The Rail Passengers Association (RPA) strongly believes that the ongoing debate concerning the future shape of Amtrak's national network has been distorted by its use of fully allocated costs rather than avoidable costs as required by statute.

The proceeds from the PFC are to be used to finance eligible airport-related projects that enhance safety, capacity, or security of the national air transportation system, reduce noise from an airport that is part of such system, or furnish opportunities for enhanced competition between or among air carriers. For carriers not subject to 14 CFR Part , such carriers shall establish and maintain an accounts payable system to handle PFC revenue with subaccounts for each public agency to which such carrier remits PFC revenue. The PFC revenue is to be regarded as trust funds held by collecting carriers as agents, for the beneficial interest of the public agencies imposing PFCs. All PFC revenue collected and held by the carriers are property in which the carriers hold only a possessory interest and not an equitable interest. The purpose of this directive is to provide accounting and reporting guidance on the handling of collected PFCs. Each large certificated air carrier shall establish within its Form 41 balance sheet Account , "Other Current Liabilities," a separate subaccount for each public Agency on whose behalf a passenger facility charge is collected. Each small certificated air carrier and commuter air carrier shall establish in its accounting system a separate liability subaccount for each affected public agency for the purpose of crediting the amount of PFC funds collected. Large Certificated Air Carriers. Reported amounts shall represent the total PFC collection, remittance, and adjustment activity during the reporting period covered by the quarterly Schedule B Reported amounts shall represent the total PFC collection, remittance, and adjustment activity during the reporting period covered by the semi-annual Schedule B Reported amounts shall represent the total PFC collection, remittance, and adjustment activity during the reporting period covered by the quarterly Schedule F The reported PFC activity shall be included in the following caption, which shall be typed at the bottom of Schedule F The purpose of the audit or review is to ensure the collecting carriers are in compliance with the requirements of this part and PFC statute, 49 U. The FAA is charged with administering the PFC program and the accounting and reporting guidance provided in this directive are designed to enable the FAA to monitor the collections and remittances of PFCs by the air carriers. For the benefit of the air carriers that are collecting PFCs on behalf of a public agency, an illustration of this special report is attached to this directive. Due to the limited audit resources available, it is anticipated that these special reports and the disclosure of PFCs in the financial statements will resolve most, if not all, of any concerns about the collection and remittance of PFCs by individual air carriers. The FAA Administrator does reserve the right to request an audit in those situations where the issues raised cannot be resolved by the filing of the special report. Therefore, should a need arise to require the filing of the special report or to perform an audit of PFC collections and remittances, the Department expects that at a minimum, all documents that support the calculation of PFC collections add remittances will be available for inspection for a period of at least three years after creation. If you have a question about the special report attached to this directive or about the PFC program, please contact Donna Taylor of the Federal Aviation Administration at This action is taken under authority delegated in section
