. In part, the invocation of foreign expressions provides a conventionally comic instrument of social intimidation and oneupmanship, a means of asserting an otherwise inconspicuous or non-existent superiority, and as such plays its part in detonating the class and generational rivalries that define the subtext of the *Shrew*. Now, one editor, H. Oliver, in allowing the First Folio readings of this and other pieces of incorrect Italian to stand, notes that such interventions, errors notwithstanding, are still "good enough to give the illusion that the speakers are Italian";<sup>38</sup> I would suggest, however, that, quite to the contrary, they serve to show that the speakers are not Italian, and that their linguistic forays only accentuate their English-ness and the robustly domestic agenda of this play, which acknowledges its "foreign" setting and theatrical pedigree only to distance itself from them, even as the discourse of classical learning and allusion is at once translated into and domesticated by the "household stuff of the abortive Latin lesson. What significance that text has is open, of course, to some question. Yet behind such incongruities lie interesting congruencies between the Latin lesson and the text it does not teach, and with them a demonstration of some interesting uses of literary domestication. Decontextualized, the excerpt helps to deconstruct its original. Grumio, Draw forth thy weapon, we are beset with thieves, Rescue thy mistress if thou be a man. Indeed, far from resisting the pressure of domestication, the translation scene could be said to signal a total capitulation to it, with the lessons it teaches having nothing to do with "learning" as such and everything to do with the configurations of behavior that define the relations and circumscriptions of the sexes—and, more precisely, the circumscription of the female sex—in this insistently domestic play. And if, as we have seen, the scene travesties some of the norms of instruction and seems to invert the roles of student and teacher, in doing so it also translates the student into the studied, leaving us on our own to speculate on what Bianca may have learned from the behavior of Lucentio, while italicizing, rather as a piece of ekphrasis, what Hortensio, at least, as we have noted above, has learned from his observation of Bianca. Yet if thy thoughts, Bianca, be so humble To cast thy wandering eyes on every stale, Seize thee that list; if once I find thee, ranging, Hortensio will be quit with thee by changing. In fact, if he were inclined at this point to cast his disillusionment and growing misogyny into a position on educational policy, Hortensio might well count himself among those "many" critics of women Vives invokes, "who sayth, the subtiltie of learning should bee a nourishment for the maliciousnesse of nature. At the same time, in a play that ostensibly—even ostentatiously—concerns itself with domestic management, the translation scene offers a subversive interlude that suggests that a play may be especially instructive in dramatizing its own instructional limitations, and, above all, reminds its audience of what a malleable, and manipulable, a thing learning, for all of its patriarchalist prescriptions, is. Sir William acknowledged paternity of his illegitimate children and provided for their education, but they were reared by his relatives rather than by his wife or with his legitimate children. Isola died aged nine of meningitis. Trinity, one of the leading classical schools, placed him with scholars such as R. Mahaffy who inspired his interest in Greek literature. He presented a paper titled "Aesthetic Morality". Magdalen College, Oxford[ edit ] At Magdalen, he read Greats from to , and from there he applied to join the Oxford Union , but failed to be elected. Neither his father, who threatened to cut off his funds, nor Mahaffy thought much of the plan; but mostly Wilde, the supreme individualist, balked at the last minute from pledging himself to any formal creed. On the appointed day of his baptism, Father Bowden received a bunch of altar lilies instead. Wilde retained a lifelong interest in Catholic theology and liturgy. This attitude resulted in his being rusticated for one term, when he nonchalantly returned to college late from a trip to Greece with Prof. Pater gave Wilde his sense of almost flippant devotion to art, though it was John Ruskin who gave him a purpose for it. Ruskin admired beauty, but believed it must be allied with, and applied to, moral good. Sheppard of the Original Christy Minstrels made it famous and other performers sang it for decades afterwards. She became engaged to Bram Stoker and they married in He had been publishing lyrics and poems in magazines since entering Trinity College, especially in Kottabos and the Dublin University Magazine. In mid, at 27 years old, Poems collected, revised and expanded his poetic efforts. It was bound in a rich, enamel, parchment cover embossed with gilt blossom and printed on hand-made Dutch paper; Wilde presented many copies to the dignitaries and writers who received him over the next few years. The librarian, who had requested the book for the library, returned the presentation copy to Wilde with a note of apology. Wilde journeyed on the SS Arizona , arriving 2 January , and disembarking the following day. Higginson , a cleric and abolitionist, wrote in "Unmanly Manhood" of his general concern that Wilde, "whose only distinction is that he has written a thin volume of very mediocre verse", would improperly influence the behaviour of men and women. While there he met Robert Sherard , whom he entertained constantly. He reportedly entertained the other passengers with " Ave Imperatrix! She happened to be visiting Dublin in , when Wilde was lecturing at the Gaiety Theatre. The couple had two sons, Cyril and Vyvyan Wilde often liked to appear idle, though in fact he worked hard; by the late s he was a father, an editor, and a writer. He enjoyed reviewing and journalism; the form suited his style. He could organise and share his views on art, literature and life, yet in a format less tedious than lecturing. Buoyed up, his reviews were largely chatty and positive. When Charles Stewart Parnell was falsely accused of inciting murder Wilde wrote a series of astute columns defending him in the Daily Chronicle. Two pieces of fiction were usually included, one to be read to children, the other for the ladies themselves. Wilde worked hard to solicit good contributions from his wide artistic acquaintance, including those of Lady Wilde and his wife Constance, while his own "Literary and Other Notes" were themselves popular and amusing. Whilst Wilde the journalist supplied articles under the guidance of his editors, Wilde the editor is forced to learn to manipulate the literary marketplace on his own terms. Wilde published The Happy Prince and Other Tales in , and had been regularly writing fairy stories for magazines. The only evidence for this is two supposed puns within the sonnets themselves. Though containing nothing but "special pleading", it would not, he says "be possible to build an airier castle in Spain than this of the imaginary William Hughes" we continue listening nonetheless to be charmed by the telling. The Soul of Man under Socialism , The Decay of Lying , and The Critic as Artist Sheet music cover, s Wilde, having tired of journalism, had been busy setting out his

aesthetic ideas more fully in a series of longer prose pieces which were published in the major literary-intellectual journals of the day. In January , The Decay of Lying: Having always excelled as a wit and raconteur, he often composed by assembling phrases, bons mots and witticisms into a longer, cohesive work. There lies its immense value. For what it seeks is to disturb monotony of type, slavery of custom, tyranny of habit, and the reduction of man to the level of a machine. At the same time, he stressed that the government most amenable to artists was no government at all. Wilde envisioned a society where mechanisation has freed human effort from the burden of necessity, effort which can instead be expended on artistic creation. George Orwell summarised, "In effect, the world will be populated by artists, each striving after perfection in the way that seems best to him. Intentions packaged revisions of four essays: The Picture of Dorian Gray[ edit ] Main article: When Gray, who has a "face like ivory and rose leaves", sees his finished portrait, he breaks down. Distraught that his beauty will fade while the portrait stays beautiful, he inadvertently makes a Faustian bargain in which only the painted image grows old while he stays beautiful and young. For Wilde, the purpose of art would be to guide life as if beauty alone were its object.
