Clair was a journalist who had a strong interest in metaphysics and investigated local metaphysical practices everywhere he traveled. In his investigations, St. Claire came across a powerful technique of tapping into the Cosmic Forces in order to cause a change in the environment. He said they gave him this secret and said it was time to pass it on to anyone who would recognize its value. To perform the Cosmic Forces Formula, stand up, put your feet slightly apart, your hands down at your sides but not touching your body. Next, still standing, close your eyes and take a deep breath. "I bring the Cosmic Forces into my body" here hold your breath and continue, to yourself, "asking for Strength, Protection, and Guidance. Repeat it for a third time. You may visualize the Cosmic Forces in any way you feel is right for you: Creating the link with the Cosmic Forces is the first half of the formula. The second half is the part which may concern you the most: You may ask for money, a new job, love, or anything else you really want. Request from the Cosmic Forces exactly what you desire, when you need it, and why you are deserving of it. When you do this, be natural about it. Take as long as you want to make your request, but make sure it is phrased precisely. As you make your request, feel that your wish had already been granted. From there, you can end the session by thanking the Cosmic Force for their help. Cross your arms across your chest in the form of an "X," as you have seen Egyptian mummies do," and say, "Thank you, thank you, thank you. First you plugged in and tuned in; now that you are done with the energy, you turn it off and, according to David St. Clair, this Egyptian "double-cross" seems the best way to do it. Your request WILL be granted if you performed the technique correctly and maintained a strong positive expectation of success. Any time you need special help, you can call on the Cosmic Forces. The Cosmic Forces Formula has received widespread praise over many years from people in all walks of life. It is a powerful method of contacting the unseen forces and requesting favors.

Changing reality can be a tall order, but a technique, called the Pentagram Spell, which draws on tremendous amounts energy over a space of one month, will, if performed correctly, grant you a wish. You will discover the success rate of this spell to exceed your expectations. First of all, you must know exactly WHAT you want. Create a sentence of desire, a very specific statement of your intent, detailing who, what, where, when, and why. That is your wish. The next step is to translate that into symbols that will draw continuous energy for one month. Remember, without energy, nothing can occur. You will now take a piece of white poster board and draw a 5 pointed star on it. At the top of the star, place a photo of yourself. The top of the star symbolizes who gets the wish. It can also symbolize who or what is the target of your magical influence. At the next point clockwise is the "what" section. Since you are wishing for twenty thousand dollars with no strings attached, you can draw a dollar bill with broken chains to symbolize money with no catches or add a photo that symbolizes the same thing. At the the next point going clockwise, is the "where" section. Place a photo of your house because you want the money delivered. The where section dictates where the energy should create the reality you desire. At the next point is the "when" section. Place a photo or draw a calendar with the exact date when you want the event to occur. The when section is important because your energies will gather force to manifest your wish on this exact date. Magic is a way to attract the money everybody needs to survive and thrive. My book Money Magic: Powerful Spells for Wealth and Prosperity includes job spells, business success spells, spells to banish debts and to collect them. Just about every way to use magic to make money is covered. To find out more, [click here!](#) In symbols, write WHY you think you are deserving of this wish. You can reason that this wish will make your wife happy. You could place a photo of your smiling wife or possibly a picture of a remodeled kitchen at this point. After you have created your pentagram, post the drawing in a place that you will see frequently every day. Clair recommended using the Cosmic Forces Formula to charge the pentagram. After calling in the Cosmic Forces, gaze at your drawing and be fully aware oeach symbol means. Then repeat the statement of your desire three times, and as you do so, go over the symbols as you say each word. Then close the Cosmic Forces Formula in the usual way. Alternatively, you could just gaze at the symbols and recite your sentence of desire three times. That is a less powerful method of charging your pentagram, however. Each day, as you pass by the drawing the more frequently, the better , focus on the symbols, understanding exactly what each one means. Each time you do this, you infuse your original intent with energy. This energy goes out into the universe and acts to create reality from your written desire. After about a month, you will pass by the poster, and you will discover a great repulsion from the poster. That means that the poster is fully infused with power that is eady to be released. When you feel that moment has arrived, stand before your poster and repat three times again, your statement of desire, and as you do so, look at each symbol and know what they mean. After the third repetition, throw your arms in the air, yell loudly, and feel a great release of energy from the symbols and the pentagram, surging into the environment and creating a reality out ofyour thoughts. At this point, the drawing will feel empty and devoid of energy. That is because all intent and ki had finally left and is now actively changing reality according to your desire. Burn the poster and wait in full expectation for the result on the exact day of your bidding. Clair said that the Pentagram Spell should only be used to obtain material desires.

3: David St. Clair's Lessons in Instant ESP

The book is in a way a transcript of David St. Clair's 4-day workshop and in that way it somewhat reminds me of a 4-day Silva Mind Training workshop. The techniques in this book may seem old-fashioned, as is the wording, which also makes this book charming to read.

Read carefully and do this little exercise few times a day. Stand up, put your feet slightly apart, your hands down at your sides but not touching your body. Also make sure that you are not touching another person or a chair or a piece of furniture. The force of the Forces is what I want you to experience. You must know the words and understand their meaning, repeat after me: Repeat it as many times as necessary until you have memorized the formula. Now, still standing, close your eyes and take a deep breath. Say, to yourself, "I bring the Cosmic Forces into my body" -- here hold your breath -- and continue, to yourself, "asking for Strength, Protection, and Guidance. Repeat it for the third time. What did you feel? Did you feel something running into your body? Did you think you were about to fall either forward or backward? Did you get a tingling in your spine, your face, your hands? The reason for calling in the Cosmic Forces in the first place is because you want something, right? You need something, you want something done, you have a request. This time, after you have said the formula three times, you can breathe normally and make your request. When you do this, be natural about it. Take as long as you want on your request, but make sure it is exactly phrased. And don't forget to thank the unseen forces after you have requested something, cross your arms over your chest like an Egyptian mummy, say "Thank you, thank you, thank you.". The reason for the crossing of the arms, where they form an "X" over your breast, right palm open on left upper arm and left palm open on right upper arm, is that you are turning off the energy. First you plugged in and tuned in; now that you are done with the energy, you turn it off and this Egyptian "double-cross" seems the best way to do it. Raise your hands palm upward, as if you were wondering if it was sprinkling on a summer day, and ask the Cosmic Forces to protect you with the White Light. As you ask, visualize this light coming down and into you. How you see it is your own doing. Stand there until you feel the tingling and then visualize the protective light in whatever way you wish. Then, when you are well covered, cross your arms in the Egyptian double-cross and say, "Thank you, thank you, thank you. Spiritists claim that if you have given yourself this protective coating, nothing can penetrate it and hurt you. Negativity I prefer that word to "evil" will hit the White Light and bounce off.
