Diego Costa has gone from relative obscurity in Spanish football to one of the best and most controversial strikers in the world at Chelsea - all in the space of a couple of years.

Back then, in Lagarto, Northeastern Brazil, poverty was not the main issue of the Costas in that town with a population of 10,000. Even today, although a university livened the place up, Lagarto remains a network of a bumpy roads and wide fields surrounding the town centre, with the marketplace being the main and only local landmark. For him, there was no such thing as a lost ball. Other players see a ball that looks out of reach and they let it go. Professional football, however, seemed a long way off. Stubborn and determined, as the real Nordesteño, Diego replied: He obviously still needed a lot of work, but the boy was running all over the pitch, taking on all. Since then, for many summers, Diego Costa would just imagine how football life in Madrid would be, as the club would regularly send him out on loan. Back then, he was such an unknown player that, during his presentation to the media, the Spanish side provided journalists with a DVD showing some footage of the Brazilian. It was at Celta Vigo that Diego started writing the first pages of his footballing CV, which would feature great skills, as well as those attitude problems that the player, at times, still shows today. These limits spoiled his reputation to the eyes of many fans, but not those working with him. For a guy growing up in the streets, always up for a scuffle, physical contact is essential: You can see that. You have to ask yourself how many times have I injured someone? After the game I shake hands with the defender. Job done, I go home, he goes home. And he likewise will kick me if he has to. Following stints with Celta Vigo, Albacete, Valladolid and Rayo Vallecano, with the temptation to put an end to his time in Madrid, Diego Costa saw his moment come almost by chance. Diego had made it, after years spent wandering around the whole of Spain. Costa always had the potential to become a great player but he lacked games. He lacked any sense of discipline, of belonging to a club [€]. He needed all those bookings, the red cards, the fury, the dives, the spitting you need to make mistakes, you need to learn. I go to war. You come with me. Maybe Conte never knew it, but he just needed few minutes to realise he already had the man he was looking for in his squad, one who would always leave everything on the pitch before the final whistle.

In The Art of War, Fran Guill n retraces every step of Costa's brutal, exhilarating journey: from street footballer in his home city of Lagarto, north-east Brazil, to La Liga winner at Atl tico Madrid, through loan spells at Celta Vigo, Albacete, Valladolid and Rayo Vallecano, and finally to Premier League champion with Chelsea in

However, Falcao would prove an ally, not an enemy, as Costa made his long-awaited breakthrough. By then, the Falcao-Costa axis was broken. It was the sale of Falcao to [Monaco]-- combined with astute deal-making by Mourinho and Chelsea -- that persuaded Costa and Atleti to turn down a bid from Liverpool and wait a year before Costa was unleashed on the Premier League. The following is an excerpt from "Diego Costa: Atletico Madrid against Real Madrid. Costa would later describe the game as "the most important match of my career". Asked in the build-up what the difference between the teams was, Simeone said: Real Madrid had won every one of the 10 previous derbies. Atletico had not beaten their old foes in the 25 matches they had played since returning to La Liga. This one started in a brutally familiar fashion. Radamel Falcao, isolated and frustrated up front, began to drop deep. Costa, returned to the team in a wide role on the right, started to run beyond his team-mate. In the 34th minute, Falcao wriggled between Raul Albiol and Sami Khedira near halfway, spun and sent a perfect diagonal pass into the run of Costa. The striker sprinted clear of Fabio Coentrao and, as he entered the box, thumped a low shot across Diego Lopez and in off the post. The celebrations were so rabid that Arda Turan nearly tore the No. Madrid hit the woodwork three times but, during an agonising period of extra-time, Koke served up a perfect assist to the front post, where Miranda arrived to glance in a subtle header. Gabi was off soon after that, picking up a second yellow for encroachment as his team killed the clock. The minutes become seconds. The whistle brought bedlam. The jinx was over. Atletico had won their fourth final in enemy territory, their 10th Copa del Rey, the third trophy in less than a year and a half under Simeone. Inside the dressing room, the pictures of Saint Gema and Saint Ildefonso had assumed the status of lucky amulets for the newly crowned champions. The club president, Enrique Cerezo, enveloped Costa in a delighted hug, while at the back of the room Arda Turan was sticking to a prematch promise and shaving his head. For many coaches that would be a good year. For me it is the worst. The celebrations continued the following day and Costa led the way from the top of the bus taking the team to the Neptune statue and fountain in the middle of Madrid, where Atleti traditionally celebrate their trophies. We won the best match. We won the final. We won in the Bernabeu. Diego Costa was granted Spanish nationality in the summer of and on July 5 the striker presented himself at the Civil Registry in Madrid to swear allegiance to the Spanish constitution. Now, at last, Atletico had one more space for a non-EU player. However, Jose Mourinho, recently returned to Chelsea, had also identified Costa as a primary target, a Didier Drogba-style centre-forward around whom he could forge a new winning machine. The Portuguese coach had watched Costa since he first arrived at Braga, and had felt the force of the striker during his breakout season close-up as manager of Real Madrid. However, Mourinho had yet to persuade the owner of Chelsea, Roman Abramovic, to accelerate his rebuilding plans. In both acquiring new players and moving others on, the process would be gradual. For Atleti, the sale could wait. If Costa could not be signed now, a strategy was needed to ensure he was delayed, and not diverted. Chelsea and Mourinho made their case to Costa and Atletico: Behind the scenes, Costa was lined up for summer , in negotiations aimed at making all parties happy for the season ahead. Costa now carried a weight of responsibility for Simeone. A player who so often had been a whisker away from a bargain-basement transfer out of Atleti was now the jewel of the team.
