Project Preparation Read through the project and gather the materials needed for creating chains of paper angels. If you are doing this project with a group, pre-cutting the strips of paper will make the craft go faster. You may also want to make some angel templates that can be traced. The templates are available in two sizes. Select the size that best fits your folded strips of paper, and adjust as needed. Pre-cut enough templates so there is one template for every three or four people making angel chains. The angels with wings down are the easiest to cut. Instead of holding hands, these angels are joined at the tips of their wings and the bottoms of their skirts. For an example of how you might decorate these angels, see the sidebar. If you are using computer paper, cut each sheet in half lengthwise. If you are planning to use construction paper, it is best if shorter strips are used to reduce the bulk after folding. These shorter chains can then be taped together. Fold Paper Strips Fold the paper strip into eight equal sections of accordion pleats. Turn the paper over and repeat with the other edge. There are three layers on each side with a single layer in the center. Repeat with the other side. Draw or Trace Angel Enlarge With the cut edge of the folded strip to the right, draw half of an angel along the left folded edge with arms extending to the cut edge. You can trace a precut template or draw an angel of your own design! If you plan to stand the chain of angels, it is best if the angels are connected in two places. So, like the arms, extend either the wings or the skirt to the cut edge. Cut Angels Hold the folded strip firmly and cut carefully around the angel outline. Do not cut along the folds. Unfold the paper strip to reveal your chain of angels. The chain of angels will stand if each angel is folded just a bit. Tape two or more chains of angels together and form a circle. Why not make a whole choir of angels? Decorate Angels optional Leave the angels plain or decorate them with markers. Use black markers on angels cut from white paper for a dramatic effect. You might also add glitter to the wings! Your paper angel chain is done!. Make a place to work. Read all of the directions. Gather everything you need to do the project. Think about the project. Imagine how it will look and what you will do with it.
