It is immensely popular in Karnataka. Krishna Parijatha is based on one of those mythological tales that is widely popular in Karnataka. This art form depicts the rich and vibrant culture of the land. The belief and customs of the people are reflected in these art forms. Krishna Parijatha is a folk theatre that heavily draws from the ancient religious books. Revolving around Lord Krishna , it is a delight to watch drama being performed on stage. It is often presumed that Krishna Parijatha is an amalgamation of the themes of the other two popular dance dramas - Yakshagana and Bialatta. Parijatha literally means the wish granting trees. There are various legends that are related to this anecdote. But the one, which is more popular, is the one that involves Lord Krishna. According to the legend, Parijatha tree emerged from the ocean of existence. It was planted in the garden of Lord Indra which was one of the gifts received from the samudra manthana , and thus was a celestial plant, not available on earth. Myth about Krishna Parijatha The story of Krishna Parijatha narrates how and why Lord Krishna, assisted by Narada tames the egoistic Satyabhama bringing home to her the point that the Lord always gave importance to Bhakti, like Rukmini did and Satyabhama did not. A war followed in which Indra was defeated. Indra cursed that the plant would never bear fruits, though it might bear flowers. Finally, the tree was planted on earth so that it proves beneficial for men. This entire story is enacted through Krishna Parijatha. It beautifully portrays the rivalry and jealousy between the two consorts of Krishna - Rukmini and Satyabhama. The dancers usually wear glitterati attires and decorate themselves with beautiful jewellerys resembling Lord Krishna, Rukmini, Satyabhama and other important characters. The wonderful performance of this drama takes the audiences to the mythical story of Krishna Parijatha. From village squares to open markets, it continues to be a popular folk religious theatrical form.

In some contexts, the term puravcharyar, which may refer to previous grammarians or rhetoricians, have also been mentioned. Inspired by the earlier Sanskrit writing Brihatkatha Kosha, it is about Jain tenets and describes issues of rebirth , karma , the plight of humans on earth, and social issues of the time such as education, trade and commerce, magic, superstition, and the condition of women in society. He earned the title Ubhaya Kavichakravathi "supreme poet in two languages" for his command of both Kannada and Sanskrit. Western Chalukya literature in Kannada Inscribed handwriting of 10th-century poet Ranna reads Kavi Ratna gem among poets in Shravanabelagola From the late 10th century, Kannada literature made considerable progress under the patronage of the new overlords of the Deccan , the Western Chalukyas and their feudatories: King Bhoja of Malwa in central India presented Nagavarma I , a writer of prosody and romance classics, with horses as a mark of his admiration. He was also patronised by Attimabbe , a devout Jain woman. His other well-known writing is the Ajitha purana , which recounts the life of the second Jain Tirthankar Ajitanatha. Hoysala literature Hero stone virgal with old Kannada elegiac inscription at the Ishwara temple in Arasikere , Karnataka In the late 12th century, the Hoysalas , a powerful hill tribe from the Malnad region in modern southern Karnataka, exploited the political uncertainty in the Deccan to gain dominance in the region south of the Krishna River in southern India. In the decades to follow, Jain writers faced competition from the Veerashaivas, to which they responded with rebuttals, [79] and from the 15th century, from the writers of the Vaishnava cadre. These events changed the literary landscape of the Kannada-speaking region forever. He wrote Girijakalyana in ten sections following the Kalidasa tradition, employing the old Jain champu style, with the story leading to the marriage of Shiva and Parvati. He is credited with more than poems in ragale metre, called the Nambiyana ragale or Shivaganada ragale, praising the saint Nambiyana and Virupaksha a form of Hindu god Shiva. It is believed that this interpretation of the story of Harishchandra is unique to Indian literature. The writing is an original and does not follow any established epic traditions. In one of the stories, a king intended to perform a ritual sacrifice of two young boys to Mariamma, a local deity. Vijayanagara literature in Kannada King Krishnadevaraya, patron of Vaishnava literature The 14th century saw major upheavals in geo-politics of southern India with Muslim empires invading from the north. The Vijayanagara Empire stood as a bulwark against these invasions and created an atmosphere conducive to the development of the fine arts. Acute rivalry led to "organised processions" in honour of the classics written by poets of the respective sects. He was particularly known for his sophisticated use of metaphors and had even earned the title Rupaka Samrajya Chakravarti "Emperor of the land of Metaphors". The work is a translation of the first ten chapters of the epic Mahabharata and emphasises the divinity and grace of the Lord Krishna , portraying all characters with the exception of Krishna to suffer from human foibles. This work marked a transition of Kannada literature to a more modern genre and heralded a new age combining poetic perfection with religious inspiration. The poet named his work Krishnaraya Bharata after his patron king. This writing has remained popular for centuries and inspired folk theatre such as the Yakshagana , which has made use of its verses as a script for enacting episodes from the great epic. As the story progresses, Hanuman , for all his services to Rama, is exalted to the status of "the next creator". Towards the end of the story, during the war with Rama, Ravana realises that his adversary is none other than the God Vishnu and hastens to die at his hands to achieve salvation. His eulogy of the saint Allama Prabhu , titled Prabhulinga Lile , was later translated into Telugu and Tamil at the behest of his patron king. In the story, the saint was considered an incarnation of Hindu God Ganapathi while Parvati took the form of a princess of Banavasi. Translations of classics from Kannada to Telugu and vice versa became popular. In fact, so well versed in Kannada were some Telugu poets, including Dhurjati , that they freely used many Kannada terms in their Telugu writings. It was because of this "familiarity" with Kannada, that the notable writer Srinatha even called his Telugu,

"Kannada". This process of interaction between the two languages continued into the 19th century in the form of translations by bilingual writers.

