

APPLIED PARALLEL COMPUTING. NEW PARADIGMS FOR HPC IN INDUSTRY AND ACADEMIA pdf

1: Applied Parallel Computing Advanced Scientific Computing | Download eBook PDF/EPUB

The general theme for PARA was New paradigms for HPC in industry and academia focusing on: { High-performance computing applications in academia and industry, { The use of Java in high-performance computing, { Grid and Meta computing, { Directions in high-performance computing and networking, { Education in Computational Science.

Good low degree rank-1 lattice rules of high dimension. Trigonometric interpolation on lattice grids. Published ahead of print. Multidimensional pseudo-spectral methods on lattice grids. Numerical solution of the 3D time dependent Schrodinger equation in spherical coordinates: Spectral basis and effects of split-operator technique. Journal of Computational and Applied Mathematics. Five-dimensional K-optimal lattice rules. Load balancing and OpenMP implementation of nested parallelism. Journal of Physics A: A spectral method for integration of the time-dependent Schrodinger equation in hyperspherical coordinates. Lecture Notes in Computer Science. A parallel split operator method for the time dependent schrodinger equation. Four-dimensional Lattice Rules Generated by skew-circulant matrices. Electron emission during combined attosecond laser pulses and ion-atom collisions. Atomic, Molecular, and Optical Physics. Electron emission during combined attosecond pulses. Beregningsvitenskap - en tredje vei? Allocation of threads to tasks and OpenMP implementation. Journal of Scientific Programming. Computational optimization and applications. Lattice rules by component scaling. Efficient matrix multiplication on SIMD computers. A search program for Finding Optimal Intergration Lattices. On the subdivision strategy in adaptive quadrature algorithms. A note on an orthogonal design for the assignment problem. An algorithm for finding Optimal Integration Lattices of Composite order. Notes on integration and integer sublattices. Costs and Savings of Adaptive Mesh Refinement. Institutt for informatikk, UiB, Bergen, Norway. Partitioning an array onto a mesh of processors. Institutt for Informatikk, UiB. Department of Informatics, University of Bergen. Optimal partitioning of sequences. An SIMD, fine-grained, parallel algorithm for the dense linear assignment problem. Triangular solvers for massively parallel SIMD computers. A search program for Finding Optimal integration Lattices. Reliable and efficient algorithms for adaptive quadrature. Fully symmetric integration rules for the 4-cube. High dimensional interpolatory cubature rules on transformed lattice grid. Two different data-parallel implementations of the BLAS. Software for parallel computation.

2: Tor SÃ¸revik | Universitetet i Bergen

Applied Parallel Computing. New Paradigms for HPC in Industry and Academia: 5th International Workshop, PARA Bergen, Norway, June ,

3: Workshop New Paradigms For Manufacturing | Download eBook PDF/EPUB

Applied parallel computing: new paradigms for HPC in industry and academia: 5th international workshop, PARA , Bergen, Norway, June , proceedings. [Tor SÃ¸revik;] -- This book constitutes the thoroughly refereed post-proceedings of the 5th International Workshop on Applied Parallel Computing, PARA , held in Bergen, Norway in June
