Bani of Bhagats By G S www.enganchecubano.com lives and selected works of saints included in holy book Sri Guru Granth Sahib Ji. A book dedicated to the bhakti saints.

Therefore a comprehensive book dealing with all types of dainties and delicacies of Indian cuisines will meet a good need. Authored by Mrs Balbir Singh, Indian Cookery was the first landmark English cookbook of North Indian cuisine written by an Indian woman – but it became much more, cementing her legacy as a pioneer. Over its pages, Singh gives precise instructions on how to cook the North Indian and Central Asian staples she had learned from her mother. There are no photographs in the 12 sections – just plus straightforward recipes detail staple dishes such as mutton rogan josh, tandoori chicken, shammi kabab, spinach paneer, dum aloo and various breads. It is perhaps difficult to see how ahead of her time Singh was today, when myriad Indian recipes are just a web search away: It was in part to dispel this attitude that Singh felt compelled to write the book: Authoritative guide Singh was born Balwant Kaur to a family of landowners in undivided Punjab in She was inducted into the family kitchen at the age of eight, to observe and help her mother – an excellent cook in her own right – prepare classic North Indian dishes. She graduated in from Panjab University, where she met her husband, Dr Balbir Singh, who later served as a medical officer in the Indian Land Forces. She was bitten by the teaching bug after she shared a few recipes and cooking tips with some of her classmates, many of whom were English women back from a post-Independence India. Between this and her Regent Street education, Singh came up with a few rudimentary recipe cards that married the andaaz of Indian cookery with the precise measurements of British culinary science. Her recipe for keema matar , for example, meticulously details the steps needed to transform 15 ingredients over an hour into a textbook example of Mughlai cuisine. There are no shortcuts here, only an authoritative guide. She continued the classes after the family moved to Vasant Vihar – now teaching from the comfort of her kitchen. Their popularity grew quickly. And soon, from six students twice a week, she was teaching 40 students in a class six days a week. The recipe cards that Singh had prepared during her years in London were refined and revised in the years she spent teaching young Indian women. These became the basis for the cookbook. Singh wanted to share the cuisine she had grown up with and make it accessible: It won the German Internationale Kochkunst Ausstellung, a prestigious European award for professional cookery, and sold over , copies worldwide by The cookbook was hailed has the holy grail of North Indian khaana. Attendance at her cooking classes almost became a prerequisite for marital suitability in Delhi – an unpleasant reminder of how Indian society demands that women possess suitable culinary abilities. Singh would continue to teach and champion her passion, and go on to author another book, Continental Cookery for Indian Homes, in She died later that year. Her recipes live on thanks to the eponymous company that was launched in by Pallavi and Sunil Sitlani. Then a blank website, the year-old soon received emails from devotees of the book, espousing its virtues and excited about the continuation of its legacy. The original Indian Cookery will soon be available on CKBK , a digital service for notable cookbooks, and the Sitlanis are in the process of republishing the book more than 30 years after its last reprint. They plan to modernise some of the recipes and include photos. It could be made by anyone, provided someone showed you the way. She was the first to do just that. We welcome your comments at letters scroll.
