They trusted and looked out for each other. Upon entering the room he saw his wife and best friend in the throes of passion. Angry, betrayed and shocked, he pulled his licensed firearm and would have shot his friend had he not run outside alerting the whole community. I was scheduled to work at an entertainment event one night which would have had me staying out of town until the following morning. However, when I got to the location rain was pouring, resulting in the postponement of the show. I had to go back home but decided not to call my boyfriend to let him know as I would wake him up. I got in around midnight. Even before I entered the house, I suspected that something was not right. I could hear shuffling in the house. I started cursing and went through every room. She tried calming me down but I just kept cussing and asking for the girl. I had looked in every room and found no one so I decided to turn to the closet. Lo and behold a girl was inside crouching and quivering with fear. I dragged her out and gave her some licks! My boyfriend came and pulled me off and she ran out of the house. I thought everything was fine until one day my mother called me upset, to a house meeting. I had a girl who I was planning to marry. I had just bought my house and fixed it up. One Monday I got a call that I was to go to camp until Wednesday. We had not yet moved in so she was not supposed to be there. When I got to camp I realised that I had left something at the house. When I got there and went inside all I could see were her two feet in the air and a man I forgot that I had a gun in my hand but when he turned around he saw the gun and ran out of the house. I just told her to leave and went back to camp. That was the end of that. I told the two of them to get out. He pushed me in another room so that she could leave. Her car was parked in the yard. At the time he had total control over me. He was a terrible person. But there is hope after a disastrous relationship because right now I am very happy.

Aug 17, Ellen Gable rated it it was amazing Saints are sinners who kept on going. This is a great read for anyone interested in learning more about the characters of the Bible, first from the Old Testament: My favorites were the lesser known characters, although I also learned something about the more famous Biblical personas. Each chapter includes a story about a biblical character and is followed by questions for reflection and discussion. Bailey rated it it was amazing Oscar Wilde once said that every saint has a past and every sinner has a future. In other words, nobody is perfect, but despite that, we can still go on to do holy things when we are called to do them. Barbara Hosbach illustrates this idea well in her book Fools, Liars, Cheaters, and Other Bible Heroes by using 28 specific examples taken from scripture. Each chapter is written in an easy-to-understand format starting with the scripture reading in question, followed by a few pages of analysis, and Oscar Wilde once said that every saint has a past and every sinner has a future. Each chapter is written in an easy-to-understand format starting with the scripture reading in question, followed by a few pages of analysis, and concluded with questions for personal reflection. Some of the "fools, liars, and cheaters" Hosbach uses as examples are Rahab the prostitute, the demoniac who was possessed by "Legion," and the prophet Nehemiah. After all, we are sinners and imperfect by nature, and we should not use our flaws as excuses for not doing what God calls us to do. They simply did what they felt was right--and maybe, for some of us, doing just that could be the biggest act of heroism of all. Each chapter features one person and starts with scripture on said person. The Authors adds her views on each person and verse and what she feels it means to her. At the end of each chapter there are questions for discussion. Barbara Hosbash brings bible stories in easy to read format. I found this read enlightening and fulfilling. Jul 04, J. Lair rated it really liked it There are more heroes than anything else in this book. This is about average people who do things that have big effects. Take Ruth, a simple act of living with her Mother in Law inspires many. Take Leah, the second fiddle. Each story has an analysis in case you miss the point, which I did. The analysis really helps put these tales into perspective. Th There are more heroes than anything else in this book. A definite recommend to someone starting to read the bible.
