

1: Austin-Healey () | Awesome cars

The Austin-Healey is a British sports car built from to It is the best known of the "big Healey" models. The car's bodywork was made by Jensen Motors and the vehicles were assembled at BMC's MG Works in Abingdon, alongside the corporation's MG models.

Your offer was very fair and your check was in my account within 24 hours. Your transportation people were courteous, quick and efficient in picking up and loading the car for transport. You have an excellent administrative support team that made this transaction smooth and hassle free. A great customer experience!!!! It began with a phone call on Saturday, pictures sent and deal closed, cashier checks in hand and cars picked up by Tuesday! Everyone was extremely helpful and professional. He was very efficient, professional and honest. He sent the check quickly and had someone pick up my Austin Healey within a couple of days! I would definitely recommend working with Alex! Thank you for your excellent service! Dealing with Alex and his staff could not have been easier. He made me a fair offer on my Austin Healey Bug Eye and after 32 years of ownership, I am confident it will go to a good home and be put back into mint condition. Alex literally paid me overnight as I received a Fed Ex payment the day after. His team followed up on the details including all needed paperwork as well as timely and considerate pick up of the vehicle at my home. No hassles at all, Alex did everything he said he would do, kinda reminded me of the old auto dealer days where their word is their bond! Would definitely recommend them to anyone. If I ever need a vintage car, there is no doubt where I am buying it from. I would recommend Alex to anyone with a sports car to sell. The whole process was seamless and painless. I had the car 30 years and did most of the restoration work myself and was looking for someone who would give it a good new home and life. I highly recommend Alex and his team. I will recommend them to everyone in the car club here. It certainly was a handshake deal. If you remember back in the day when a deal was a deal this is the place! Have fun at the Austin Healey bug-eye Alex.

2: Austin-Healey - Home

The , the subject of this buyer's guide, was the final iteration of the design. Launched in as the successor to the six-cylinder Six, which itself was the follow-up to the four-cylinder , the stayed in production until , with various alterations and improvements made along the way.
