*Baffling Brain Teasers (Test Your Intelligence) [Philip J. Carter, Kenneth A. Russell] on www.enganchecubano.com *FREE* shipping on qualifying offers. A follow-up title to Alan Wareham's Brain Teasers, with over brain-teasing questions graded from easy to very difficult.*

Last updated on 7 Jul, Tags: The puzzles are short in length but will force you to exercise your brain and use your logical skills. The puzzles are of a wide range and they vary from simple ones to the more difficult ones. Do not look at the answers found at the end of this document, that would be cheating. Write each of your answers down, it makes a difference. Good Luck for the IQ Test!

Two people were walking in opposite directions. Both of them walked 6 miles forward then took right and walked 8 miles. How far is each from starting positions? A person has a certain number of cows and birds. They have eyes and legs. How many cows and birds does he have? A person has 14 red socks and 14 white socks in a drawer. What is the minimum number of socks that he should take to get a correct pair? When a number is multiplied by 13, it becomes greater to by an amount with which it is lesser to by now. What is the number 5. How much time is left? What is the distance covered by fly? Who is my successor? A fast train leaves London for Brighton and at the same time, a slow train leaves Brighton for London. The fast train leaves at 80 mph and the slow train travels at 35 mph. When they meet, which is farther from London? A girl, a boy, and a dog start walking down a road. They start at the same time, from the same point, in the same direction. The dog does not slow down on the turn. How far does the dog travel in 1 hour? A pool has four taps. The first tap takes two days to fill the pool, the second tap three days, the third four days and the last one only 6 hours. How long will it take to fill the pool using all 4 taps at once? This was a burglary in the Silver City jewelry store last Sunday. Robert, Scott, and Tommy were caught and questioned. Each person said, "One of the other two stole it. I did not do it. Who was the thief? James visited an island. There were 2 tribes living on this island. The east tribal people always tell a lie. The west tribal people always tell the truth. James saw a guy passing him. He asked the tour guide to ask that guy where he lives. The tour guide asked the guy and came back with the answer: Did the tour guide tell the truth or tell a lie? I have a horse. Do you know what color it is? Allan said, "I guess it is not black". Brian said, "It is either brown or gray". Charlie said, "I know it is brown". I said, "At least one of you is right and at least one of you is wrong. A lady and man are sister and brother. We do not know who is older. At least one of them was lying. This number has a very interesting attribute: Can we add two more 4s to become an eight digit number and still holding the above attributes plus 4 digits exist between two 4s? Suppose 8 monkeys take 8 minutes to eat 8 bananas. A group of friends went to a hotel for Dinner. After having their dinner the Bill Amount was of Rs So they decided to distribute it into the equal amount for each. In the group, two friends forget to bring their purses along with them. So, later on, it has been decided that Rs has to be paid more by the other friends on calculated amount. So total how many friends were there in the Group? Each Cow has 2 eyes and 4 legs and each bird has 2 eyes and 2 legs. Lets call each eye as x and each leg as y. Also each bird is n and each cow is m so: So, the owner has 0 birds and 86 cows. This is a classic probability puzzle and many puzzles are based on this logic. If the person picks up two socks then there is a possibility of them being different in colour. If he picks up three socks then they are guaranteed red or white. So the minimum number of socks required are 4.

I have one letter but my name is spelled with eight. Answer Envelope Swap one letter from each of the words "Right" and "Blight" to make two related words. Answer Light and Bright. I am a four letter word. I am an animal. You use me to call your dear ones. Answer Deer You need to spend a night in a building where there is no power. There are three rooms in this building. On the door of each room there are three different signs. One says "Lions Inside - anyone goes inside becomes their supper", the second one says "Open the door and a machine gun starts firing" and the third one says "Electric Room - touch anything and you will die". Which room would you choose? There is no power in the building. I am pronounced with only one letter but written with three letters. Two different letters are used to write me. My color varies from black, blue, green, brown, grey etc. Answer Eye I am in the beginning of sorrow and sadness. You will find me in happiness also. You will find me in sun and stars but not in moon. I am in summer and spring but not in fall or winter. Answer The alphabet S. I can fill up an entire room and still not take up any space. Answer Light I help you in fixing your appointments and important schedules. You use me everyday several times. Still you keep on changing me every month. Answer A Calendar I look like a pearl. Clouds are my grandparents. I am very delicate. I die as soon as anybody touches me. Answer Dew I am an eight letter standard word used by almost everybody. If you take away two alphabets from me I will make a logical sequence. I am a square of a number, and also a cube of another number.
