Goodreads Rush promised her forever Torn between his love for his family and his love for Blaire, Rush has to find a way to save one without losing the other. In the end one has to be more important. Blaire believed in her fairytale Her love for Rush and desire to have a family keep her believing that they can find a way for this to work. Until she has to make the right decision for her and the baby. Even if it breaks her heart. Can they find the forever that they both want or has it all just gone I gobbled up all three books in a matter of days! These books are like New Adult angst and drama at its Springer-worthy best! Seriously, Rosemary Beach could be one big episode of Springer! Everyone in the whole damn town is immediately in love with Blaire. They think she is wonderful and perfect and farts rainbows. It was kind of annoying actually. Rush is your classic bad boy-his life is all about parties, girls, and more parties. He hates Blaire because of a huge secret about her family. Blaire has no idea what the secret is or even that there is one but the rest of the town does and nobody fucking tells her!! They just tell her that Rush will always side with Nanette over anyone else. She has drama with her old flame, and eventually, Bethy comes to visit and convinces her to return to Rosemary Beach. Rush is determined to win her back and vows to never put anyone ahead of Blaire again. He promises repeatedly that Blaire comes first. If Blaire had any other options in the world, she would have left his dumb ass. Meanwhile, Rush has 4 cars, a giant house with beds in every room, and has never given money a second thought. The disparity between the 2 is striking, but it makes me even more irritated with Rush for not even wondering what her life is like. He never bothers to ask and then is shocked when he finds out she had to walk 3 miles because he left her standing in the driveway without a key to get in, or that she was sleeping on a friends couch and then eventually on the floor because she literally has NOTHING. Like, dude, you know what she has been through, how is it you keep missing this shit!? And what the fuck is up with Grant? Sometimes he is Team Nan then he does a and is Team Blaire. His mood swings are giving me whiplash. He still screwed up a LOT in this book. Even after he said he would never put anyone before Blaire again he does. And every time she forgives him. It reminded me of the cycle of abuse. It just made me frustrated with them both. This book felt more like a wrap up and intro to other characters that will be featured in the next books in the series. I was ready to be done with Blaire and Rush by this point. Nan is set as the antagonist of the series, but honestly, I think Rush is the bad guy. Nan is a MAJOR bitch, a spoiled brat, and in serious need of psychiatric help to deal with the shit hand her life has dealt her, but she is just a mean girl. Rush breaks Blaire repeatedly. In my world, he is the villain. Book 1 is Blaire, then the other books are dual. Series must be read in order Cliffhanger: Book 1 and 2 end in cliffhangers; book 3 does not.

2: Rosemary Beach Series by Abbi Glines

Abbi Glines is a #1 New York Times, USA Today, and Wall Street Journal bestselling author of the Rosemary Beach, Sea Breeze, Vincent Boys, Existence, and The Field Party Series Abbi's Army Email.

