2: How does the Employment Tax Incentive (ETI) work

Background on tax incentives for employment: scheduled for a hearing before the Subcommittee on Economic Growth, Employment, and Revenue Sharing of the Committee on Finance on April 3,

Read more on the changes. Your submissions are late and should be submitted without any further delay as you may be liable for penalties. Millions of young South Africans are excluded from participating in economic activity, and as a result suffer disproportionately from unemployment, discouragement and economic marginalisation. High youth unemployment means young people are not gaining the skills or experience needed to drive the economy forward. This lack of skills can have long-term adverse effects on the economy. In South Africa the current lack of skills and experience as well as perceptions regarding the restrictiveness of labour regulations make some prospective employers reluctant to hire the youth. As a South African employer, you now have a great opportunity to boost the employment of young work seekers. The ETI is an incentive aimed at encouraging employers to hire young work seekers. What are the benefits for employers? The benefits of the ETI are: For example, employers who are registered for PAYE, and who employ a person for the full month of February and earns R, will get R1 off their monthly PAYE liability provided that the employee is a qualifying employee based on all the other remaining requirements. Employers will be able to claim the incentive for a 24 month period for all employees who qualify. Click here for more information. The incentive amount differs based on the salary paid to each qualifying employee and whether the qualifying employee was employed after the inception of the ETI programme on 1 October ETI may only be claimed for a total of 24 qualifying months. This incentive will complement existing government programmes with similar objectives e. The aim of the ETI is to facilitate the increased employment of young work seekers. To work out if you are a qualifying employer click here. How do I determine who is a qualifying employee? There is no limit to the number of qualifying employees that an employer can hire. An individual is a qualifying employee if he or sheâ€” Has a valid South African ID, Asylum Seeker permit or an ID issued in terms of the Refugee Act Is 18 to 29 years old please note that the age limit is not applicable if the employee renders services mainly inside a special economic zone SEZ to an employer that is operating inside the SEZ.

3: Employment Tax Incentive (ETI)

Establishing a foundational knowledge on federal and state employment tax incentives is helpful as you consider incorporating these credits in your tax savings strategy. The following information provides an introduction to federal and state tax credits and incentives your business may qualify to claim.

