

1: Existence Trilogy - Book Series In Order

Abbi Glines is a #1 New York Times, USA Today, and Wall Street Journal bestselling author of the Rosemary Beach, Sea Breeze, Vincent Boys, Field Party and Existence series. She never cooks unless baking during the Christmas holiday counts.

You would have come across her name splashed above several others, this bestselling novelist New York Times, Wall Street Journal, USA Today having taken the young adult romance literature realm by storm. Certainly many have been known to and will continue to define her by the cute relationship quotes that litter her books. Others however will recognize the talent she brings to the table in the six series she has published in less than three years, the volumes totaling up to a glorious 21 novels and counting. Abbi Glines is best personified-at least by those that first encountered her- through the Too Far series, the four novels that first exploded from her mind in the adult fiction genre, easily garnering popularity from a variety of readers, so much so that she has already embarked on a writing two more books in the series, one a spinoff of the story, and the other, a retelling of the original plot within the voice of the male lead. IN between publishing increasingly popular series like the Existence Trilogy and Vincent brothers, Abbi enjoys life as a mother and wife, splitting her days between the several hours spent at her computer writing new manuscripts and dealing with the halloonist of her kids and the chaos and excitement they bring to her life. Many would impute this to the decisions that she took in pursuing her passion against all odds, the strength revealed through interviews with fans, to put the stories she had on her heart on paper or screen and to self publish in the face of a grindingly restrictive publishing arena. Not many new fans will remember to trace her entrance into the publishing world to *Breath*, the very first novel she published sometime in ; this might have something to do with the fluctuations in popularity that her novels have been known to undergo, some stories exploding so much more than others, various books eclipsing others. Not that those criticisms have stood against the roar of her fans. The novel reads like the typical young adult fictitious tale, following Blaire Wynn as she finds herself tangled within a deadly trap of hearts; initially struggling to find herself within the web of convoluted family entanglements, the chaos of two dysfunctional lines coming together, it is Rush Finlay, her step brother that gets her blood flowing. Of course there have been criticisms against the generic plot lines playing out within this best seller; only, while Abbi creates what most would appreciate as the most typical setting, the story reads as something altogether different, considerably, drawing readers away from the generic storyline with intriguing character development, and tapping into a wide range of emotions in exploring the hungry minds of two youths fighting to find each other. In conclusion considering Abbi Glines a good number of scholars consider different reviews that have concluded is that beneath the long distance relationship quotes, the author seeks to implant a deep collection of emotions into her story, sometimes sacrificing fuzzy feelings of puppy love for sensations of painful longing, of incredible loss, even sacrifice, less interested in the typical ending, rather driven to throw exhilarating twists this way and that way, indeed a master in her genre. Jack Reacher is back! Family secrets come back to haunt Reacher when he decides to visit the town his father was born in. Because when he visits there he finds out no-one with the last name of Reacher has ever lived there. It leaves him wondering - did his father ever live there? Featured Author Our author of the month is Canadian author Opal Carew who writes erotic romance novels. Opal has written over novels with multiple book series such as the Dirty Talk series and the Abducted series. Most of his childhood was spent living in a mobile home in Burbank, Washington. However, after the divorce of his parents, Palahniuk and his siblings were sent to live with their maternal grandparents on a cattle ranch in Eastern Washington State.

2: Predestined (Existence Trilogy #2) by Abbi Glines - The Book Hookup

*Predestined (Existence) (Volume 2) [Abbi Glines] on www.enganchecubano.com *FREE* shipping on qualifying offers. The high school quarterback and reigning heartthrob, Leif Montgomery, is missing.*

