

### 1: A Sending Of Dragons by Yolen, Jane

*This is the third installment of the Pit Dragon series, and for me it's the best. Other writers have described the plot, so I'll only say that the story is catching, the situations are well described and we get a new viewpoint on the dragons and the world seen through their eyes.*

So we have renamed them the Pit Dragon Chronicles. I swear this is the last. All the threads have been wound up. I went through four actual editors and the purchase of Harcourt by Houghton during the writing and editing of the book. But when it came out, I breathed a huge sigh of relief. No more letters from kids and adults demanding the final book. It was also a book my late husband always wanted me to write. So Davidâ€™this one was for you. What reviewers have said: An introduction and preface allow those new to the series to read this title without reading the first three books, but reading the books in order will undoubtedly be more rewarding. This is definitely the last one, make no mistake about that. Here, the series comes to a head. Jakkin and Akki have learned the secrets of the Dragons. Mostly, the two take care of their own problems, but both need help, both from the dragons, and the other adults. Jane Yolen has done the impossible. She has returned to her Pit Dragon trilogy of books written in the s! Jakkin and Akki return home after a year in the hands of the murderous Troggs, with several dragons and secrets in tow. But when she sees a familiar and frightening face, she is kidnapped, and it is up to Jakkin to save her. All of the characters from the original Pit Dragon Trilogy return. Others are killed off, something Yolen rarely did in the original trilogy. And this book gives a better ending to the series, which had ended too abruptly at the close of Sending.

### 2: The Pit Dragon Trilogy - Wikipedia

*Pit Dragon Chronicles, book 3. Jakkin and Akki are presumed dead, but thanks to the sacrifice of Heart's Blood, a mother dragon, they can now survive the cold of the wilderness and communicate with dragons by sending mental images.*

Please help improve it by removing unnecessary details and making it more concise. June Book 1: Jakkin plans to steal a baby dragon from the farm to raise, hoping to train the dragon to fight and earn him enough money to buy himself out of bond. Jakkin stows the tiny dragon away to an oasis that he had previously found. Akki, a girl at the nursery, eventually discovers his secret, and helps him, building a strong relationship in the process. After a full year of training and growing, Akki arranges a way for Jakkin and his beautiful red dragon to get to the pits. As the story continues, Jakkin finds out more about the strained relationship between Sarkkhan and Akki. In the end, Akki leaves the nursery. However, he still works at the nursery to pay off his debt to Sarkkhan. One day, a Senator named Golden comes with a note from Akki, and asks Jakkin to spy on the rebels. Austar is a Protectorate, not a Federation Planet. If Austar became a Federation planet, the master and bonder system, as well as Pit fights, will become obsolete. Austar is useful to the Federation as one of the at all. He tells Jakkin that Akki needs his help and wants to know if he is a man. Jakkin bonds with the hatchlings by letting them taste his blood. A note is sent telling Jakkin to meet at Rokk Major. Jakkin vows never to let this happen to his dragon. Jakkin gets lost, and meets Dr. Henkky who tells him not to trust Golden. After going to bars with Sarkkhan and drinking chikkar, a man dies in front of Jakkin, telling him to be careful of the Rebel Hideout. The cell leader replaces Jakkin with 3, the man who died, and Jakkin is reunited with Akki, at the cell meeting. They are given the task of taking a package to the Pit, and told if they open it, it will explode. He tells them he will guard it, and they should return to the Nursery. Golden meets them back at the nursery, but the Wardens are not far behind. The Rebels framed Jakkin, and Erikkin betrays him to the Wardens. Likkarn tells them to run to the mountains, and stays to fight the Wardens, using his weed fury. Golden, Jakkin, and Akki flee to the mountains, but Golden is badly injured. A Sending of Dragons Jakkin and his beloved Akki are currently living in the mountains, having escaped from some oppressive situations that caused them to be on the run. Threatened by the sighting of a strange helicopter, the two decide, rather than fight, to try and hide by taking refuge in the labyrinth of caves inside of the mountain. After witnessing very sanguine and very disturbing rituals, in which dragons were sacrificed at the birth of every child, Jakkin and Akki escape, taking a few dragons along with them. But with this knowledge comes responsibility. Suddenly she finds herself in the midst of a political battle that could claim her life. Only Jakkin can save her. If only he could reach her. It was a Federation penal colony, marked KK29 on the convict map system. It is a semiarid metal-poor world with two moons. During a four hour period in the night the two moons overlap and it becomes so cold that humans cannot remain outside without dying. Also, it has difficult terrain and not many plants or water sources. Such harsh conditions are why Austar IV was chosen as a place to send convicts. Plants Few plants grow in the desert, but the ones that do are very hardy. Burnwort Fungi Berry bushes Skagg: Low oily grass which can be boiled to produce a thin broth high in vitamin content. The broth can also be frozen and sweetened with sweetroot for a dessert. Animals The planet hosts a variety of insect and pseudo-lizard life. Elephant sized, warm blooded dragon lizards. They have pneumaticized bones for reduction of weight and a keeled sternum where flight muscles are attached. The wings have "feathers" which are light scales that adjust to wind pressure. Some specimen have been measured at 13 feet high, from claw to shoulder. Black flying creatures with sharp talons and a snake-like head. They nest in spikka trees and feed on dragon eggs. Male drakk usually squat on the tops of trees during their rut season and then fly off to the mountains. Females do not allow the males to stay around the nesting site since they are as likely to eat their own eggs as dragon eggs. Living Drakks have no odor, But dead drakks have a very distinctive rotten smell. Drakk blood can burn the skin, resulting in blood scores scars.

