

1: GEORGIA ON MY MIND CHORDS by Ray Charles @ www.enganchecubano.com

Carolina In My Mind I just purchased the sheet music for Carolina In My Mind. The entire process was easy to complete and the music printed beautifully and exactly as I expected.

Taylor, worked as a resident physician. Thinking of the red soil, the seasons, the way things smelled down there, I feel as though my experience of coming of age there was more a matter of landscape and climate than people. I knew James had that thing. Taylor would later say of this New York period, "I learned a lot about music and too much about drugs. Isaac Taylor flew to New York and staged a rescue, renting a car and driving all night back to North Carolina with James and his possessions. In late , funded by a small family inheritance, he moved to London, living in various areas: Notting Hill, Belgravia, and Chelsea. McCartney remembers his first impression: He had this determination in his eye that I had never seen in anybody before. Other young artists of his age whom I worked with sang about how good or bad life was but really had no idea what they were singing about. James was already singing with the conviction of a singer much older than himself. Everything that he had already been through was evident in his songwriting. It knocks me out. On July 20, he performed at the Newport Folk Festival as the last act and was cheered by thousands of fans who stayed in the rain to hear him. Fame and commercial success[edit] Taylor in the early s Once he had recovered, Taylor moved to California, keeping Asher as his manager and record producer. In December, he held the recording sessions for his second album there. Both the album and the single reached 3 on the Billboard charts, with Sweet Baby James selling more than 1. It earned several Grammy Award nominations including one for Album of the Year. His career success so far and appeal to female fans of various ages piqued tremendous interest in him, prompting a March 1, , Time magazine cover story of him as "the face of new rock. The album went on to sell 2. The album consisted of eighteen short pieces of music put together. Reception was generally lukewarm and, despite making the Top 10 of the Billboard Album Charts, its overall sales were disappointing. Almost simultaneously, Taylor married fellow singer-songwriter Carly Simon on November 3, in a small ceremony at her Murray Hill, Manhattan, apartment. Career ups and downs[edit] Taylor spent most of enjoying his new life as a married man and did not return to the recording studio until January, when sessions for his fifth album began. The album was a critical and commercial disaster and was his first album to miss the Top 5 since his contract with Warner. It received poor reviews and sold only , copies in the United States. The title track failed to appear on the Top On the Billboard Adult Contemporary chart, the track also reached the top, and the follow-up single, the feelgood "Mexico" also reached the Top 5 of that list. However, it was arguably a more consistent and fresher-sounding Taylor, with classics such as "Mexico", "Wandering" and "Angry Blues". It also featured a song about his daughter Sally, "Sarah Maria". The album found him with many colleagues and friends, including Art Garfunkel, David Crosby, Bonnie Raitt and Stevie Wonder who co-wrote a song with Taylor and contributed a harmonica solo. A melodic album, it was highlighted with the single "Shower the People", an enduring classic that hit 1 on the Adult Contemporary chart and almost hit the Top 20 of the Pop Charts. However, the album was not well received, reaching 16 and being criticized, particularly by Rolling Stone. Still, In The Pocket went on to be certified gold. With time, it became his best-selling album ever. Between March and April, he quickly recorded his first album for the label. Peter Herbst of Rolling Stone was particularly favorable to the album, of which he wrote in its August 11, issue, "JT is the least stiff and by far the most various album Taylor has done. The song also topped the Canadian charts. Taylor also appeared on the No Nukes concert in Madison Square Garden, where he made a memorable live performance of "Mockingbird" with his wife Carly. The concert appeared on both the No Nukes album and film. Taylor told the BBC in And it was surreal to actually have contact with the guy 24 hours before he shot John. Troubled times and new beginnings[edit] At Winterfest, Simon announced her separation from Taylor in September saying, "Our needs are different; it seem[s] impossible to stay together" and their divorce finalized in I sort of hit a low spot. I was asked to go down to Rio de Janeiro to play in this festival down there. We put the band together and went down and it was just an amazing response. I played to , people. They not only knew my music, they knew things about it and were interested in aspects of it that to that point had

