To Build a coastal railway line 1, km long and a design speed of km/h including 22 railway stations along the line. Nigeria Coastal Railway They discussed the situation along the Line of Control in Jammu and Kashmir and the Working Boundary between Pakistan and India.

Grant , Orson Hyde , Joseph F. Smith and Orson Pratt stated it was part of their religious belief that Jesus Christ was polygamous , quoting this in their respective sermons. There were Elizabeth and Mary and a host of others that followed him". Jesus, Moses and the ten lost tribes of Israel, Andreas Faber-Kaiser explored the legend that Jesus met, married and had several children with a Kashmiri woman. The author also interviewed the late Basharat Saleem who claimed to be a Kashmiri descendant of Jesus. The symbolic significance of Jesus is that he is God exposed to the spectrum of human experience " exposed to the first-hand knowledge of what being a man entails. But could God, incarnate as Jesus, truly claim to be a man, to encompass the spectrum of human experience, without coming to know two of the most basic, most elemental facets of the human condition? Could God claim to know the totality of human existence without confronting two such essential aspects of humanity as sexuality and paternity? We do not think so. In fact, we do not think the Incarnation truly symbolises what it is intended to symbolise unless Jesus were married and sired children. The Jesus of the Gospels, and of established Christianity, is ultimately incomplete " a God whose incarnation as man is only partial. The Jesus who emerged from our research enjoys, in our opinion, a much more valid claim to what Christianity would have him be. Unlocking the Secrets of His Life Story , Barbara Thiering also developed a Jesus and Mary Magdalene bloodline hypothesis, basing her historical conclusions on her application of the so-called Peshier technique to the New Testament. Mary Magdalene and the Holy Grail, Margaret Starbird developed the hypothesis that Saint Sarah was the daughter of Jesus and Mary Magdalene and that this was the source of the legend associated with the cult at Saintes-Maries-de-la-Mer. The Explosive Story of Genetic Cloning and the Ancient Bloodline of Jesus is unique in claiming that not only can the Jesus bloodline truly be traced back to Adam and Eve but that the first man and woman were primate-alien hybrids created by the Anunnaki of ancient astronaut theory. Elements of some Jesus bloodline hypotheses were propounded by the documentary film The Lost Tomb of Jesus by Simcha Jacobovici focusing on the Talpiot Tomb discovery, [19] which was also published as a book entitled The Jesus Family Tomb. The Hidden History of the Mother and Wife of Jesus, in which she tries to further validate the possibility of Jesus and Mary Magdalene producing a family. Bloodline documentary The documentary Bloodline [22] by Bruce Burgess , a filmmaker with an interest in paranormal claims, expands on the Jesus bloodline hypothesis and other elements of The Holy Blood and the Holy Grail. In the film, Burgess interviews several people with alleged connections to the Priory of Sion, including a Gino Sandri and Nicolas Haywood. Joseph and Aseneth In fringe investigative journalist Simcha Jacobovici and fringe religious studies historian Barrie Wilson suggested that a 6th century manuscript told the tale of Jesus and Mary Magdalene under the coding of "Joseph" and "Aseneth" [28] This manuscript, called "Joseph and Aseneth", forms part of an anthology compiled by Pseudo-Zacharias Rhetor , so-named because it also includes the important Ecclesiastical History by the real Zacharias Rhetor. These documents are preserved as British Library Manuscript 17, along with other important works, e. The Seven Sleepers of Ephesus, the finding of first century relics of Stephen and Nicodemus, and the Conversion of Constantine written by a bishop of Rome named Sylvester. As Jacobovici and Wilson point out, there are two covering letters to "Joseph and Aseneth". Being rusty in Greek, he asked his friend, Moses of Ingila , to translate the work, suspecting that it contained a hidden meaning. The second letter is by Moses of Ingila. He translated the work into Syriac, positioning it as a work of Wisdom whose meaning has to be carefully discerned, at the same time confirming the truth of mainstream Christianity in relation to Jesus Christ. Along with the clues provided by the covering letters, the use of Christian terminology "Son of God," "Bride of God" , Eucharistic imagery and Syriac use of typology in which Old Testament figures prefigure New Testament ones, the authors argue that the work reflects a community which held that Jesus was married and had children. Using advanced digital imaging techniques, the authors restored the

original Syriac text, providing a modern English translation of both "Joseph and Aseneth", and, for the first time ever, the two covering letters. The book abounds with historical surveys and enlightening discussions on its sources, terms, characters and various period-related aspects. This book will certainly occupy a highly important place in the scholarly quest for the historical Jesus, as it raises the fundamental question:

2: Bloodline (TV series) - Wikipedia

"In ALONG THE BLOODLINE, Adelle Foley transplants the 16th-century Japanese haiku form to 21st-century America with grace and humanism Foley honors the 'bloodlines' of the form while making it very much her own, and we're all the richer for it.

