Best Careers for History Majors With training, certification, experience, and further education, history majors can work in almost any part of the economy. While these history graduate jobs may require additional education, they also come with a handsome paycheck and long-term career stability. History Professor Average salary: Park Ranger Average salary: National Parks like Effigy Mounds in Iowa and the Castillo De San Marcos in Florida have historical significance, and park rangers who work these areas are often required to provide information related to the location. Therefore, history majors are often prime candidates for jobs that involve the written word. History majors are obviously well-prepared to write books related to history more on that below , but they are also equipped to write and edit in just about any field. This can include copy writing and editing, marketing content, or reviewing documents for a wide range of businesses and industries. Writing is something that nearly everyone can do, but few people can do extremely well, making history majors all the more desirable to the job market as a whole. Historical Author Average salary: To be a successful historical author, you need to understand the subject you want to write about, but also provide a new and interesting perspective on the topic. A history degree introduces you to a wide range of potential subjects, from lesser-known individuals to under-appreciated moments in time. An education in history provides a foundation for analytical and critical reasoning. History majors are certainly qualified for office and administration roles at a law firm, but the possibility of becoming a lawyer in their own right exists as well. History majors interested in becoming a lawyer should look for a history degree with a specialization in pre-law. Because people with history majors know how to communicate in a persuasive manner, they are well-qualified for a career in marketing. There are many positions in advertising and marketing, from sales agents to managers to copy writers, but they all share the skills of persuasion and communication. Public Relations Average salary: Essentially, public relations is not focused on selling a product, but shaping the public image of a company, organization, or brand. When working in a library, you will have to catalog and classify materials, maintain a catalog, and prepare aids for finding specific information. This task is mirrored in a history major graduate, as a student needs to not only find information, but organize their sources in a clean and professional manner. Museum Curator or Director Museums are in the business of attracting people interested in history, as they work to preserve historical artifacts and knowledge for future generations. Museums, therefore, need experts in history and communication, especially people with history degrees. For anyone seeking a life of public service, from small-town city councilors to federal-level executives, a history degree provides a foundational knowledge on the role of government and its evolving nature. Many famous politicians were history majors, including John F. This makes a degree in history one of the best routes to a career in journalism. From newspapers to television stations, journalists need to gather information, organize data, evaluate sources, and redistribute information in a way that people find interesting and informative. However, the one distinct advantage of a history degree is the large amount of options you have after graduation. As we showed you earlier, you can go anywhere with an education in history. Jobs with a history degree range from from writing historical books to creating history as a political leader. But how do you convince employers that you are the right candidate for a job? It applies to any position, but you should always focus on how your skills benefit an employer. Some educational paths have it easy, as their skills directly apply to the position. An accounting major, for example, has a pretty clear idea of how their skills will help a business. So how does a history degree help a business? Start by finding out what the position includes and highlight ways that your education complements these tasks. This can include all of your research, communication, and analytical skills, but try to be as specific as possible. The best place to start selling these benefits is your cover letter. The resume is all about you: The cover letter, however, should be about the employer and how you can help their needs. Site an example of their needs in the job description, then highlight how your history degree and skills will fill this need. How to Get The Most Out of Your History

Degree Depending on what direction you take your career, you will likely want to continue to grow, develop, and enhance your education. Your education could also involve a specific minor that complements your history studies. Specializations With increased interest in local history, and websites like Ancestry. Minors that Complement a History Degree Because history covers so many topics and applies to so many industries, there are many options that you can take. However, you should probably consider a minor that will enhance your writing, research, and analytical skills. A minor in journalism is especially useful for history majors, as it covers all the basics and has overlapping skills that make you more effective in both areas. Other minors that enhance a history degree include government , philosophy, and foreign languages. Certifications Getting a certification will depend on the industry you choose to go work in. Public school teachers, for example, are required to become certified before they can enter the job market. If you want to teach history at the high school level , you will need to become certified in your state. Each state sets their own standards, so the amount of testing will change depending on where you live. Some jobs will have certificates that simply make you more hireable and attractive to employers. Librarians , for example, can become certified through the American Association of School Librarians. These certificates require you to complete courses, pass tests, and demonstrate competency in a specific area of librarian work. Most history authors will also have an advanced degree in history , as well as education in writing and analysis. With a broad range of skills and a strong knack for research and writing, history majors jobs abound, and, with the right approach, history majors can work at practically any company in the country!
