3: Class Specific Character Sheets : dndnext

D&D v Expanded Psionics Handbook character sheets (four 8 1/2" x 11" sheets -- good for home printing)(mb pdf/zip) - Character sheets for the egoist, kineticist, nomad, psychic warrior, seer, shaper, soulknife, telepath, and wilder psionic classes from the Expanded Psionics Handbook.

Your PDF is impressively organized, very professional, and downright nice to look at. When you play a roleplaying game with friends, you each play a character. How are these different from the ones I already have? These sheets are different for every character. On top of the core pages each class gets a page of its own, as well as extra support pages for inventory, spells, animal companions etc. The result is a comprehensive set of sheets tailored to your character. You even get to pick a colour. How do I use this? Where a page has two A5 halves, you should be able to print the same page on both sides of A4 then cut it in half. Do I still need to buy the books? Both Paizo and Wizards of the Coast have created great stuff, and I wholeheartedly encourage you to go out and buy it. The same goes for any third party material you play with. Do I need a computer to play? No, these are made to be printed out and written on in pencil. Is there a version I can fill in with a computer then print out? No, because doing that for the entire set of hundreds of pages and making sure all the calculations are correct would be too much work. Other people are free to take a copy of my sheets and add features like that, and several have made a start on it. Have a look around various forums to find them. Are these available in other languages? What do they cost? These character sheets are free, and will always remain so. That means anybody can change them to suit their needs. Head over to the Open Source tab for more information. Can I donate something anyway? You can send me a little something if you like: I rarely say no to a pint of real ale. Will you do a sheet for my favourite class? Quite possibly, but my time is limited. Will you do sheets for alternate rules? You made a mistake! This project has been much improved by the suggestions of hundreds of people. Leave me a message with this button:
