Film reviews, criticism, discussions, rants, raves, and random pictures of Philip Seymour Hoffman. These boys started their semester at the Welton Academy, an expensive private school where almost all of the graduates reach the Ivy League. They were all following the orders of their parents, who expected them to succeed and go on to major careers. This is the setting for *Dead Poets Society*. Director Peter Weir and writer Tom Schulman have created an environment of upper class adolescence- a school where the richest boys in New England go to prepare for college. This school, with all its glamorous tradition, gets a jolt from new teacher and former alum John Keating. Keating tries to change things and be different, and for this he gets into trouble. Weir succeeds in providing an emotionally stirring movie that is also aesthetically pleasing. The setting is quite breathtaking. This film was shot at a private school in Delaware even though it was supposed to be in Vermont with magnificent architecture and a forest environment that is particularly stunning in the winter scenes. The lighting reflects the dramatic mood. There are a lot of scenes at night or in the school that are very dark, giving the film a somber feel to it. The film does not contain a lot of scores except for the final scene. Most of the music is digetic. The triumphant score in the last scene of this film ties everything together well and accentuates the epiphany of one student. Weir likes to use long shots that show the class as a group. Of ten he will film their activities as though he was an onlooker from far away, especially when they are outside. In the school, he usually shoots the boys in their dorm rooms from the hallway. These scenes are much more personal and conversational. The editing style also changes when the film goes indoors; there, Weir uses more reverse shots and more shots in general. Outside, he uses a lot of long takes. In fact, most of his shots last more than a few seconds, except for a few intense conversational scenes. Often, he has different levels of positioning people. He does not move the camera around too much; many shots are still. There are a few scenes where he follows people walking or riding bikes, but for the most part he does not move the camera in shot. There is one particular scene of Knox searching for his girl, a frantic long take as Weir follows him around the public high school. The acting is exceptional. Robin Williams stars as Mr. Keating in a role that got him an Oscar nomination. He uses sports to help them remember poetry. He instructs them to rip out the pages of a textbook he thinks is useless. He encourages them to think of something besides the businesses they are about to control, the careers they are going to have, and the prestigious colleges they are about to attend. He teaches them to savor the finer moments in life. The young men who play his students have mostly gone on to successful careers, and they are all surprisingly effective in this film. Each boy has a particular problem to deal with. Neil has a lot going for him, but he must be respectful to his commanding father Kurtwood Smith. Knox wants a girl who is already going out with a tough football star. Cameron is too strict, and Charlie is too disruptive. They all must overcome their separate problems throughout the film. He uses a restricted, objective narrative for most of the movie. He follows the traditional three-act format well. In the opening of the film we the audience are introduced to all of the major characters as they move into the school. We are introduced to the school and the headmaster, who talks about the tradition they have. The real action starts when the boys sit down for their first class with Mr. Keating, who instructs them to go down to the lobby and look at the nostalgic pictures of old students. The boys sit in amazement at Mr. Keating, who is unlike all the straight and unimaginative teachers they have had. They discover that he once went to Welton and founded a group called the Dead Poets Society. They decide to bring it back. Eventually, the boys begin to change. They have learned from that class to be individuals, and they start doing things they would not have earlier. The meetings they have late nights at the cave of the Dead Poets Society only further encourage them to be different. Knox tries to get the girl he wants but cannot have. Neil decides to get into acting, which is not something his father would approve of. Keating even gets a response out of the quiet Todd in class. All of the boys are feeling great about themselves when the mood shifts. His father tries to make him quit but he does it anyway. Then his father pulls him out of Welton and prepares to send him to a military academy. Neil kills himself because he cannot face that future. This night is the climax for several people: Neil, because it is his

high point and also low point; Mr. Keating, because it is what will lead to his dismissal; and Knox, because he pleads for one last chance with his crush- and gets it. Keating is clearing out his office, Todd stands up on his desk in protest. The shyest kid in the class becomes the leader, which shows how he overcame his problem. Gary Hentzi believes that Weir is definitely an outsider in Hollywood and that this movie deals with his ideas on culture 3. The main point of this film is that the boys have been such dutiful sons and need the injection of creativity that Keating gives them. There is one scene where the headmaster approaches Keating and asks him about his unorthodox teaching methods. Keating replies that a good education should teach kids to think for themselves and ask questions about everything. How can they learn if they are unable to be creative and express their true emotions? The headmaster wants Keating to teach them poetry and leave them on their own. This conflict of conformity vs. Knox who is creative vs. Chet who is a dumb jock, it seems, Neil vs. His films are usually about society and how one person dares to defy it. This film goes along with that idea, as Mr. Keating tries to fight conformist ideas in the high society that is Welton. He succeeds, though tragically. Dead Poets Society remains a classic film of inspiration. Although it includes a lot of heartbreaks, the film makes a strong case against conformity. It was an easy choice to screen for this course, but it could be seen in any school setting. The lessons that the students received that year at Welton Academy were more important to their lives than any major class they could take. Works Cited Hentzi, Gary.
