

## 1: CPA Exam Review | Becker

*CPA Comprehensive Exam Review, Financial Accounting & Reporting (31st Edition) [Nathan M. Bisk] on www.enganchecubano.com \*FREE\* shipping on qualifying offers. Book by Bisk, Nathan M.*

The numbers of topics in each CPA Exam section are as follows: Therefore, the matchup between topics and questions is just shy of one-to-one for every section except BEC. While the number of topics for each exam section is fairly high, the topics are also fairly broad, so the questions you see on the exam could be about practically anything relating to those topics. Furthermore, the CPA Exam blueprints have also assigned approximately representative tasks to the topics in each exam section. In most courses, the number of unique MCQs hovers between 5, and 7. The number of TBSs in these courses fails to rise above and dips as low as 5. While these practice question offerings are substantial, none represent the highest number of CPA test questions available. Ours is also the most unique set of sample CPA Exam problems on the market because we have every relevant AICPA-released question and simulation to date, and our professional educators have crafted exam-caliber questions to fill in the gaps. Our CPA test bank is not only the biggest, but it is also the most comprehensive. We do so to extend the following CPA test bank benefits to you: However, you may find one type of question trickier than another. Therefore, we want you to have plenty of chances to see that troublesome question type and the way it handles exam content so that you can master it come exam day. We also want to give you an accurate representation of all the different ways in which the CPA Exam questions can address the testable topics in the exam blueprints. Again, the blueprints cover so much content, and each CPA Exam section only has so many questions. Therefore, the best way to prepare for anything the exam may throw at you is to review as many practice questions as possible, rather than try to anticipate how the exam will address each area of accounting. Increased opportunities to strengthen weak areas One of the best ways to build your exam-day confidence is to minimize any weaknesses you have with the exam content. Working through study materials that explain the exam content is one part of strengthening your weak areas. The other part is answering heaps of practice CPA test questions. Answering practice questions works to eliminate your weaknesses by giving you the chance to learn from your mistakes. When you learn from your mistakes, you correct your thinking about a topic and embed the right information deeper into your mind. The lasting impressions your mistakes make in your memory also help you make real progress with the content faster. Our CPA test bank is not only overflowing with practice questions, but it also includes detailed answer explanations for both your right and wrong responses so you can adjust your understanding and solidify your knowledge right away. The explanations for incorrect answer choices even link to the subunit outline that discusses the concept addressed. By walking back through the quiz with these explanations, you can quickly see how your thinking needs to change because your old thought process will still be fresh in your mind. Decreased chance of memorizing the exam content Not only has the AICPA assigned a representative task to each CPA Exam topic, but it has also matched those tasks to one of the four following skill levels: The perception and comprehension of the significance of an area utilizing knowledge gained. The use or demonstration of knowledge, concepts, or techniques. The examination and study of the interrelationships of separate areas in order to identify causes and find evidence to support inferences. The examination or assessment of problems and use of judgment to draw conclusions. Of the four, Remembering and Understanding is the lowest skill level, while Evaluation is the highest. Therefore, you need to reach the higher skill levels in your understanding of the exam content in order to be prepared for each of the exam sections. The best way to ensure that you have reached these skills levels is to answer a great variety of practice questions that push you to demonstrate your understanding, and only the largest CPA test bank on the market supplies you with enough practice questions and enough assortment among them to do the trick. Decreased chance of memorizing the practice questions Even if a practice CPA test question is assessing a higher skill level than Remembering and Understanding, you should not memorize the content of the question. It is highly unlikely that the content of a practice question will be exactly the same as that of an actual CPA Exam question, so you should instead direct your mental capacities toward knowing the content of the exam

section and the topic and task of the practice question. It will be a long time before the practice questions even start to look familiar to you, and by then, the testable topics will look extremely familiar. You just need to review with an exam-emulating CPA test bank. Looking at thousands of practice CPA test questions that are the spitting image of those on the actual exam saves you time and boosts your courage on exam day. How Many You Can Get Some CPA Exam sections cover a greater range of content than others, and studying for these sections can take a few months, depending on how much time you have to study each day. Instead, you want a nice cushion of questions that will propel your exam confidence to the max. Our powerful SmartAdapt™ technology will lead you through our CPA test bank at the perfect pace for achieving CPA Exam success, and our sophisticated analytics will help you stay on top of your progress.

