

1: What's the best book to learn Access? | PC Review

Discover the best Microsoft Access Database Guides in Best Sellers. Find the top most popular items in Amazon Books Best Sellers.

I have loaned this book to someone. Sold I sold this book, but I still want to keep it in my book list. Lost I lost this book, but I still want to keep it in my book list. Record who a book is loaned to If you set the status of a book to On Loan, an additional list, called Loaned To, appears. You can specify who you have loaned the book to by selecting their name from the list. Use the following procedure to modify the list of names in the Loaned To list: In the Edit List Items dialog box, type each name on a separate line. When you close the Book Details form after editing the list of names, Access asks you if you want to save changes to the design of the form. Make sure to click Yes so that your list of names is saved. Top of Page Rate a book The Books database lets you rate each book in your book list on a scale of 1 to 5 stars. Click the star that corresponds to the rating that you want to give to the book. The rating that you set in the Books database does not affect any book ratings that you have submitted to the Amazon. Top of Page Write a review of a book To help you remember what you thought about a book, you can write a review for each book in your book list. The reviews that you write in the Books database are stored on your computer, and are not submitted to Amazon. To write a review that will appear on the Amazon. On the My Books form, click the title of the book that you want to review. On the Book Details form, click the My Review tab. In the Summary box, type a short summary of the review. In the I read this book on box, type the date that you read the book. In the text box below the Summary box, type your review. To view all your reviews on one page, on the My Books form, click My Reviews. Top of Page View Amazon reviews of a book You can use the Books database to read reviews that other readers have submitted to Amazon. Use one of the following procedures, depending on which form is currently displayed: If the My Books form is currently displayed, click Read the latest reviews under the title of the book for which you want to read reviews. If the Book Details form is currently displayed, click the Amazon Reviews tab. To view the reviews on a larger page, click Read Full Reviews. Top of Page View your library summary The Library Summary report lets you view information about your books and reading trends, including which books you have read recently, how many pages you have read each month, how many books of each genre you own, and which books you want to buy. On the My Books form, click Library Summary. Top of Page Customize the Books database You can use the Books database as it is, or if you want, you can modify it to better suit your needs. You can add new objects such as tables, forms or reports, or customize existing objects to add new functionality. Many of the Access features that you must have in order to customize the Books database are hidden by the startup option settings of the database. In order to gain access to these features, you must close the database, and then reopen it while bypassing the startup options. To bypass startup options, do the following: Depending on the macro security settings for your database, you might see one or more security messages on startup. Hold down the SHIFT key until you close the security messages, or the startup options will not be bypassed. You use the Navigation Pane to organize and open the database objects. If the Navigation Pane is not displayed when you open the database, press F11 to display it. Find links to more information about how to modify a database in the See Also section.