only interested me. To have that kind of validation right about then was really what I needed. It helped get me back on track. In the late s, he began touring regularly, especially on the summer amphitheater circuit. His later concerts feature songs spanning his career and are marked by the musicianship of his band and backup singers. Comeback[edit] Taylor in concert at DeVos Hall, Grand Rapids, Michigan â€” April After six years since his last studio album, in Taylor released Hourglass , an introspective album that gave him the best critical reviews in almost twenty years. It featured a number of quiet instrumental accompaniments and passages. A Christmas Album with distribution through Hallmark Cards. Taylor performing at Tanglewood Always visibly active in environmental and liberal causes, in October , Taylor joined the Vote for Change tour playing a series of concerts in American swing states. These concerts were organized by MoveOn. In early , MusiCares honored Taylor with performances of his songs by an array of notable musicians. Before a performance by the Dixie Chicks, lead singer Natalie Maines acknowledged that he had always been one of their musical heroes and had, for them, lived up to their once-imagined reputation of him. The digital discrete 5. The appearances marked the 50th anniversary of the venue, where Taylor, King and many others, such as Tom Waits , Neil Diamond , and Elton John , performed early in their music careers. Parts of the performance shown on CBS Sunday Morning in the December 23, , broadcast showed Taylor alluding to his early drug problems by saying, "I played here a number of times in the 70s, allegedly". Taylor has used versions of this joke on other occasions, and it appears as part of his One Man Band DVD and tour performances. The resulting live-in-studio album, named Covers , was released in September The Covers sessions stretched to include "Oh What a Beautiful Morning", from the musical Oklahoma, a song that his grandmother had caught him singing over and over at the top of his lungs when he was seven years old. An additional album, called Other Covers , came out in April , containing songs that were recorded during the same sessions as the original Covers but had not been put out to the full public yet.

2: CAROLINA IN MY MIND CHORDS by James Taylor @ www.enganchecubano.com

Piano sheet music, chords, and vocals for Carolina in My Mind - James Taylor. Learn to play Carolina in My Mind and play along! Carolina in my mind (piano cover), HQ audio. - Duration:

In As Little As 30 Days Not sure you have what it takes to really play piano, with both hands, and have it sound rich, full, and warm? Dear Friend- If you want to play like Beethoven, you should stop reading this letter now. But if you desire to play piano by ear effortlessly, with both hands, without learning all the traditional stuff you are told you must know Let me introduce myself. My name is Tim Mitchum and the first thing you should know about me is I am not a naturally gifted piano player. Once frustrated students, piano failures several times over, and those who were held hostage by sheet music are now playing by ear like they have always dreamed. But you want to know an embarrassing secret? I had failed 3 times at traditional piano lessons and almost gave up completely. This time I got burned out in a couple of weeks doing scale after scale. And my last and final attempt came when I was dating a School of Julliard trained piano teacher. Who once again instilled in me the importance of reading sheet music, which was one of the most terrible learning experiences in my life- I eventually gave up, feeling like a complete failure after a only a few weeks. So I decided to sit my Julliard trained girlfriend and piano teacher down and ask one simple question. My philosophy was simple. Teach me a song step by step. Then we could put all the pieces back together and play a whole song, one that I actually liked. I figured if I could learn one song, I could certainly learn another, then another, and so on. The first couple weeks with this new teaching style was okay. I was definitely seeing the piano and songs differently but I still struggled with how to effortlessly play with both hands and have it sound full, rich, warm, and smooth. My Hands Felt Clumsy And The Piano Sounded Choppy Then one day, almost by accident, I discovered a little trick to arranging your hands and fingers in such a way that they barely had to move. It happened when I heard my girlfriend playing the song she was trying to teach me. As I walked up behind her to check it out I noticed something that blew me away when I saw it. My hands jumped all over the place and her hands barely moved. I questioned her lack of hand movement and she said she was doing an advanced technique. I told her it looked a lot easier and she should teach me that. Again she reluctantly agreed. This almost laughably simple technique that keeps your hands from having to jump up and down the piano would be the biggest game changer in my journey to play piano. In fact, within 30 days combining this simple little trick with the process of breaking songs down into easy to learn pieces I was Finally Playing Songs By Ear With Both Hands And Sounding Like A Real Piano Player I had spent hundreds of dollars and countless hours trying to figure out how to play the piano But if you all want to do is sit down and play songs you love, then you will be doing that with whatever songs you want. Without reading sheet music and without learning scales. You probably find that hard to believe. We have all been brainwashed into thinking its suppose to take years and years of lessons to be any good at the piano. I have a track record of failing 3 separate times that speaks for itself. Not only was I able to do it, but more than 10, average folks just like you have as well. All I ask is that you hold off your disbelief long enough to see the evidence for yourself. But once you accept this fact you are freed up to seek out ways for you to succeed at playing piano. And for some reason, as the decades went by, they never adjusted the curriculum for the normal, not so gifted person to learn. The guitar teaching industry did though. Thats precisely why WAY more people fail at piano than succeed. You know way more fail because chances are you barely know any piano players, but you probably know a TON of people who tried traditional piano lessons but never learn anything of real value- Instead they sat slumped over the piano, depressed, as they plucked out the only song they knew how to play called Mary Had A Little Lamb. I bet you could say the same I know I can. And how many times have you heard people say this statement: Nothing could be further from the truth. The real truth is they were teaching you wrong forcing you to read sheet music, learn scales, and play nursery rhyme songs. Is possible that the thing they hang there hat on is what really keeps you from playing piano? Is it possible that: Simply put, the majority of people cannot play anything. I mean zilch, nothing, nada. Sheet music teaches you to read like a robot whats on a page. Take that away and you become helpless. Everybody knew she had been in piano lessons her whole

