*A Light-hearted Look at Murder has ratings and 22 reviews. Heather said: I had a great hopes for this book as it was written by a comedian but I can't.*

The story was just bizarre and after building it up, it kind of fizzled out at the end. Jan 12, Adam rated it did not like it Really pretty rubbish. I expected better from a good comedian. Sep 10, Tamara Zann rated it it was ok Not very well written and largely stereotypes in my opinion. Jun 30, Adelle Kehoe rated it liked it Quite a strange book, but definitely enjoyable - funny throughout with a few laugh out loud moments. The story is interesting and unique, I really enjoyed how much of it was told by translated memoirs. To view it, [click here](#). Trade descriptions need not worry - this book does exactly what it says on the cover. It is very light hearted, and it does contain a murder. A german studying at Oxford ends up dating the 5th tallest woman in Britain, together they set up a look-a-like agency where he earns his crust impersonating Hitler. We pick up the story some years later from the viewpoint of Alexandra - she becomes the Hitler impersonators pen-pal, and corresponds with him in prison. At first she knows little about him, but eventually his life story comes out, and we learn the gruesome truth. There are many intriguing ideas but the plot and setting remains cosy rather than cartoonish, which is a shame as there are so many bizarre avenues this book could have gone down. The writing is solid. The plot comes together. It reads like a good What a disappointing book. It reads like a good idea which got lost half way through. Somehow the comedy and wit drops out, the characters get old very quickly and the whole thing becomes the paper-back equivalent of watching Cash In The Attic on a rainy day.

You can find all the Summer Writing Contest stories here. It was a perfect storm of coincidences that resulted in both these idiots dosed. The Russian president AND his trusted guard? Apparently, they have similar proclivities when it comes to women and drugs. They also share an inclination for voyeurism and exhibitionism. They take turns watching. The two men are large, the president in girth, and the bodyguard in almost every other way. He looks kind of like the Gorilla Glue mascot if that gorilla had been pickled in vodka for a few decades. An uncharacteristic giggle escapes my lips despite the situation. But I hate to waste an opportunity to be entertained. This job was supposed to be the uber cliché honey trap. I just had to swap the scopolamine for his beloved blow, and voila! The drug would work its magic. Where did he even come from? Back to my little game. Some credit though, for a former KGB officer and a pig-headed dictator, these two have got some serious moves! I breathe deeply to calm my brain. Time to get back to business. Scopolamine is a hell of a drug. It makes everyone so damned agreeable. A cloud billows up and right into my face. The room starts to shrink, but I should have a few minutes before my body ditches my mind. Hmm, a bodyguard gone rogue. Not ideal but it should work. Then go back to your room. Scopolamine is no joking matter. I like to have fun, but I also take my job seriously. The last thing I see is Viktor pressing the pillow over the face of the president, who gives zero resistance. I hear the door swing open and whisper shut again. As he proclaims his love of the dance, a wry grin spreads across my face, and I fade out. Coming to my senses a few hours later, I hear Margo on my cell, expertly guiding me to safety. On my feet are saddle shoes, seriously? The hat perched on my head would make Johnny Depp green with envy. Apparently, Margo also has a sick sense of humor in the face of urgency. The next day, every channel was abuzz with breaking news about the assassination of the Russian president by his trusted, disco-obsessed bodyguard gone rogue. My artistic license may get stretched at times, but I always get the job done.
