What?: This book describes the life of girls and women on the frontier ranch in the late 19th century through the mid 20th century. It portrays the lives of famous cowgirls and their desires to do the work of cowboys, own and manage a ranch, and participate in rodeos.

Here are five cowgirls who captured my imagination and made me want to learn more about the West from a female point of view. Dale Evans, Cowgirl Honoree "Cowgirl" is an attitude really. A pioneer spirit, a special American brand of courage. The cowgirl faces life head-on, lives by her own lights, and makes no excuses. Cowgirls take stands; they speak up. They defend things they hold dear. Hardworking and prolific, she was a multi-genre singer, a writer of more than two dozen books, and an actress in over 30 films and television shows. Photo by Alan Light. She lived in an era when being a divorcee carried a stigma that may have stalled her developing career, so Evans found a way to keep her son from a teenage marriage with her, calling him her younger brother Tommy. Evans tackled topics head-on that were not commonly accepted at the time. She wanted young girls to learn confidence and bravery from the roles she played, and she hoped her cowgirl image would portray wholesome values and an energetic spirit. Working as an interpreter and guide, Sacagawea of the Lemhi-Shoshone was merely a teenager when she helped the group explore the Louisiana Purchase territory. Having her along was like a white flag of peace to Native Americans they encountered, since a female would not have been permitted on a war party. She also secured supplies such as horses from the Shoshone and taught the team about edible plants. She was kidnapped into slavery and sold as a wife at age 14. She gave birth to son Jean Baptiste during the expedition. Annie Oakley, Honoree Aim at a high mark, and you will hit it. She was born to a poor family in Ohio, and she took over the hunting duties to feed and clothe her family once her father passed away. While showcasing a traditionally male skill, she emphasized her femininity with fashionable dresses and a stylish parlor in her tented living quarters. At a time when shooting skills could help provide for a family, Oakley taught an estimated 15,000 women to use a gun throughout her career. She saw gun sports as a way women could protect themselves, as well as healthy exercise for the body and mind. Velma Bronn Johnston, honoree I have given a great deal of thought to the matter in order to not appear hysterically oversympathetic and just another "do-gooder. After enduring a childhood battle with polio that left her disfigured and permanently in pain, she experienced a moment on her way to her secretary job one morning that changed her course. A trailer of half-dead, injured wild horses were on their way to a pet food factory, and the sight of the poor creatures inspired her vow to help Mustangs. As she learned about the harsh roundups and cruel treatment, she began her legendary battle to preserve them from possible extinction. Johnston approached the issue with facts and realism, containing her passionate outrage so her message would be more effective. While society expected her to be a quiet housewife, Johnston took on Congress, fought powerful ranchers, and performed perilous vigilante missions to free wild horses. She encouraged children to write to Congress, and this campaign flooded the government with more mail than any issue besides the Vietnam War. The Wild Free-Roaming Horse and Burro Act passed in 1966, largely due to her dedication and as an example of what one person can achieve in the political process. Her friend Marguerite Henry fictionalized the crusade in *Mustang: Wild Spirit of the West*. Living in near isolation, she worked with the ranch hands, worried primarily about rain, and learned a simple value system that was about desert survival and making the best use of what they had.
