Audio Centron combined their rugged high-output designs with well thought out circuit technology and placement to deliver unmatched performance in the professional world. Audio Centron amplifiers deliver true studio-quality sound. The RMA is a very articulate, extremely warm sounding professional amplifier. The RMA is rated at watts per channel 4 ohms, but capable of delivering over watts when bridged mono and will deliver over twice this rated power under dynamic conditions. The power supply is the heart of an amplifier, converting raw AC power from the wall to clean DC for the audio circuitry. This makes a critical difference in sound quality, allowing the amp to effortlessly punch out high level transients, even when driving abusive 2 ohm speaker loads. The RMA provides excellent thermal performance that gives you higher continuous power when driven down into the 2 ohm range and bridged applications. The front panel is in excellent condition; the rack ears have a few scuff marks and there is a couple of marks to the top edge of the unit. The top panel has imperfections. The above mentioned imperfections will go unnoticed once placed into your rack leaving you with an excellent looking amplifier. I am confident you will be very pleased with its cosmetic condition. This amp is in perfect working order. Everything on this amp works buttons, lights switches, etc , it has been fully bench tested. This does not mean that it was just hooked up to a preamp and run for a few minutes This amp is performing as Audio Centron originally intended. You will not be disappointed in its performance. The RMA Series is extremely reliable. These amps are designed to run 24hrs a day. Guaranteed to arrive in working condition. Buyer to pay actual shipping no handling fees. I take pride in everything I sell. You will be receiving a nice item that I am sure you will enjoy All items are extremely well packed by me to insure safe arrival to their final destination. Everything I ship is insured at no extra cost. I do my best to describe my items accurately and thoroughly. I rarely have issues with items sold. If an issue does arise you can easily contact me by phone or email. Phone is the quickest way to get a hold of me. Most emails are answered within hrs.
