And in a busy start to the Atlantic hurricane season, two other big storms are brewing right behind it. The National Hurricane Center reclassified Florence as a hurricane in its 11 a. Florence is already making an impact on the Carolina coast. Lifeguards in the Wilmington area rescued more than a dozen swimmers caught in strong rip currents on Saturday. Florence is expected hit Bermuda and the Bahamas before approaching the U. Florence was in the Atlantic about 1, miles from the coast and miles from Bermuda, moving west at 6 mph, the center said. It would be the first Category 4 hurricane to hit the Carolinas since Hugo in And it would be the first major hurricane Category 3 or higher to hit the East Coast since Jeanne, which struck Florida in Swells generated by Florence are already affecting Bermuda and are beginning to reach portions of the U. It is too soon to say where, when or how severe the rainfall might be. Virginia and North Carolina and South Carolina already are on alert. Their governors declared states of emergency Friday and Saturday. Ralph Northam said Saturday in a news release. Henry McMaster said, adding his declaration would allow state agencies to deploy assets quickly to the coast. Roy Cooper waived certain transportation restrictions so that farmers could harvest and move crops more quickly. The Navy said Saturday that it may be necessary to send ships in the Norfolk, Virginia, area out to sea because of the coming storm. The Navy put them on Sortie Condition Bravo, which means the onset of destructive weather is within 48 hours. It was about 1, miles from the easternmost Caribbean islands on Sunday and could become a hurricane later in the day. Behind Isaac is Tropical Storm Helene, which was moving across the southernmost Cabo Verde Islands off West Africa on Sunday morning and will become a hurricane late on Sunday, the hurricane center said. Neither is forecast to hit the mainland United States. The three systems " Florence, Isaac and Helene " come right before the Atlantic hurricane season hits its peak Monday. The eight weeks around that date often are prime time for the conditions that fuel powerful storms.