## 2: Cpa Comprehensive Exam Review by Bisk, Nathan M

*Choosing the best CPA review course is the most important decision you will make to help you pass the CPA exam. It's crucial to find CPA exam study materials that best fit your learning style.*

Last Used 16 minutes ago Expiration Date: For everyone else, check out our list of pros and cons below to help you make your decision! Self-Study, LiveOnline and Live classroom instruction live courses are available at select locations. Study from anywhere on your computer, phone or tablet with the mobile app – your progress will automatically sync between your computer and mobile digital devices. Use the interactive study calendar to schedule your personalized study sessions if you choose the self-study option. The LiveOnline course and the Live classroom courses come with TAs that you can contact for additional support during the class and afterwards. In general, academic support is good: You can call or submit your question through their website via the academic support button. Unless you really need the traditional model of a live lecture to learn the material which includes access to everything in the self-study course too, we recommend the Self-Study option for the greatest flexibility. However, if you want to take one part of the review course live, and the others as self-study, you can do that too. The format of the 4-hour mock exams and the types of questions are almost identical to the CPA exam, which is the gold standard of any test prep course or resource. Additionally, the Becker team is constantly working on new ways to make their course look, feel and function just like the CPA exam. A calculator and spreadsheet are both provided for use, just as on the test; the spreadsheet is not Excel, so they actually suggest you practice with Excel instead if you have it. Course updates are done at least twice a year, with more offered if the test changes and as new features are rolled out. In fact, a new software release is planned for November 13th. These short YouTube-like videos are taught by expert national instructors; they break down specific Task-based Simulation questions one step at a time to show how to solve them quickly and accurately. The first type of mock exam is a comprehensive test that evaluates how well you understand the material. That will help you zero in on the extra practice problems you should do before you take the other 2 mock exams, which mimic the actual CPA exam for the most authentic practice experience. You can choose the specific topics and how many questions. If you want even more practice, you can purchase digital flashcards also available in print, additional practice multiple choice questions, and the Final Review course that includes new multiple choice questions and lectures. The Adapt2U learning technology uses a short initial diagnostic test questions in each unit to ensure that your course will adapt practice sessions and questions based on your strengths and weaknesses. Each unit includes video lectures, skills practice, multiple choice questions, and task-based simulations at the end of each module. Progress reports and mock test reports include a convenient link button back to the appropriate part of the course for any question you missed, or any question you want to look at again. Online Game Tired of listening to lectures or working out problems? Try out Accounting for Empires, an interactive mobile game experience that can be played alone or as part of a team. Your goal is to build an empire before the date of your exam by answering practice questions and making progress in your individualized study plan. Correct answers earn you resources to build your empire. Final Review The online Final Review is your last opportunity to really drill down on the most heavily tested topics. If you want to be as prepared as you can possibly be, this review covers all four parts of the CPA Exam in 30 hours of new video lectures, more multiple choice practice questions and 85 extra task-based simulations. Unless you are eligible for some kind of discount or your company is footing the bill, this is the biggest drawback. You can download the lectures so that they are available offline and listen to them on the app that way. Still, there are definitely courses that make the material and presentations a wee bit more fun. Some of the popular live instructors do try to jazz things by dressing up and performing raps, and there are cartoons to mix it up. The option of playing back videos at faster speeds during your review or for racing through really long lectures to save time is also helpful. Bottom Line Although Becker is unquestionably one of the most comprehensive and effective ways of preparing for the CPA exam for most learners, the high price keeps it from being our number one choice. The most recent updates and constant efforts to keep the course engaging, current and as close to the exam as

possible are impressive. However, some of the extra fees can be a bit intimidating. Ultimately, Becker is a fantastic option – the materials really are top notch and are structured as close as you can get to the actual exam.

### 3: CPA Test Questions: How Many Do You Need? | Gleim CPA

*Surgent CPA Review is a terrific choice for your CPA Exam test prep needs. If you're looking for a comprehensive program that helps you spend your time on the right topics and gives you unlimited access to your course materials, this is an ideal fit.*

Becker instructors are experienced CPAs and professionals from accounting, law or business. Instructors are selected and trained on engaging and informative CPA Exam learning techniques. Instruction trusted by over 2, accounting firms, corporations, government agencies and universities. To help you feel comfortable and confident on exam day, and to ensure your study time is effective and efficient. Content geared towards subject matter comprehension, rather than rote memorization. Adapt2U Learning Technology Pre-assessment provides a recommended path to focus your study time where you need it most. Performance reports track your development and highlight areas where you may need to strengthen your knowledge. Instead of being overloaded by studying out-of-date material or learning about questions that are no longer asked on the Exam, you get the right questions to help you succeed. Over Task-Based Simulations TBS Simulations use real-life work situations to test your knowledge and skills in specific subject areas. Designed to help you move beyond memorization to the practical application of your knowledge now being tested on the Exam. Interactive Study Planner Throughout the process, interactive planning and progress tests allow you to track your studying. Provides feedback to build your knowledge to give you confidence in your success. View in random order or by lecture and topic. Clearly displayed statistics help you monitor your progress. Online Final Review to Double-Check Your Readiness Condensed format strengthens your comprehension of the most heavily tested exam concepts. New lectures, multiple-choice questions and simulations for your final hours of study time. Streamlines navigation between textbooks, lectures, homework and simulations. Study anywhere at any time. Becker tools make it easy to take notes, highlight text, search for key words and control video speed. Instructor-guided practice on applying key concept examples. One comprehensive mock exam focuses on more challenging exam areas. Plus, you can create your own mock-exams to hone in on areas on which you need to focus. Accounting for Empires Learning Game Prep and play at the same time. Interactive game experience lets you compete individually or as a group. Build an empire to help prepare you for Exam Day. Unlimited Academic Support Access to support and answers from experienced professors. Professor mentoring lets you post exam-related questions and get a response in 48 hours or less. Archived discussions offer immediate access to potential answers to your inquiries. If you utilize Becker but do not pass the CPA Exam, you may repeat our review course at no additional tuition cost tuition waiver if you satisfy our requirements. [Click here for full details.](#) Becker has been the leader in test preparation for over 60 years, and our CPA Exam Review delivers the right information in the right amount and the right way. Give Yourself the Becker Advantage.