Season 1 [edit] The series begins with narration by John Rayburn: You can feel it. Danny is the black sheep of the family, with a poor reputation among them, including his three younger siblings: John, Kevin, and Meg. Danny wants to make his return permanent as he wishes to stay to help his parents at their inn. John breaks the news to Danny, but lies to him by telling him it was their father who wanted him gone, rather than the siblings. Ultimately Danny does not leave, although he gets a ride to the bus stop from John. Danny took Sarah out on a boat. Her seahorse necklace fell into the water, and when she attempted to retrieve it, she drowned. Robert lost control and beat Danny over her death. The two begin siphoning gasoline from local docks for drug and human trafficker , Wayne Lowry. Danny eventually uses his job at The Rayburn House as a front to smuggle cocaine for Lowry. The investigation leads John to Danny and his recent activities. Unbeknownst to Danny, they move the drugs, replacing them with empty suitcases. The loss of the drugs puts Danny in a bad situation with Lowry, who believes that Danny has stolen the cocaine from him. Lowry sends a hitman to assassinate Danny, but Danny kills the hitman. Under pressure, Danny begins to act erratically. Danny tries to get to John by taking his daughter Janie out on a boat and giving her a seahorse necklace, similar to the one that belonged to their deceased sister, Sarah. John and his wife Dianna take this as a threat against the family, so John sends his wife and children away for a few days. The seahorse necklace causes John to reach his breaking point. During a confrontation, John drowns Danny in the ocean. Distraught from murdering his brother, John turns to Kevin and Meg for help. Unsatisfied with what she is told, Sally turns to family friend and retired detective Lenny Potts to privately investigate the matter. Nolan and his mother arrive at the Rayburn house and meet Sally to discuss Danny. John tries to get the tape off Lowry by telling him to turn himself in so that the DEA can arrest his contacts and his family will be protected. Lowry ends up about to do it but backs down due to Kevin giving back some of the drugs Danny had. Lowry is killed by the father of one of the victims killed when he blew up a boat containing people they were trafficking. Marco, who used to have a relationship with Meg, grows to resent the Rayburn family for lying and telling contradictory stories. Meg goes and hides in Los Angeles. Angela Winiewicz portrays young Sarah in flashbacks. According to its official synopsis released by Netflix, Bloodline "centers on a close-knit family of four adult siblings whose secrets and scars are revealed when their black sheep brother returns home. And because we all come from families with three sons, we recognize the roles we play. So the thought was, why not try to mine some of that in our creative life? They settled on a family-thriller genre, set in the Florida Keys, which explored the ghost of the past in family role formation. They met with Chandler in Austin, Texas , and pitched the part. I wanted to be a part of it. When we first hired him, it was for more than the first season. Filming[edit] Todd A. Kessler described why they shot the show on location in the Florida Keys: The first season just gets us to the starting line. Cinematographer Jaime Reynoso said, "he never saw [Bloodline] as a TV show", finding the all-at-once Netflix model useful in filming the series as if it were a shorter film. He explained, "The concept the writers had was they wanted it hyper-realistic, almost documentary style. Despite receiving tax credits for shooting in Florida, shooting in the Florida Keys was costly. The high production cost is cited as one of the reasons for cancellation, despite positive reviews and award nominations. It makes things more difficult".

Comments on along the line. What made you want to look up along the line? Please tell us where you read or heard it (including the quote, if possible).

For example, certain characters gain bonuses when sharing a squad with another character, while others gain bonuses when positioned at the back or front of the battle line. Additionally, every hero has a leader skill that grants the entire squad a specific bonus if he or she is assigned as the squad leader. Choosing the right hero to be the squad leader is important, as the bonuses can be substantial enough to win you a battle if chosen correctly. Bloodline also has an elemental system in which every character specializes in one of six elements: Every element is strong and weak against another element; for example, Fire element characters are strong against Earth characters, but weak against Water characters. Every enemy encounter presents its own unique challenge, so players must constantly adapt to them by changing squad configurations and squad leaders. A Multitude of Game Modes Edit Bloodline features a number of gameplay modes that allow players to grow their higher level cards and engage with one another in cooperative and adversarial gameplay. Throughout it, players will follow central protagonists Lilo. I, the heiress to the vampire legacy, and Ron, a hapless high school student who inadvertently becomes Lilo. Players assemble an expedition of 15 heroes and face off against up to 15 enemy squads randomly selected from other Bloodline players. Players must reconfigure their squads to counter each threat, but can only draw from the 15 heroes selected. As players defeat more and more opponents, they rise in the ranks and earn both rewards and rank titles. These are events that are available on specific days and times each week and allow players to fight battles that yield difficult to find materials. Some events apply restrictions on what type of heroes can be used. Unlike Events, Challenges are always available. Players engage in battles that are significantly tougher than in Story Mode and, if victorious, are rewarded with rare materials and cards. Players can band together into small communities called Guilds and work together to achieve rewards. Another feature is Flying Chess, in which Guild members roll dice to collect a number of rewards. Massive new features will be added to the Guild mode post-launch, so players should keep an eye on it. Players who prefer not to micromanage their squad during battle can use Auto Battle to let the AI take over. The Game Speed button can also be activated to make fights go significantly quicker. Players who defeat a stage without any casualties will earn a perfect three star rating and be given the option to Raid that stage for additional loot and cards, saving them the trouble of having to play it all over again. Over cards to Unlock and Invest in Bloodline features over unique cards for players to collect, from chivalrous knights and demonic warlords, to minigun-toting chibis and psychotic jesters, to hilarious mushroom buddies and flesh-eating treasure chests. Every character has its own artwork, backstory, skillset, voice acting and animations, so assembling squads with such diverse personalities is a real joy! Visit the Bloodline website:
