

1: The Lies of Locke Lamora (Gentleman Bastard, #1) by Scott Lynch

Get this from a library! Adventures of a gentleman's gentleman: the Queen, Noel Coward and I.. [Guy Hunting] -- Guy Hunting began his career working as a footman directly for her Majesty the Queen at Buckingham Palace.

The sentiment was mostly along the lines of "Pat Rothfuss is the next Scott Lynch! The world was gritty and real, and it had knocked everyone over with how good it was. So I knew it was a flattering comparison, but at the time, I Back when I was first published, people made a lot of comparisons between me and Scott Lynch. So I knew it was a flattering comparison, but at the time, I was kinda irked by it. I remember thinking, "Why do I have to be the next Scott Lynch? I saw that it was a clever book, and gritty, with a cool world. And there was an orphan boy in it who was a witty, mouthy thief. A while after that, I met Scott and really liked him as well. So I let go of what little residual irritation I had, not that there was very much Fast forward to now. The construction of it. Even so, do you know how rare it is for me to say that? Right now, in the full flush of this second reading, I think Lies is probably in e in my top ten favorite books ever. Maybe my top five. The beginning of his book is stronger than mine. His title is better than mine. And his series title is better than mine too. His cussing is better than mine. Not in real life. In real life I cuss like a sailor. But the language in my books is pretty genteel and tame. It builds the world. It helps make the story feel truly, perfectly grubby and real. Here it is in a nutshell: When I was first published, I was irritated when people compared me to Scott Lynch. Only now do I realize how huge a compliment I was being given. If you have read it, you should probably read it again

Theatre[edit] The story of A. Holland as Captain Bedford. Former boxer "Gentleman Jim" Corbett played Raffles, who was portrayed as an American to match his casting. McCormick did not secure permission from either Doyle or Hornung to use their characters. A movie adaptation of the play removed Holmes but kept Raffles, again played by Corbett. Raffles which differs from the Hornung canon on several points, including reinventing Raffles and Bunny as a homosexual couple. Published in the story paper The Thriller during the s and early s, [1] his series featured Raffles as a fairly typical contemporary pulp adventure hero and plays the role of detective alongside that of thief. When he picked up the series again in the s, and once again during the s, the stories were set closer to the late Victorian-setting of the original stories. Over the course of 50 years, off and on, Perowne produced around 60 short stories, some at novella length, and five novels featuring Raffles. Peter Tremayne wrote the novel The Return of Raffles in which Raffles becomes involved in a plot between rival spies. Some were adaptations of scripts he wrote earlier for the Imagination Theater radio series. They were collected in the book The Ardagh Emeralds. Raffles, a master of gamesmanship, explores the corrupt world of international cricket match fixing. Watson, was published in the April issue of The Bookman. A portion of the story was republished in the collection The Misadventures of Sherlock Holmes , edited by Ellery Queen. Later stories in the sextet see Raffles and Bunny encounter H. Wells and Irene Adler. The Master quickly kills him along with the other members of the Society. The Suffering by Jacqueline Rayner has the First Doctor comment that he learned his house breaking techniques "from Raffles". Raffles is real too.

3: Adventures of Jase: A Run-down on the Gentleman's War

the adventures of a gentleman voyager - episode 2 - crossing the pacific (documentary, discovery) the adventures of a gentleman voyager - episode 4 - indian ocean and the spices road.

Queen Margrethe II of Denmark Henrik, Prince Consort of Denmark Baron de Rede 10 Jul in The Telegraph The Baron de Rede, who died on Thursday aged 82, was the man who restored the Hotel Lambert in Paris, and was variously described as "the Eugene de Rastignac of modern Paris" by Chips Channon, "La Pompadour de nos jours" Nancy Mitford and "the best host in all Europe"; though largely unknown to the general public, he lived a self-imposed life of exquisite perfection, which extended to furniture, food, courtesy and flowers. Alexis de Rede was born in Zurich, Switzerland, on February 4, the son of Oscar von Rosenberg, a Jewish banker from Austria-Hungary, who became a citizen of Liechtenstein and was given the title of Baron de Rede by the Emperor of Austria in 1911. This was a genuine title, though it did not appear in the Almanach de Gotha, and, inevitably, Nancy Mitford and others questioned its validity. Young Alexis was brought up a Protestant, spending his early years in a suite of 16 rooms in a Zurich hotel with his mother, brother and disadvantaged sister, his father visiting occasionally. When he was nine, his mother left for Vienna, where she was informed that her husband was keeping a mistress in Paris. Three weeks later she died of leukaemia. He was at the school at a period when Nazism was becoming a growing threat, as he discovered when a German friend at the school announced that he would no longer speak to him. In 1918, Oscar Rosenberg committed suicide on account of financial problems, leaving his children a small income from a life insurance policy. Alexis found himself in the care of an unsympathetic guardian and preferred to set off by boat to New York, an umbrella from Swaine, Adeney in hand. Presently he went to California to try his luck working for an antique dealer, and made friends with the artist Salvador Dali and his wife, but in returned to New York. In a New York restaurant he was spotted by Arturo Lopez-Wilshaw, an immensely rich Chilean with a fortune derived from guano, who, although married to his cousin Patricia Lopez-Huici, had enjoyed a number of homosexual relationships with various partners, including one of the Rocky Twins who had danced with Mistinguett in Paris. Before the war he had bought a house in Neuilly, 14 rue du Centre, which he rebuilt and furnished with priceless treasures. Lopez apparently offered Rede one million dollars to return to Europe with him, though on this matter Rede was reticent. Rede arrived in Paris in the company of the interior decorator Lady Mendl Elsie de Wolfe in June and was instantly swept into the centre of chic Parisian life. Paris had suffered during the Second World War, and most Parisians were short of money. The set was always a little aloof from Paris life, entertaining the grand and the rich. The writer Philippe Jullian described their world as like a small 18th-century court, with all the usual intrigues. The more interesting members of the circle included the poet and patron of the Surrealists, Marie-Laure de Noailles who fell in love with Rede, and seduced him twice, musicians such as Henri Sauguet, Georges Auric, and Francis Poulenc, and the artist Christian Berard. Important influences were the interior decorators Georges Geffroi and Victor Grandpierre. At this time, Lopez lived with his wife Patricia, a well-known figure in the Paris social world, though there hovered on the scene his pre-war boyfriend, Tony Pawson who was soon sent packing. The arrival of Rede into this menage was at first uncomfortable, with many of the grand ladies less than inclined to accept his hospitality. His position in Paris life was greatly enhanced by his move, in 1921, into a magnificent apartment in the Hotel Lambert, on the Ile St Louis. This he restored beyond its former glory, filling it with well-chosen treasures, including a desk, the pair of which is owned by the Queen. The Lambert gave him a place to entertain, which he proceeded to do in lavish style for the next 55 years. When Chips Channon dined in the Gallery in 1922, he wrote: There was also a yacht, La Gaviota, fabulously decorated by Geffroi, in which husband, wife and Rede travelled for many months each year, taking the same friends with them. They were often in St Moritz at the Palace Hotel, maintained an apartment at the Grand Hotel in Venice, and rented different properties for other holidays. For a Beaumont Ball in 1923 he commissioned Cardin, then working alone in an upstairs atelier, to create a costume for him. When Rede gave the Bal des Tetes at the Lambert in 1924, at which the Duchess of Windsor was one of the judges, the young Saint Laurent made many of the headdresses, thus meeting many important clients. The