In an effort to highlight these issues to the field and offer training, the Justice Center has partnered with key agencies across the country to develop a one-stop source for the latest information on legal, policy, and other common barriers faced by the reentry population, as well as tools and resources to help the field understand how to address these barriers through policy. Related Tools and Resources Select a topic area for related information and resources Laws on the employment of individuals with a criminal history and use of criminal background checks Knowing and understanding employment laws as they relate to criminal record dissemination, use, and consideration is essential for both employers and job seekers. There are many laws that restrict access to criminal record information, determine what information employers are allowed to consider in hiring decisions, and dictate what information job seekers are required to disclose. The resources in this section provide essential information on these laws, and the rights and obligations of employers and job seekers. The enforcement guidance consolidates and updates the U. The Commission intends this document for use by employers considering the use of criminal records in their selection and retention processes; by individuals who suspect that they have been denied jobs or promotions, or have been discharged because of their criminal records; and by EEOC staff who are investigating discrimination charges involving the use of criminal records in employment decisions. This policy paper provides information criminal background checks, including: It also provides information on how the use of criminal background checks affect the broader economy and public safety. American Bar Association Available here Summary: This is a database of the collateral consequences at the state and federal levels, resulting from a criminal conviction. Displayed as an interactive map, information on consequences can be accessed for each state. Users can search by Consequence Category for example: This is being prepared by the American Bar Association under a contract with the U. Currently, the database includes 23 states and the federal government, and will be completed in This publication provides a compilation of federal laws and regulations, and the collateral consequences that affect individuals with a criminal conviction. The employment-related topics discussed are collateral consequences in: In addition to the employment-related topics, other topics include: Criminal Records as Barriers to Employment Source: National Institute of Justice Available here Summary: This project by the American Bar Association contains information on the collateral consequences that face youth that have come into contact with the juvenile justice system. Users can search by state to find out about the barriers in education, employment, and public benefits that face individuals in each jurisdiction. There is also information on the treatment of juvenile records and the process of challenging, sealing and expunging these records. Office of the Attorney General, U. Department of Justice Available here Summary: This report by the Attorney Generals office of the U. S Department of Justice is a comprehensive overview of criminal history background checks and their purpose, process, legal regulation, shortcomings, and more. On the laws regulating background checks, the report provides information on the Fair Credit Reporting Act, Title VII of the Civil Rights Act of , the Equal Employment Opportunity Commission Guidance, state consumer reporting laws, state equal employment opportunity laws, and regulatory requirements of the private sector. The report also provides recommendations on how to improve, standardize, and consolidate the process and procedures of conducting criminal background checks. The 54 jurisdictional profiles include provisions on loss and restoration of civil rights and firearms privileges, legal mechanisms for overcoming or mitigating collateral consequences, and provisions addressing non-discrimination in employment and licensing. In addition to the full profiles, there is a set of chart covering all 50 states plus territories and federal system, providing a side-by-side comparison that makes it possible to see national patterns in restoration laws and policies. This policy paper summarizes state-level reforms passed between that helped reduce barriers to employment for individuals with a criminal record. The policy reforms discussed in the paper are in the following categories: This is an overview of reforms made by local cities and counties to reduce barriers to employment for individuals with a criminal record. Many of these reforms include removing the question about past convictions on job applications, not conducting background checks until later stages of the hiring process, performing background checks for only certain positions, and more. Removing Statutory Barriers to Reentry Source: American Bar Association Keywords: Some states offer additional financial incentives to support employers that hire job seekers with criminal histories. The resources in this section provide information on these programs, as well as success stories from employers about the benefits of hiring people with criminal histories for their business and the communities they serve. Federal Bonding Program Available here Summary: This site provides information on the program, its highlights, procedures for obtaining a bond, and more. This web page from the U. S Department of Labor provides information on the tax credit, how to apply for it, and other related resources. In this speech, Fernan R. He shares his stories and his experience with hiring ex-offenders in the past 16 years, and the success and value that this has brought to his organization. Pastforward Progressive Placement Available here Summary: In her testimony, Pamela Paulk, the Vice President of Human Resources for John Hopkins Health System, shares about her successful experiences with hiring employees that have criminal records. She also explains the benefits for businesses of hiring these individuals, arguing that they create a positive impact on the community and they have higher job retention rates than their colleagues. During this hour and half long webinar, the presenter describes the history and the importance of the myth busters on reentry that the Federal Interagency Reentry Council created. The different myths are highlighted and then busted with the facts. These myth busters can be used to engage employers and keep them informed on the true facts about hiring someone who is released from prison. This succinct resource provides six reasons why a business can benefit by training and hiring individuals returning from incarceration. Business; hiring; tax breaks; labor force; parole; social mission. Contrary to popular belief, employers can protect themselves from potential property and monetary losses when hiring at-risk employees, including ex-offenders. This policy brief provides information on the Federal Bonding Program FBP , and how the program can assist businesses and employers with protecting themselves when hiring these individuals. It dispels the myth that employers have no federal income tax advantage for hiring individuals with a criminal record. Individuals with Criminal Histories: A Potential Untapped Resource Source: Legal Action Center Keywords: Crime and Justice Institute Keywords: The resources in this section provide information about common challenges that may impact the employability of people with criminal histories and often require intervention to help individuals overcome them, such as qualifying for public housing programs, obtaining drivers licenses, or obtaining public benefits. This report is a result of a longitudinal study conducted by the Urban Institute to learn about the employment experiences of ex-offenders and factors that influence their ability to find work post-release. The research interviews male prisoners from Illinois, Ohio, and Texas, as part of the Returning Home Project, which took place between , and explored factors that contributed to successful reentry. This website has a comprehensive list of legal barriers that face individuals with a criminal record in each state. Users can search by state and issue area including: It also has report cards, which rank each state by the barriers to reentry that ex-offenders face in their jurisdiction. Legal Action Center Available here Summary: The Legal Action Center has developed 12 Advocacy Toolkit that provide information on critically important policy, funding and legal issues that can be used to remove nearly all of the most harmful roadblocks to re-entry.
