But there is a way the church can help the hurting move beyond their wounds to experience the healing and liberty of Christ. Drawn from the Beatitudes, Celebrate Recovery helps people resolve painful problems in the context of the church as a whole. Rather than setting up an isolated recovery community, it helps participants and their churches come together and discover new levels of care, acceptance, trust, and grace. Whether your congregation is large or small, this lesson fellowship-based curriculum truly will be a celebration of Christ in the life of your church and its members. I would highly recommend it to anyone leading a Step Study or small CR group. The additional information on the 8 Principles will be used often in our group. The beginning of the book has much useful information for anyone thinking of starting a new Celebrate Recovery Group. Valuable guide By J. Donaldson on Dec 07, As a five year leader in a Celebrate Recovery program it is really helpful for every leader to have a copy of this book. I feel running the program as designed is the best recipe for success. If leaders periodically review the contents at the front and back of this book it will help re-center them on the basics of the program. The 26 lessons in the center of the book not only are used throughout the year but also give leaders material for helping those in need who come to the program. Nothing has been as rewarding or successful in helping bring people to Christ as Celebrate Recovery in my life. The book was delivered quickly and in great condition. It is intended for Celebrate Recovery groups, however I do group substance abuse counseling and have found just reading it to be helpful. The lessons are good, the testimonies of people that are recovering from their issues are great and the acrostics are well thought out. This may fit what a lot of people want in a program, however, I would like to see more encouragement and time allowances for the Holy Spirit to work. Many people who have addictions have had backgrounds in church so they can pick up the ball and run with it. For those who have not had a church foundation, they need to be discipled in those areas and learn how a relationship with the Lord and hearing from the Holy Spirit looks and feels. Deep and handy resource to easily carry By B. Wyss on Jan 08, This is a very helpful tool to start a Celebrate Recovery program. Christian based program that works if you open yourself to it By Joseph M. Cone on Aug 30, This is an excellent program for those who are willing to think and embrace Christianity and truly desire to get out of the "rut". If you are a perpetual victim who takes zero responsibility and everyone else is to blame This is based on the Bible and the principal that God created us and has a plan for us. Basically this program starts with you admitting that you have a problem and are unable to fix it on your own. Then you pray and ask God to work in you. For those that are missing "something" in their lives and have turned to bad habits, such as drugs or even just filling your life with guilt or shame I volunteered to help people in drug rehab and I got a lot out of this. As I helped others, my eyes were opened even wider to the will of God. I would like to check it out to prepare myself one day By Sunshine on Nov 02, Back in , our group started with only participants booklets translated into Chinese and a handbook of just a few pages. Yet the result of healing is tremendous! I was one day shy of my certificate and would want to find out what I had missed and what more can the program offer to people of needs for recovery in different program. This tool for those separated from Christ is a true gift of the Holy Spirit! Best Recovery resource By Fulano on Oct 24, This is one of the best, if not the best, Christian based recovery program. This is a great resource for facilitators. Looking forward By Naomi Conto on May 17, I bought this to go through and hope to be able to help get this program going in my church I think it would be awesome to help heal many broken people in my community. I went through part of the program a few years ago and would love to go through it again and finish it. Great material, eBook is version - not version. The Kindle version is the version, not the version. This is tricky since the version brings you to the version if you select Kindle version. It is easy to follow and implement. Complete leader guide to start Celebrate Recovery By J. Donaldson on Nov 11, We were able to use this leader guide to start our full functioning CR in It has a well thought out, experienced, plan for preparing your leaders and equipping your
