

1: Jargon | Define Jargon at www.enganchecubano.com

A Devil's Dictionary of Business Jargon is an entertaining, insider's guide to the new CorpSpeak, with irreverent definitions of the words used in business to disguise the real intrigue, treachery and incompetence taking place behind the scenes.

A person who believes that an asset will go up in price, a belief often based exclusively on the fact that the person happens to own it. A mutual fund, specializing in stocks or a wider range of assets, that can lose money in every imaginable way and then some. Marketed to the outside investors as an opportunity to get in on the ground floor of a growing business, the typical IPO instead presents the greatest opportunity to the insiders who are selling, because the associated hype enables them to cash out at inflated prices. To write complex mathematical formulas that capture every conceivable variable in every possible situation except, that is, the one that is about to happen next, destroying the value of the portfolio that has been built around the model. Jason Zweig has long been a brilliant financial journalist. People who have listened to Jason have shielded their assets from the purveyors of costly and useless advice. Kennedy School of Government at Harvard University; author, *The Power of Noticing* Jason Zweig, one of the great truth-tellers in financial journalism, is the spiritual heir to Ambrose Bierce, one of the great satirists in American letters. Both use piercing wit to reveal important truths. A compendium of financial jargon observed to induce in its readers nearly continuous spasms of raucous laughter. Has also been known to produce near-fatal episodes of cognitive dissonance in brokers, advisors, and money managers, who should consume its contents with care. Normal individuals, in contrast, may incur a deepening of financial wisdom, a fattening of the wallet, and an uncontrollable urge to steal entire passages for later use. Try not to laugh. This satirical critique of what passes for wisdom on Wall Street belongs on the bookshelf of every serious investor. Malkiel, professor of finance emeritus, Princeton University; author, *A Random Walk Down Wall Street* Broad experience, thorough conversance with history, unusual insight, and dashes of humor and cynicism. After a lot of laughs, I walked away with a less-distorted view of reality. One of my favorite devilish definitions: It combines wicked humor, scholarly etymology, and superb advice. Sharpe, emeritus professor of finance, Stanford University; Nobel laureate in economics This is the most amusing presentation of the principles of finance that I have ever seen. Shiller, professor of finance, Yale University; Nobel laureate in economics; author, *Irrational Exuberance* If finance were stand-up comedy, Jason Zweig would be its Groucho Marx a serious man with a wild sense of humor. A stock that obeys no command except Down! Instead, I laughed, chuckled, and chortled through the book. But it is not just jokes; I learned a lot browsing around in this clever little book. The result consistently yields pleasure and insight. Bierce excelled at short, stinging definitions. Zweig fires off several similarly pithy zingers: Previously, he was a senior writer for *Money* magazine and a guest columnist for *Time* magazine and CNN. Before joining *Money* in , Zweig was the mutual funds editor at *Forbes*. He serves on the editorial boards of *Financial History* magazine and the *Journal of Behavioral Finance*.

Evidence sufficient to fan gossip but not to extinguish it. Intentionally abstruse written agreement between a drafting party and its victim. An action or omission causing offense to one with the wherewithal to object. Process through which the two sides to a legal dispute take turns impeding the other from discovering the facts needed to resolve it. A hapless bystander celebrated by the prosecution for his keen inability to remember what he have seen with his own eyes. A person of greater enterprise than discretion, who in embracing an opportunity has formed an unfortunate attachment. Act of committing theft while Black. Condition of one who has violated the rights of others without the assistance of a lawyer. Information acquired from another party that is sufficiently robust to be relied on by newspapers, households and workplaces, but not by a court of law. Fundamental rights so inherent to the dignity of an individual that they cannot be taken away without due pretense. To create a vacancy without nominating a successor. A law student who marks his own examination papers. A group that is composed of 12 men of average ignorance. Device for saddling high-minded, young thoroughbreds with enough intellectual baggage and debt that they are content to live out their remaining days as low-riding company mules. Spiderwebs through which the big flies pass and the little ones get caught. One skilled in circumvention of the law. A person about to give up his skin for the hope of retaining his bones. The practice of law by a nonlawyer. The practice of law by a lawyer. In Law, a previous decision, rule or practice which has whatever force and authority a Judge may choose to give it, thereby greatly simplifying his task of doing as he pleases. Legal doctrine ensuring that the sensitive information you share with your lawyer will remain strictly within the confines of her immediate family and friends. Evidence confirming your existing opinion of the facts. Latin for the method by which a litigant without money for lawyers is considerably permitted to lose his case. The commendable uncertainty residing in the mind of a superstitious creature whose prejudices do not allow him to convict. Fee paid to a lawyer who has yet to take your case for the purpose of securing his services to lose it at a later date. Esteemed court in which justices unbound by term limits, infirmity or transparency are given the final say in determining the employment, health and privacy of their fellow citizens. A salesman without pretense. An ingenious compound of desirability and appearance. A court-ordered fishing expedition.