most spectacular entertainment he gave was the Oriental Ball, again at the Lambert, in December Half-naked men dressed as Nubian slaves bearing torches lined the stairs, and turbaned figures sat on two giant papier-mache elephants in the courtyard. One guest arrived in the back of a lorry, her metal costume being so rigid. Then, after the death of Lopez in Lopez bequeathed half his fortune to his widow, and the other half to Rede , he teamed up with Prince Rupert zu Loewenstein, and other partners, taking control of the bank Leopold, Joseph and Sons, serving as Deputy Chairman. With Loewenstein he was closely involved in managing the money of the Rolling Stones, and he was a founder of Artemis, the firm which acquired and exhibited important works of art, and had many museums as their clients. It was not long before Rede forged the second great friendship of his life, with Marie-Helene de Rothschild, wife of the banker Baron Guy de Rothschild. They became inseparable, Rede even persuading her to get Baron Guy to buy the whole of the Hotel Lambert in He collaborated with Marie-Helene on the costume balls she gave at the Chateau de Ferrieres, in the countryside near Paris, notably the Proust Ball and the Surrealist Ball. Rede also raced with some success, winning the Prix de Diane French Oaks with Rescouste in , and coming second in the same year at the Arc de Triomphe, with Pleben. Marie-Helene became ill in the s and died in Thereafter Rede was a rather lonely figure, continuing the lunch parties at the Lambert to the day he died, and going out to concerts and restaurants in the evening. There was no diminution in the luxury with which he surrounded himself, and it was natural for him to take his own sheets with him when he checked into the American Hospital. He remained as laconic as ever, and there was little that happened in the beau monde worldwide about which he was not au courant. In he was appointed Commandeur des Arts et Lettres, for his restoration of the Hotel Lambert, and he had recently completed his memoirs. He did, however, live a life of immense luxury which infiltrated all areas of his life. Included in the many items, which comprised three catalogues, was a light chandelier expected to sell for between one and two million euros. He died suddenly at the home of a friend, Carmen Saint, at the age of Hugo Vickers is credited as editor, but was also the ghostwriter. The Emir plans a multimillion-dollar renovation which has been approved by French Culture Minister Christine Albanel Voltaire once called it a home fit for a king “ and for a few hundred years, it was. Paris Historique, which took the developers to court after the government signed off on the project, says the underground parking lot would threaten the stability of the now-dilapidated mansion. It was already a home. The renovations will be done according to the rule book. Since last year, President Nicolas Sarkozy has been trying to win multibillion-dollar energy deals with Qatar and new investment from the Persian Gulf. Opponents are also concerned that Paris is now sacrificing heritage for economic gain. The amendment was rejected by the Senate and is now before a conference committee. But it has been through various owners, who have made various architectural changes, some of them disastrous. The building was most recently used as a kind of apartment complex for friends of the Rothschild family, and some of the most beautiful rooms, with frescoed ceilings and 18th-century paneling, are moldy and cracked. The plumbing is outdated and leaks; the original floors are a mess, or have been replaced. Even a free-standing silver bathtub, set in a huge room with a view of the river, is pitted and tarnished. Muammar el-Qaddafi feel queasy. Now some preservationists are up in arms over the plans of Prince Abdullah bin Khalifa al-Thani to restore the 43,000-square-foot building and its finest features, while modernizing it for his family and his extensive collection of 17th- and 18th-century French art. While some of the fiercest discussion is about how the prince plans to park his car in the interior courtyard and whether he can put in another elevator, there is also a small cloud of xenophobia hanging over the controversy, which is currently stuck in the courts. A final decision is expected in a few months. In France, restoration of protected buildings must be overseen by a state-certified architect. For the Lambert, that job belongs to Alain-Charles Perrot, the chief architect for historic monuments. The polemic surrounding the Lambert, he said, has been political from the start. He spoke of the damage already inflicted on the building over the centuries, citing the four 19th-century square windows on the top story as an example of something he would remove. His deputy, Florent Richard, showed visitors to the palace thick books of architectural drawings and renovation appraisals that describe the original structure of each door, window, floor, ceiling, fresco and piece of hardware, as well as what has been altered and what various restorers propose to do now. Richard said, arguing that no hasty decisions have been made. In response to complaints, plans for parking and an elevator

have been altered, and Mr. Richard said that the heating and cooling system would be environmentally responsible and keep the interior of the vast building, with its art and frescoes, at a stable temperature and humidity. The Socialist mayor of Paris recently encouraged Qataris to invest here. Perrot said he believed that the controversy could lead Mr. Khalifa al-Thani to abandon his plans. Plans to renovate the 17th-century building and fit it out with an array of modern conveniences such as lifts, air-conditioning and an underground car park have provoked the rage of architects, historians and glamorous former residents, who have gone to court in an attempt to halt them. Architects and politicians from the Commission for Old Paris first sounded the alarm bells in December, when news of the planned modernisation first emerged. But those concerns were passed over in June by the government, which insists the building is in a "very bad state" and needs urgent work to save it from further decay. But that view is not shared by his distinguished neighbours on the Ile St Louis. But maybe that would have been less chic, less elegant," Morgan told Prestigium magazine. A spokesman for the court hearing the case said a decision was not expected before next month. Publicada por Jeeves em