Abbi Glines Chapter One Trucks with mud on the tires were what I was used to seeing parked outside a house party. This place had at least twenty of them covering up the long driveway. All I had left was my clothes and the truck. Calling my father, after he had failed to come even once during the three years my mother had fought cancer, had been hard. It had been necessary though; he was the only family I had left. I stared at the massive three-story house that sat directly on the white sand in Rosemary Beach, Florida. My truck door was suddenly jerked open. On instinct, I reached under the seat and grabbed my nine-millimeter. I swung it up and directly at the intruder, holding it with both hands ready to pull back on the trigger. I cocked an eyebrow and held my gun steady. Could you put it down before you have an accident? This guy was beginning to piss me off. I can handle a gun. I met him before he and Georgiana left for Paris. I waited for more of an explanation but the guy continued to stare at the gun and hold his breath. Keeping my eyes on him, I lowered my protection and made sure to put the safety back on before tucking it under my seat. Maybe with the gun put away the guy could focus and explain. He knew I was coming today. The guy nodded slowly and his stance relaxed. My father had been driving. Why was this funny? I waited for him to explain when he held out his hand. Should I warn everyone not to piss you off? Damn girl, where are you from? Most girls I know squeal or some shit like that. The sea breeze hit my face and the salty smell of the beach was unmistakable. At least not in person. But the smell, it was exactly like I expected it to be. A grin stretched slowly across his face. I had a suitcase and then several boxes that I needed to drop off at the Goodwill. Shaking off the memories, I focused on the present. You forgot to ask when you had the nine-millimeter pointed at my face? The music inside got louder as we got closer. I knew Georgiana was his new wife but that was all I knew. Was this a party her kids were having? How old were they? Dad had been vague. He moves to his other houses according to the season. I shook my head. His parents never married. His mother, Georgianna, was a groupie back in the day. This is his house. His mother gets to live here because he allows it. Either that or I had a bug crawling on me. As we walked past the large open foyer an arched doorway led into what I assumed was a living room. Even so, it was bigger than my entire house or what had been my house. Two glass doors were standing open with a breathtaking view of the ocean. I wanted to see that up close. There was a bar in the house? I glanced over the people we passed by. They all paused for a moment and gave me a quick once over. I stood out big time. I found her outside looking a little lost," Grant said and I swung my gaze from the curious people to see who this Rush was. Seeing as her daddy has run off to Paris with your momma for the next few weeks. That is if she promises to leave her deadly weapon in the truck. They were an odd color. They were a warm color with some silver laced through them. Could they be contacts? Grant cleared his throat. Instead he took a drink from the longneck bottle in his hands. I was going to be asked to leave. I had exactly twenty dollars in my purse and I was almost out of gas. He had quickly agreed and given me this address telling me he would love for me to come stay with him. He was waiting on me to make a move. What did he expect me to say? A smirk touched his lips and he winked at me. My dad had sent me here. Why had I trusted that man? I reached over and grabbed the handle on the suitcase that Grant was still holding. This was a very bad idea," I explained without looking at him. I tugged hard on the suitcase and he let go somewhat reluctantly. Tears stung my eyes as the realization that I was about to be homeless sunk in. Turning, I headed for the door, keeping my eyes downcast. I heard Grant arguing with Rush but I blocked it out. That much was obvious. My dad was not a welcome member of the family apparently. I glanced up to see the delighted smile on the girl who had opened the door earlier. Was I that revolting to these people? I quickly dropped my eyes back to the floor and opened the door. I had too much pride for that mean bitch to see me cry. Once I was safely outside I let out a sob and headed to my truck. I needed the safety of it. I belonged inside my truck, not in this ridiculous house with these uppity people. I missed my mom. Another sob broke free and I closed the door to my truck locking it behind me. Chapter Two I wiped my eyes and forced myself to take a deep breath. I would not fall apart now. I would get

through this. I could live in my truck. Finding a safe place to park it at night would be my only problem. This town seemed safe enough but I was pretty sure this old truck parked anywhere overnight would draw attention. I would have to use my last twenty dollars on fuel. Then I could drive into a larger city where my truck would go unnoticed in a parking lot. Maybe I could park behind a restaurant and get a job there too. I would need to spend a couple dollars on some food. Then pray I would find a job in the morning. I would be okay. I turned my head to check behind me before I cranked the truck and backed out. Silver eyes stared back at me.

3: Rosemary Beach - Book Series In Order

Abbi Glines - Rosemary Beach series. Rush has earned every bit of his bad-boy reputation. The three-story beach house, luxury car, and line of girls begging for time between his sheets are the envy of every guy in Rosemary Beach, and Rush handles it all with the laid-back cool of a rock star's son.