I never read Ceaseless Book 3. I bought this series within the first year of me getting my Kobo and it took me 4 years to get around to. In those 4 years though, Abbi Glines has become one of my most read authors on Goodreads. I think I would have liked not knowing what type of paranormal creature he was until later. Seemed like a bit of a missed opportunity but Glines does throw some other twists in there to give you some surprises. I kinda forgot what it was like to read a YA paranormal romance until I picked this up. You know, little plot besides the heroine mooning after some mysterious hero who she inexplicably feels drawn to. It was very Twilight -y to say the least. Pagan is a bit on the dull side if you ask me. I felt like more could have been done with these characters. They are pretty surface level in terms of their development. This was a little lacking for me. Why does Death become obsessed fall in love with Pagan? Why does Pagan fall for Death? Did I forget to mention the love triangle? When to Read the Novella, Leif: Read this after book 2, Predestined. Will I Finish It? I read enough reviews of Ceaseless to know what goes down. Glines has a solid plot for a series of this type but unfortunately, at this point in my reading life, I need that little bit more to keep me interested. Read if You Like: YA paranormal, Twilight Avoid if You:

3: Series Review: Existence by Abbi Glines Â

Oh and just in case you haven't seen it yet, here is the cover for the final book in the Existence Trilogy, Ceaseless. Abbi also released a teaser blurb which leaves me worried, especially after the surprise ending in Predestined.

The three book Existence, Predestined and Ceaseless tells the story of Pagan Moore and her tribulations as she falls in love with death. The other book, Leif, talks about another character in the series called Leif. Abbi finds the need to tell the readers more about Leif Montgomery who is a soulless high school quarterback who disappears. The author finds it necessary to expound on the character Leif because he represents a different kind of soul. The trilogy is a different form of love story. The author talks about a young girl who falls in love with Death. The ability of the girl Pagan Moore to see souls puts her in the position to fall in love with death. Abbi tries to tell the story of love by presenting a different kind of challenge. The challenges are the form of existence of the characters, their predestination, and the pull of affection. As the characters are developed and the reader gets into the context of the books, the concepts become clearer. The book is full of imagination and representation of unconventional feelings. The reader is pulled to read by the suspense that is developed in the plot. Who is Pagan Moore? Pagan Moore is the seventeen-year-old girl who has the same feeling every seventeen year old has which is falling in love, but her circumstances are different. She sees things other people cannot see such as Souls. Pagan Moore has a gift or a curse that allows her to see death and interact with them. Her soul has been marked since birth as restitution for a dark spirit. In the trilogy, even death cannot walk close to her soul because of the dark spirit. Pagan falls in love with Death who breaks all her rules. In the Trilogy, Pagan Moore evolves from an unconcerned high school girl who sees souls to falling in love and caring. She falls in love with a wickedly beautiful soulless soul. Her boyfriend Death finds the need to save Pagan Moore. He vows to even defy heaven to keep his love even if Hell wants him too. Then the complexes of Leif and Dank emerge. Dank knows Pagan Moore soul is destined to be his. Her heart belonged to him. Not until death emerged and he doubts whom Pagan Moore will end up with. Her story Pagan Moore presents a bridge between the dead, the soulless and human beings. As a young girl of seventeen years, she has the ability to interact with the dead. She can see souls that others cannot see. She is the testament of the existence of the world of the dead. In the story, she is used to tell the possible connection between death and human. The fact that a tussle between her boyfriend death, heaven, and hell over her fate tells a lot about the power of love that goes beyond the ordinary life to the life of the soulless. When going through the character of Pagan Moore, the question many people would ask themselves is how would death love? In the trilogy, a picture of death and life of the dead is told through Pagan Moore who has a unique spirit. Leif Leif is among the most interesting characters in the Trilogy. She has a strong history with Pagan Moore in existence only for him to disappear. His connection with Pagan Moore is evident in his persistence appearance in her dreams. Moreover, he stands out to be the boy of every girls dream being a high school quarterback and his story is told in Predestined. He conceded the fact that he was soulless. His disappearance leaves the story hanging until you read the book title Leif. The series The trilogy series tells a story of love between unlike kinds. The story is about a human girl stealing the heart of death itself and other soulless creatures. The three books begin with a girl with rules who is aware of the effects of falling for the souls that she sees until she meets death. The story progresses as the two fall in love and finds real affection that would take anything to keep them together. The imagination of romance between these kinds is the main focus in the books. Existence This is the first book of the trilogy. The book introduces Pagan Moore as a girl who sees what others cannot see. She has been seeing souls her entire life. Some of the souls walk through walls and do unimaginable things. She ignores the souls until she sees an incredibly sexy girl in the first day in school. The guy looks at her and does not go away even as she ignores him. The guy speaks unlike the other souls she sees. She is actually falling in love with death as her time to die is drawing near. The book is about Pagan Moore breaking her rules. It tells more about her abilities and her uniqueness as a person. Is this what death looks like? Abbi is probably addressing this question in Existence through Pagan Moore. Predestines Predestined is the second book. Like the title, the story is more about Death accepting his fate as long as he is with Pagan Moore. The story takes a unique turn