You are now lying in the soil of a friendly country, therefore rest in peace. There is no difference between the Jonnies and the Mehmetts to us where they lie side by side. Here in this country of ours You, the mothers, who sent their sons from far away countries wipe away your tears. Your sons are now lying in our bosom, and are in peace. After having lost their lives on this land they have become our sons as well. Here is a brief account of what happened in Gallipoli it may or may not be correct, and some photos: Churchill ordered the Anzacs to launch an offensive on the Gallipoli peninsula, as a first step in a plan to capture the city of Constantinople now called Istanbul. Constantinople was the capital of the Ottoman Empire, which was an ally of Germany the baddies. The purpose was to allow the British Empire to gain control of the Black Sea, which would have given them marine access to Russia and Central Asia, and would have been a strategic gain in the war against the dirty Germans. The Anzac attack followed an unsuccessful naval assault by the Brits and French on the Sea of Marmara the ocean leading from the Mediterranean to the Black Sea. However, the fleet got bombed to high heaven so the Brits decided that it was necessary to first take the peninsula, then to send the navy later. The Anzac offensive didn't go nearly as well as was anticipated. The poorly planned offensive resulted in thousands of Kiwis and Aussies being ordered to their death by English generals. They were hammered by the entrenched Turkish troops upon their landing at the small cove. After several weeks of fierce battle the sides called a truce to allow for the recovery of bodies from the battle fields. This show of humanity caused something of a sea change in the battle. At this stage, both sides were in a futile position, and were unable to advance. This led to a two month stalemate in the battle. During this time a sense of comradeship developed between the Anzacs and the Turks, whom were both bored shitless. The troops chatted and traded cigarettes and confectionery by throwing them between bunkers, which in places were only 7m apart. One famous story involved a Turk soldier running into the line of fire to save an injured Australian man. He carried him to safety, before resuming his position in the trenches. A couple of months later the Anzacs launched another offensive, but poor decisions made by English generals led to the Anzacs being left unsupported in a precarious position after taking a strategic peak on the peninsula. The Kiwis were forced to retreat and the offensive was called off. After this second botched offensive. Churchill replaced his general in charge of the campaign with a proper general. The new general assessed the situation and immediately recommended a full withdrawal of troops, noting that the battle was unwinnable from the beginning. What a waste of young lives.

5: REVIEW: The Gentleman™'s Guide to Vice & Virtue by Mackenzi Lee – The Curious Adventures of

Pelham's a fine tale, but mostly it's remarkable as a classic "Fashionable Novel" -- in its day, the Fashionable Novel was a genre unto itself, focusing on the manners, habits and lifestyles of the Rich and Famous of the first half of the 19th century -- the jet set of its day.

Hamish Hamilton, UK, hardcover, Hornung only wrote three collections of short stories about amateur cracksman A. Raffles, and a disappointing novel Mr. Justice Raffles, so in Montague Haydon, editor of the British magazine Thriller had the bright idea of continuing the character. The writing was good, and the tales enjoyable, but the war and the paper shortage ended both Thriller and Raffles. In Perowne had the bright idea of bringing Raffles back yet again, but this time in his original form, in short stories set in the original period and milieu. Raffles, the gentleman cricketer of the M. They were an immediate critical and popular hit. In addition Perowne gave the perpetually dumb Bunny half a brain, a device that helped the stories no end, and added Raffles sister Dinah to the mix. The stories in Raffles Revisited are: Kismet and the Dancing Boy Raffles plays cupid while coveting a rare chess set. The Birthday Diamonds In Paris Raffles finds himself cracking a safe for a Parisian policeman in front of a room full of witnesses – and still gets the swag. The Dartmoor Hostage A cricket game at the prison uncovers an attempt to break in to Dartmoor, and a secret that turns a profit for Raffles. Six Golden Nymphs Raffles eludes the police by setting them to solve a murder that never happened. The Coffee Queen Affair Raffles meets his American compliment and aids the Knickerbocker Kid in reform and romance, all to win a wager on who will be chosen the Coffee Queen. An Error in Curfew Raffles postpones lifting a fortune in jade to help a houseful of young ladies named after the days of the week. Bo Peep in the Suburbs Raffles has to rob a safe that is only out of sight for a few minutes every day. The Governor of Gibraltar Raffles becomes the envoy for his old school chum the Royal Governor of Gibraltar in order to help the husband of a charming and innocent con woman escape from a heavily guarded ship carrying gold bullion. Later books in the series, Raffles of the Albany, and Raffles of the M. Perowne is not the only author to continue Raffles adventures. John Kendrick Bangs wrote a series featuring Mrs. Graham Greene penned a play, The Return of A. David Fletcher, creator of the British television series Raffles with Anthony Valentine wrote a novelization of the eleven stories in the series. How they manage that feat is a constant source of entertainment in probably the finest series of pastiche ever written. The Complete Innings by Richard Foreman, six short stories.

6: The Polohouse: A Gentleman's Farm

I have been on more gentleman's adventures than you can shake a stick at and I have noticed that there are certain circumstances that tend to crop up wherever you might find yourself. The main offender is quicksand.

7: A gentleman™'s adventure | The Gentleman

'Adventures of a Gentleman's Gentleman' is true to life: Hunting describes celebrities with a mixture of heart-felt warmth and a healthy dose of fascinating criticism. At first I was dubious about 'Adventures of a Gentleman's Gentleman' because I had not heard of Guy Hunting; but this doesn't make his book any less insightful.