life and wanted to hear what she could play. There was a piano, and there was a piano player, so naturally you think she could sit down and belt out some songs and entertain the crowd. Well she could play nothing. Not even one song! It was a real eye-opener for both of us. The traditional way of teaching piano with sheet music had kept her from learning how to play and instead only taught her how to read notes, hit the correct keys, and make whatever was on a page come out of the piano. Think about this! It is the only instrument that has such a simple pattern of keys all laid out very clearly. There is only one way to hit a key and it only makes one sound. Guitar which which might seem easier because of the amount of people you know who play guitar is actually much more confusing. They are simply repeating the teaching the way they learned it. Although I still have yet to find a traditional teacher who could go to an event without sheet music and be comfortable playing songs. Which is why learning from someone who is kind of from the other side of the tracks in the piano world is the best way to achieve actual results! FAST. Here's how you do that: Once you break free from this cycle and are shown a better way, you will be doing these most who have tried to play piano before will tragically never know. After 3 short months I could play more songs than she could. And this is how the Layer Method Of Piano was developed. In other words, complete piano playing freedom. Here is how it works: Traditional piano lessons that teach reading sheet music, learning scales first, and playing boring songs like Mary Had A Little Lamb DO NOT work for the VAST majority of people wanting to simply play the piano with both hands and have it sound awesome. The fastest and easiest way to become the piano player you have always dreamed of is to learn through a proven method of playing that teaches you skills to play the songs you want to play. Preferably taught by someone who has overcome failing at piano. And this is the key to wanting to practice You see, songs are very simple. Within each song you have hidden patterns that simply repeat themselves. You have a left hand and a right hand patterns. What the "Layer Method Of Learning" teaches you to do is to instantly identify these patterns or layers within the song, shows you how to learn them, and then guides you in putting them all back together to play the whole song. Step by step in a very simple way. And the great part is most songs only have a couple patterns to worry about. Every song and progression teaches you something a little different which carries into your piano education and your learning curve goes ballistic! There will be a point in time that you choose to practice scales because you will want to add a scale here and there to match the song you are learning and it will be fun!! Unlike traditional piano lessons It will be like you are looking over my shoulder. In fact, what will end up happening is you will start to spend 2 hours on the piano because you love it so much. The entire Layer Method program is organized into a detailed online program that can be delivered to anybody, anywhere, who wants to play the piano In Less Than 30 Days The Layer Method is broken down into modules designed to layer skills upon each other so that your learning creates massive momentum in your playing. The Crucial Chord Chart. And A Whole Lot More! In the Getting Started Module we go over what you need to understand about the piano in order to start learning. Every layer is designed to teach and give confidence. On to Module Module 1 Learning Through Chord Progressions: You will finally see and clearly understand how you will be a piano player for life.