You would have come across her name splashed above several others, this bestselling novelist New York Times, Wall Street Journal, USA Today having taken the young adult romance literature realm by storm. Certainly many have been known to and will continue to define her by the cute relationship quotes that litter her books. Others however will recognize the talent she brings to the table in the six series she has published in less than three years, the volumes totaling up to a glorious 21 novels and counting. Abbi Glines is best personified-at least by those that first encountered her- through the Too Far series, the four novels that first exploded from her mind in the adult fiction genre, easily garnering popularity from a variety of readers, so much so that she has already embarked on a writing two more books in the series, one a spinoff of the story, and the other, a retelling of the original plot within the voice of the male lead. IN between publishing increasingly popular series like the Existence Trilogy and Vincent brothers, Abbi enjoys life as a mother and wife, splitting her days between the several hours spent at her computer writing new manuscripts and dealing with the halloonist of her kids and the chaos and excitement they bring to her life. Many would impute this to the decisions that she took in pursuing her passion against all odds, the strength revealed through interviews with fans, to put the stories she had on her heart on paper or screen and to self publish in the face of a grindingly restrictive publishing arena. Not many new fans will remember to trace her entrance into the publishing world to *Breath*, the very first novel she published sometime in ; this might have something to do with the fluctuations in popularity that her novels have been known to undergo, some stories exploding so much more than others, various books eclipsing others. Not that those criticisms have stood against the roar of her fans. The novel reads like the typical young adult fictitious tale, following Blaire Wynn as she finds herself tangled within a deadly trap of hearts; initially struggling to find herself within the web of convoluted family entanglements, the chaos of two dysfunctional lines coming together, it is Rush Finlay, her step brother that gets her blood flowing. Of course there have been criticisms against the generic plot lines playing out within this best seller; only, while Abbi creates what most would appreciate as the most typical setting, the story reads as something altogether different, considerably, drawing readers away from the generic storyline with intriguing character development, and tapping into a wide range of emotions in exploring the hungry minds of two youths fighting to find each other. In conclusion considering Abbi Glines a good number of scholars consider different reviews that have concluded is that beneath the long distance relationship quotes, the author seeks to implant a deep collection of emotions into her story, sometimes sacrificing fuzzy feelings of puppy love for sensations of painful longing, of incredible loss, even sacrifice, less interested in the typical ending, rather driven to throw exhilarating twists this way and that way, indeed a master in her genre. 5: Rosemary Beach by Abbi Glines: Review - The Book Disciple

Life outside of her house was a new experience for Della Sloane. The dark secrets of her past weren't something she ever intended to share with anyone.

Buy from another retailer: The Best Goodbye Rose Being short sucks. There was never a time in my life when I thought, Gee, being short is awesome. I could never reach things in high-up places. Which was what was happening now. She was gorgeous and mean, not to mention tall. She had no idea how hard it was for someone who was only five foot four to balance on a bar stool on her tiptoes with her hands full of glasses. Or maybe she did know, and she was doing this just to be cruel. Leaning forward, I slipped another glass safely into one of the slots built into the wall for just this purpose. The stool wobbled, and I stilled, holding my breath. Easing back slowly, I managed to keep my balance. I knew that voice. Once, that voice had eased my fears, protected me, and given me a safe place to go. Now all I got were cold, detached words from him. I kept thinking the pain would ease up eventually. But it never did. Time had changed both of us. Instead of loving him until I was breathless, I just wanted to slap his handsome face and leave town. Last week, he had referred to me as Rachel, Daisy, and Rhonda on three separate occasions. My constant corrections must have stuck. The boy I once knew had been kind, thoughtful, and a hero. At some point over the past ten years, River had changed his name to Captain and had become hard. No one had that. Even when we were sixteen. Instead, he nodded toward the kitchen. I had done just fine. I was doing the job slowly, but I was getting it done. I had a good mind to finish putting those glasses up myself anyway. I had packed up my life and come down to Rosemary Beach, Florida, once I found out that this was where I could find River. I had searched for him for years with no luck. Getting this job had been easier than I thought, and I needed it. That was all we needed. We were living in the guest house of one of the massive beach homes that lined the shore. The only resident in the main house was an elderly lady, Diana Baylor, who seemed thrilled to have us right outside her back door. It was a good fit for all of us. Without this job, I would have no reason to get close to River. And I had a mission. One I was no longer so sure of. My needs and desires had taken a backseat nine years ago when Ann Frances had entered the world and become my reason for living. Every year since then, that was all she ever asked for, on her birthday and on Christmas Day, without fail. She wanted to know her dad like her friends knew theirs. Looking back, I wondered if my sacrifice was a mistake. Her long dark hair was draped over her shoulders, and those catlike green eyes of hers glared at me. Elle was one of the biggest obstacles to my plan. As much as my daughter wanted to know her father, I had to decide if that man was worthy of Franny. With a sharp nod, I headed that way. No reason to stay in her presence any longer than necessary.
