If you want to build a personal relationship with God that is grounded in learning to listen closely and intimately, this book paints an inspiring vision and equips you with practical principles. I have gone back to this book again and again in my own desire to grow in listening to God. *The Gift of Being Yourself: Benner* Deep knowledge of God is impossible without deep knowledge of self. This book from spiritual director and psychologist David Benner is built on the foundational paradigm that self-understanding leads to the fulfillment of your God-given identity, destiny, and calling. Read this if you want to become more like Christ and more authentically yourself. *McHugh* As a spiritual director, I pride myself on my ability to listen. John Ortberg does a great job of helping readers look at the health of our souls, how the soul can be starved or nurtured, and explore what our souls need to thrive. A relevant book for people traveling on the spiritual journey. *Life of the Beloved: I believe that there is nothing more crucial to our wholeness than for us to experience our belovedness in the Father. It is a simple message: If you pick one book off this list, choose this one. The book explores a variety of central spiritual practices of the Christian faith in a way that is approachable and practical. For people wanting to grow spiritually, it lays out a framework for practices like prayer, fasting, and simplicity, and how God uses those things to develop our spirituality and faith. I have read this several times, and with each reading have discovered more layers of wisdom. Invitation to a Journey: What exactly is Christian spiritual formation? It explores the reality that we become like Christ gradually not instantaneously, and that different personality types experience spiritual growth in unique ways.