Honorees included Walgreens corporate , Kevin Connolly, 24, photographer and professional skier born without legs; and Chris Burke, whose Down Syndrome has not impaired his acting career. Special thanks to Scarlett for providing video of these sessions. Recaps of the weekend have been devoured throughout Clay Cyberspace, and those in attendance are still talking about the event. I especially like this Not. Us quote shared by claysgalsal: I had the pleasure of seeing you at the foundation fundraiser hosted by Clay Aiken last weekend. I went kicking and screaming, but I gotta admit I have never seen fans like that in my life. They remind me of small crowd versions of the Beatles and Elvis. Clearly I should not have ducked chorus in high school. The hour wait was no problem as some of us were meeting for the first time. What a treat to finally meet Aspiegirl and her roommate Maria, both of whom I have known online for years. I also met for the first time Triad neighbors georgiesmybaby and FearofH2O. Being with Scarlett is always special. After the Ohioans departed for their hour return trip and the Triad folks headed home, Scarlett and I visited, picked up some sushi for her, and eventually rented a car for her return to Raleigh and very early flight the next morning. At the same time, the cookie site is spreading the word about inclusion: Inclusion is giving people their rightful opportunity to participate. Since the National Inclusion Project began, they have made a real impact by ensuring that children nationwide can experience all of life. No wonder the Carolina blog has sat so long without an update! A fifth member was home sick with the flu. In addition to the holiday selections, Caleb performed three new compositions whose current "working titles" are "Irish," "Winter," and "Old. Hopefully, all my students are still sharing their holiday music, as well as the goodies! Christmastime is Here when Clay sings carols. Double clickable graphic by Fountaindawg, photos by NickiKiwi. Here is her story: I just returned from doing some Christmas shopping, and my first stop was the Hallmark card shop in our local mall. I was perusing some cards when I suddenly realized the Christmas carol I heard was being sung by Clay. Is that the radio? And they always get the nicest compliments from their customers when they do. After receiving an urgent email from my brother Chuck one week into the campaign, our NIP crew started advising NHHS and other novice groups with what we have learned in past Pepsi drives. Two weeks later, they are novices no more. Even my music students are committed to daily texts as we support these groups for the next 10 days. Wishing you and yours a very special holiday season!

I Must Tell Jesus What A Friend Just As I Am Files will be available directly after payment is complete. It has been tremendously enjoyable for me. I can say without a doubt that GOD gave me these arrangements, because they are very beautiful. Some examples are piano with flute, or piano and guitar, or piano with violin. I truly believe GOD wanted it to be included in this volume. HE is so worthy to be praised! Get all five volumes 75 songs! See the individual listings above for all the song titles. We all need to be reminded that we should be very thankful for our freedoms. Many lives were sacrificed, and many lives were damaged beyond repair with permanent scars. I pray these arrangements will touch hearts, as they are sang and played. This volume came during the toughest time of my life. On June 2, , my Dad went to heaven. It was a joyful graduation for him, but I miss him terribly. He was a godly man with a soft and tender heart, yet a strong man, whose life touched so many people and is continuing to do so. Since he also had a love for music and was a song leader in church for many years, he would be pleased to know this volume is in honor of him. Enjoy playing and singing these songs. HE paid for us to be free from sin by His death on the cross. And remember 2 Chronicles 7: It has been even more than I expected. Once a student has a grasp of the basic fundamentals of music most can begin playing many of these songs in their beginning year. This brings me such great satisfaction and is very rewarding. Jason and Monica were married in , and they give GOD all the glory for any accomplishments in their lives. Contact Monica with questions about the books or to order hard copies. I practice it even more than my Lesson book! Some of them make me think of my childhood days, when we used to sing them. May I play another one? These services are funded by grants, donations and fundraising enterprises such as the one you are looking at now. We would like to thank Monica and Jason for making this possible. It is the mission of AAEC to serve adults in Avery County with developmental disabilities, and their families, by providing vocational, educational, residential, and social opportunities and support.