### 4: Best CPA Exam Prep Course Guide for - Financial Analyst Insider

*Other CPA Exam Review Courses such as Wiley CPAexcel CPA review, Roger CPA Exam Review and Yaeger CPA Review Course offer very similar features for nearly half the cost of Becker CPA Prep with pricing starting at just over \$1, for these top-rated CPA Exam Review Courses.*

Do you find yourself less self directed, and needing someone to keep your attention? Do you need an instructor who can keep you awake through all the boring CPA material? This is one of the main reasons why Roger CPA review is my favorite course. If you find yourself having a hard time memorizing terms then this may also be your best bet as Roger provides specific memorization techniques such as mnemonics. When you choose Roger for your CPA review course, you can expect to get over hours of entertaining and informative video lectures. Roger Philip teaches each lecture with a lot and I mean a lot of humor and enthusiasm. His unique teaching style makes the material much more engaging and helps you stay motivated. He is passionate about helping students pass the CPA exam. Not only is he knowledgeable about the material, but he can also break down difficult concepts into easy-to-understand lessons. Roger uses mnemonics and other memorization tools throughout his lectures to provide an easier way for students to remember many tedious details that often appear on the exam. This new feature provides you with recommendations on where and how to focus your efforts by comparing your progress and performance to those that have passed the CPA Exam. This efficient tool can cut your study time down by hundreds of hours! Now, what about the financing options? Roger CPA Review now offers financing plans if you are a student on a budget. I would recommend this course to a CPA candidate who has a hard time focusing while studying. If you found yourself struggling to stay awake in some of your accounting lectures, then Roger CPA review will definitely keep you from falling asleep. If you also like to ask a lot of questions while you study, there is a homework help centre available to you around the clock. There is an available audio version of the course, although you will have to pay an additional fee for it. If you are lacking in the area of motivation and need someone who can get you pumped up about the CPA exam and keep you motivated, then this is the review course you are looking for. How can I view the video lessons on my mobile devices? What happens if I run into a question about my course—either the concepts or homework? You will most likely find the answer to your question in the massive bank of questions asked by previous Roger CPA students. Moderators are also available to help, as they can provide assistance on conceptual issues or topical questions.

## 5: Becker CPA Review [Must Read Before You Buy!]

*To provide you with the greatest opportunity to pass the CPA Exam by using our comprehensive CPA Exam Review and time-tested approach. If you utilize Becker but do not pass the CPA Exam, you may repeat our review course at no additional tuition cost (tuition waiver) if you satisfy our requirements.*

Our proven approach and extensive experience set the benchmark for exam prep and increase your chance of success. Our candidates get it all – the largest bank of exam-emulating questions, hundreds of bite-size video lectures, and thorough outlines that truly explain the concepts. This is the most efficient adaptive learning course on the market. Personal Counselors, accounting experts, and technology gurus are with you every step of the way. Our innovative software optimizes your study time by continuously zeroing in on your knowledge gaps and customizing your study path for maximum efficiency. I would definitely recommend Gleim CPA review to all. It has helped me to sail over the exam like a pro. Hats off to your hard work to help thousands of students and CPA dreamers like me. I loved how I could use this system on any of my devices and pick up exactly where I left off. I thoroughly enjoyed using the mega test bank and outlines for each chapter. The remote access to the entire study platform is what every working candidate needs in their life. This was a game changer. I would absolutely recommend Gleim to others I know. I believe if you follow the Gleim system, you will absolutely be prepared. I often thought the questions were harder on Gleim than the actual exam, which is exactly what I needed. I would definitely use Gleim in the future. It kept me on track and directed me on what to study. I followed its guidance almost perfectly, and it seems to have led me well. I also really appreciated the lecture videos. They were especially helpful for topics I found a little extra challenging. Gleim completely directed my studying as far as topics to study and the order in which to study them. This was a huge help because I was then able to only focus on the material, rather than also worrying about planning how to best study the material. In addition, the many multiple choice and task-based Simulation questions were very helpful.
