"But I'm Almost 13!" is a marvelous, logical, and compassionate flow of expertise for parents who are about to dance the dance of adolescence. Theory is delicately woven into a masterplan for parental and pre-adolescent growth.

My ex and I broke up then got together a few times, I broke up with him every time. Except this time, he broke up with me. I hated hurting him I begged and begged him to just get it over with. The reason we broke up, was that I was moving, house and school. We decided to break up. I was devastated after the breakup.. I was extremely depressed I barely even wanted to eat..!! P so, anyways, I eventually got less depressed. I think it was after we got into a fight per text.. He was also my first boyfriend.. How am I supposed to know what love is? I barely even know him. We would occasionally chat on text, and it would almost be like it was before.. It made me so happy, just for him to reply "hi". But then, we were talking, and he asked me if I would ever give him a bj.. And of course I never would. He would always admit to joking about it that same night or the next day. But this was different He kept asking me "Why" "Why" "Why"? I said a few reasons, including that I thought it was gross. It started getting a little bit annoying tho, and he likes to be annoying too sometimes. He just likes bugging people. I do too sometimes, but whatever. So, he kept asking about it, and then I was just done with it all. He told me that he just thought that if I did this one little thing for him, that maybe we could get back together. I felt so disgusted, so sick. I almost felt like throwing up. I felt worried scared, sad, mad, stupid, worthless, shocked, I just felt so hurt I cried so much. But at least on good thin came out o it He even promised me that if I did that, he would give back the pencil sharpener blades that I use to use to cut myself, until he took them away and u stopped. For a while then I did it a little bit I told him berthing that I was feeling, and I hated him so much. The day after it happened, I had a shower In the shower, I tried to make myself throw up I felt so disgusting and sick and worthless and fat and ugly And I failed at my attempt to make myself throw up. Well, anyways, I felt so grossed out a shocked and disgusted and sad every day I have wanted to, and tried to, before. And this whole thing is slowly eating me inside, and no one else knows except for my 2 best friends. I never wat to see or hear him, or his name, EVER again. Except for dealing with the death of my father I kinda forget why I asked this question in the first place All of this has jsut been really hard to deal with I still cry sometimes I just lay there in bed I would never want to cause any pain or stress or worry on any of y family members But I just feel kind alike I have to talk about it.. I did to my best friend, not in person tho, bcuz I was out of town when it happened. I just feel all these emotions This only started to occur after the "incident". I just feel like I need some help So, anyways, thanks for reading it all, if u did , and thanks for reading it at all. I really hope you can help.