## A SENDING OF DRAGONS (PIT DRAGON TRILOGY) pdf

### 4: Jane Yolen, A Sending of Dragons

*The Pit Dragon Chronicles is a series of science fiction and fantasy novels by Jane Yolen. The Pit Dragon Trilogy anthology is simply all of the first three books in one. The books are set in the far future, on a desert planet called Auster IV, which has a history and climate similar to that of Australia.*

Book three of Pit Dragon Trilogy. A story of a young couple on the run with dragons. They escaped to a land so inhospitable that anyone staying there for very long would die of the cold. But they live there because they are hunted at their home; a home it appears they will never be able to return to. Suddenly a chopter shows up at their makeshift home in a cave and in their attempt to escape it find themselves captured by a community of strange semi humans living in a cave network with a couple of secrets and dragons. But it is really a story about two souls who unite with nature, an intelligent nature and seek to do all they can to help that nature, even risking their own lives. This is life outside rather than in a city setting, which I found pleasant. The two main characters are well developed and even their personal relationships with five friendly dragons who are like family. It was a very good read. Although the ending really left me with questions and not a real closure but it was okay. The one got even weirder than the others, but was still interesting. The series is not the most captivating in the world--I probably remembered nothing of the latter two books because I probably only read them once--but there was nothing really wrong with them. One great thing, however: They kiss a couple of times. Kudos to Jane Yolen for keeping it clean. I quickly found myself engrossed once again with Jakkin and his adventure to steal an dragon egg and train his own dragon. Jakkin is a wonderful character, set apart from the others but always willing to help anyone he considers a friend. Really this series as a whole, including the more recently written 4th book, are great for kids who love the fantasy genera. Definitely a 5 star rating in my book then and now! Jamie This one even has the best cover! THIS, by far, was my favorite of the series. Sssasha being my favorite. There is a touching part between the hatchlings and Jakkin, and it really made this book my favorite. An Odd1 "Like his mother before him, and like [sister] Sssasha, [eldest, biggest] Sssargon was mute.. But his sendings were always louder than necessary, like a young boy clamoring for attention" p Sendings have sound, even if voices do not. Author misleads by calling them "pictures", confused me for weeks. Dragons can joke; Sssasha plays trick with "Splat! Auricle learns she can fly by going over cliff with waterfall. After fleeing copters into caves last year, now they wait - and meet Golden who cleared their names. Review will shown on site after approval.