in the book. After Pagan Moore saves her boyfriend from eternity in hell, things gets weird. Pagan Moore meets Leif whom she gets attached to. In the book, Leif goes missing. The town falls in a frenzy of worry. Nevertheless, Leif appears regularly in Pagan Moore dreams. Apparently, Leif is soulless. Dank, another character knows a lot. He knew Leif was soulless. He did not know saving Pagan Moore would be difficult because her spirit is unique. The books bring out a different view of the world. Are these the happening in the underworld? A unique interaction between death, soulless creatures, and humans is elaborated in the two series. The most distinct factor in the books is Pagan Moore being more acquainted with the world she ignored. Jack Reacher is back! Family secrets come back to haunt Reacher when he decides to visit the town his father was born in. Because when he visits there he finds out no-one with the last name of Reacher has ever lived there. It leaves him wondering - did his father ever live there? Recommendations Every 2 weeks we send out an e-mail with Book Recommendations. Insert your e-mail below to start getting these recommendations. If you see one missing just send me an e-mail below. Featured Author Our author of the month is Canadian author Opal Carew who writes erotic romance novels. Opal has written over novels with multiple book series such as the Dirty Talk series and the Abducted series. Did You Know? Besides short story and novel writing, Clive Barker has been actively involved in screenwriting and film production.

"She was mine. I owned her soul until Death stole More.

March 29, Pages: You would think after helping save her boyfriend from an eternity in Hell that things would go back to normal. Well, as normal as life can be when you can see souls and your boyfriend is Death. But for Pagan Moore, things are just getting weirder. The high school quarterback and reigning heartthrob, Leif Montgomery, is missing. While the town is in a frenzy of worry, Pagan is a nervous wreck for other reasons. Now, he realizes he made a grave mistake. If Hell wants a piece of him too, then bring it on. Welllllllll, after reading Existence I was spoiled with the romantic element. I know, I knowâ€I was flailing! Ok, back to the review. It starts a month after book 1 left off. Before Pagan could officially end things with Leif, he disappeared. In addition to Leif missing, things start changing with Pagan too. She now hears a voice in her head along with vivid dreams that turn out to be real memories. Both Dank and Pagan are determined to find a way out of this. She is up against a lot yet handles it quite well. The best thing about Dank was that we find out his full name. I love that they have to resist. You know, I still like him. There was a serious unexpected event that made me so sad. At the same time though, I loved how things were so interconnected. I adore when that happens, when I have that aha! Great way to wrap things up and not leave me with a massive cliff-hanger. I need answers on so many things still. I am freaking loving this series and you will too! Romance, a sexy male hero, awesome heroine, and lots of bad guys to fight. All kinds of win!

5: Predestined (Existence #2) eBook: Abbi Glines: www.enganchecubano.com: Kindle Store

Abbi Glines' name is bound to come up among a number of subjects largely revolving around matters of relationships and romance, more so than a number of other similarly or more famous names.

8: Read Existence online free by Abbi Glines

From the South Shore of Massachusetts I'm a mom, wife, dog lover and book blogger to name a few. Right now I'm loving New Adult Contemporaries - emotional ones, gritty ones, suspenseful ones, but always romantic ones, nothing light and fluffy.

9: Predestined (Existence Trilogy #2) read online free by Abbi Glines

Existence is awesome, and Abbi Glines has left me hanging on the edge with one heck of a cant-wait-to-find-out cliffhanger. I'm definitely ready to get my hands on the next book in this series. I highly recommend Existence as a must read.
