1: Books by Jerry Lewis (Author of Dean and Me)

*Chris Burke: Actor (Great Achievers: Lives of the Physically Challenged) [Helen Monsoon Geraghty] on www.enganchecubano.com *FREE* shipping on qualifying offers. Examines the life of a young man with Down syndrome who fulfilled his dream of becoming a television star.*

He is one of a handful of professional players who never once put on a minor-league uniform, jumping instead straight from college baseball to the big league. He is the only player in major league baseball who was born with one hand. David Beckham David Beckham is one of the most famous professional soccer players in the world. David suffers from OCD and it manifests itself through constant cleanliness and perfection of all that is around him. Anything out of order is enough to cause a conflict and must be attended to immediately. David Beckham began playing football at a young age. Beckham signed as a trainee of the Manchester United in , eventually making the Premier League in With Manchester United, Beckham won several championships and cups. Currently, Beckham belongs to LA Galaxy. Ever since Chris spoke his first word, it became clear that he was a remarkable individual with many talents. Chris Burke was the first person with Down syndrome to star in a weekly television series. Chris had the faith in his own abilities and the courage to face prejudice as he pursued his dream to become an actor. Today Chris travels all around the country delivering inspirational speeches to various groups of children, students, parents, and professionals. Tim Burton Tim Burton is a successful film director, producer, writer and artist who is speculated to have bipolar disorder. In , he made a short stop motion film called Vincent in homage to his childhood hero and monster-movie master, Vincent Price. He has since been nominated for several awards for his creative makeup and visual effects. Tom Cruise Tom Cruise is among the most talented actors in Hollywood. His films take in hundreds of millions of dollars and his fans also number in the millions. Even though Tom Cruise battles dyslexia, which is a learning disability that alters the way the brain process written material, he was nominated for and won several awards for best actor. Patty Duke Patty Duke is an actress. She has won three Emmy Awards for made-for-television movies. In , at the age of 17, Patty became the youngest person to win an Academy Award in a regular category Best Supporting Actress for her role as Helen Keller in the motion-picture version of The Miracle Worker. She would blindfold herself and practice eating, dressing, and moving around. Patty also learned the manual sign language alphabet in preparation for her audition. It was her determination and practice that won her the role as Helen Keller. Although successful as an actress, Patty was a very unhappy person. In Patty was finally diagnosed as having a manic-depressive disorder. Manic depression is a disease caused by a chemical imbalance in the brain. Patty continues to cope with this disability with medication. The medicine is not a cure but makes the symptoms of manic depression easier to control. Patty is still an actress, but also tours the country as a disability advocate, giving talks and answering questions about manic depression and other mental illnesses. At the age of 3, Falk developed a tumor in his right eye and had it replaced with a glass one. He was discriminated against by the studios, who told him they had no reason to hire him when, "for the same price, [they could] get an actor with two eyes. He later developed dementia, but occasionally makes appearances such as performing the voice of Don Feinberg in Shark Tale. He published his autobiography, Just One More Thing, in Fox is an actor best known for his roles in Back to the Future movies and in the televisions shows Family Ties and Spin City. In Michael J. Fox retired from full-time acting in , but still makes an occasional appearance on screen or television. He is married with four children and an advocate of stem cell research. Stephen Hawking Stephen Hawking knew what he wanted to do by the time he was eight years old. He did not want to study medicine, a career his parents hoped he would follow. Instead, Hawking decided to be a scientist and chose physics. Stephen was interested in studying the universe. He attended Oxford University in England, as an undergraduate student. He received his Ph. D in from Cambridge University. From the Big Bang to Black Holes. The book became a best seller and was made into a movie. It affects walking, speaking, breathing, swallowing, etc. At the time of his diagnosis, the doctors gave Hawking

two years to live. Hawking has defied this time frame and is still working. He now uses a special computer that displays the text he types and speaks what he types with an electronic voice. To date Henry has numerous acting credits to his name. He has made appearances on T. Henry also starred in a rock video, entitled, "I Got News for You. Henry Holden contracted polio during the Epidemic. He was four years old at that time. His disability has never stopped him from pursuing a path of excellence in his life, even though he wears leg braces and uses crutches. In addition to his acting career he now speaks on the guest lecture circuit on college campuses and K schools across the country. Henry is a tireless advocate for the inclusion of persons with disabilities in all forms of entertainment and media. Geri was awarded a National Rehabilitation Hospital Victory Award in and also works as a motivational speaker. Visit her website at www. His talents elicited wonder and admiration from even the most casual basketball fan. He accomplished everything a player could dream of during his 12 year NBA career. On November 7, , Johnson retired from professional basketball because a blood test had shown that he was infected with HIV. Marlee Matlin Marlee Matlin is a stand-up comedian and an actress. Marlee Matlin became deaf in infancy due to Roseola infantum. After her first birthday her legs were amputated in the hope that she could learn to use prosthetic legs, and she did--even better than most people can use their normal legs! Aimee became a world-famous sprinter when she grew up, breaking paralympic records for the hundred meter dash and the long jump. After her athletic career, Aimee became a model and actress, taking pictures for magazines like Sports Illustrated. Terence Parkin Many swimmers competed in multiple events during the Olympics in Sydney, Australia. One of them was Terence Parkin of South Africa. He swam in a total of eight different qualifying and final races in five days during the Olympics. Terence finished fifth in the meter individual medley. In the meter breaststroke, he finished second to win the silver medal. Born deaf, Terence uses a strobe light similar to a camera flash to signal the beginning of the race. The Olympic competitor only began swimming at age Now he holds three national records in South Africa and owns a silver medal from the Sydney Olympics. In , at the age of 13, Itzhak Perlman won an Israeli talent competition. This win made it possible for Perlman to travel to the United States to tour and appear on television. He then stayed in the U. In , Perlman won a contest among young musicians known as the Leventritt Competition. Winning this competition opened the door for young Perlman to perform his violin music all over the world. Itzhak, now an acclaimed violinist of his generation, has performed with every major orchestra and in recitals and festivals the world over. His joy of making music has captivated audiences and has achieved Perlman a level of respect and admiration among people of many nations. Perlman is also featured in the hit movie Music of the Heart. Born in Tel Aviv, Israel, Itzhak Perlman contracted polio at age 4, permanently paralyzing his legs. He performs his music while seated and walks with crutches. Itzhak is a well known advocate for people with disabilities, actively promoting laws to ease access to buildings and transportation. Patricia majored in Fine Art and received her Ph.