We will release new content probably by this June() We promise that it is gonna be more mature than this. subscribe and HF:) A funny skit where English is mistranslated into Kannada.

Workshops Modern Kannada Drama and Theatre The first war of independence , I believe, is the first significant event which made us meaningfully aware of the British presence and the consequences of colonial rule. One may logically construe that a new age followed in Indian history. This paper, however, does not present a complete survey of Modern Kannada Drama and Theatre of this period. It is only an attempt to hint at a few significant developments. I only hope that these notes offer some kind of introduction to Modern Kannada Drama and Theatre to non-kannada speakers. Karnataka has had a deep-rooted Theatre Tradition. It can easily be dated back to the seventh century. Yakshagana of the Coastal districts, Doddata, Sannata, Krishna Parijatha of the northern districts and the Moodalapaya of the old Mysore area are some living examples of this great tradition. It is significant to note that whereas the Kathakkali of Kerala is predominantly a dance form, Yakshagana, Doddata and Sannata are essentially theatre forms. These Pre-Modern forms have been very mature in their concepts and are popular even today. That a Yakshagana troupe performed in Maharashtras during and inspired the birth of Modern Marathi Theatre is also a significant event worth recording. The colonial rule made a deep impact on our life style. The traditional and the folk forms slowly receded into the rural corners as the Parsey companies invaded the towns. Mysore witnessed many such Parsey performances during The palace which was hitherto supporting a Yakshagana troupe witnessed the birth of a new troupe called "Aramane Nataka Company". The famous "Gubbi Company" which celebrated its centenary only two years ago came into being in One may, thus, logically conclude that the Modern Kannada theatre was the offshoot of the new professional Parsey companies. This demanded two important things: Modern Kannada theatre resisted the bonds of Traditional forms and gave itself to the new forms from the west. Though the names of the characters are altered it follows the original line by line. Still, it failed to reflect the essence of the original. There is more than one reason for the absence of this new form-Drama- in Pre Modern Kannada literature. The prose-conversations were improvised. Thus these theatres did not demand a new literary form b The main stream of Pre-Modern Kannada literature is dominated by epics. As a literary form, the epic has been the most complete and inclusive. Since the early masters set a solid ground for the epic tradition the need for other forms was not very much felt. Modern Drama came into being with the translations from Sanskrit Drama during The first Modern Kannada Drama was published from Bombay in It is curious to note that a play like "Iggappa Hegde Vivaha Prahasana" was published as early as that. It deals with a social issue pertaining to the subcaste of a village. The subcaste, here, is comprised of a small community of rural, agriculturist Brahmins. The marriage brings the downfall of both. It is very interesting to observe that the playwright has used the dialect of this subcaste. Other characters, drawn from other communities, speak their dialects. Thus "Iggappa Hegde Vivaha Prahasana" was not only an experiment in form but also in language. It was a successful replica of a European social realist dramatic form. The playwright belonged to the same subcaste and was a Sanskrit scholar. But he was a liberal and a reformist too. He opened a printing press and was responsible for the publication of many Kannada books. During the same time, another rural immigrant to Bombay published a similar reformist play. Today, these plays may appear very crude devoid of any literary merit. But the attitude they represent is very significant: They have roots in their immediate environment but are open to new influences. There is a conscious attempt to blend and digest both. These short plays were meaningfully followed by "Sangya Balya". A village teacher educated in the English system wrote this. He knew the folk forms of his area. The actors had to improvise the dialogues. The playwright was brave enough to compose his play on an incident of Adultery and Murder. The theme was so contemporary that it invited a legal ban on its performance and has to be performed cheating the police. The real life incident provoked the concerned people to sue the playwright in the court of law. The popularity and the literary merits of this play, however, are still the wonders of modern Kannada Drama. The next two important names are T. Kailasam was the illustrious son of a highly placed executive. He was a student of geology in a British University. Kailasam,

however, was more interested in the contemporary British Drama and music than geology and brought with him new things to Kannada drama. He published his first play in Kailasam often attacked these men for their hypocrisy; exposed their emptiness and ridiculed their meanness. His Kannada plays are replete with a characteristic wit, humour and an occasional Pun. He uses words from other languages without any hesitation. He consciously broke the assumed seriousness and brought ease and enthusiasm on the stage. They made their entry into schools and colleges too. In many ways Kailasam was a Bohemian. His unconventional and carefree mannerisms have become myths. But his potential was not completely realized in his plays. However he did not reject the company theatre as a whole. He tried to explore new possibilities and extend the scope of company theatre. SriRanga published his first play in SriRanga was a Sanskrit scholar. He was familiar with Indian theatre traditions. His understanding of the Sanskrit plays and the Natya Shastra was unequalled. He studied philology in the London University. Like Kailasam he too was greatly influenced by European theatre. SriRanga was a born rebel and naturally attached the evils of middle class Brahmin society. Like Kailasam he too was a social realist. He virtually wrote hundreds of plays and experimented with the form but not always successfully. He not only promoted the interests of amateur theatre but brought a new discipline as well. While Kailasam had a career of 25 years, SriRanga spent more than 50 years in Kannada theatre. Shivarama Karanth did not restrict himself to realist drama. His interests ranged from traditional Yakshagana to company theatre. His experiments include opera, burlesque and farce also. He was interested both in the professional and amateur theatre. His experiments in Yakshagana brought international recognition and paved new ways of understanding the form. Kailasam wrote his first play in The very next year, in , Samsa published his first historical play. He is said to have written 23 plays of which only five or six plays are available. Though he did not have a sound academic qualification he went abroad to earn money as a worker. His bitter experiences abroad made him develop persecution mania and later he committed suicide. But his career as a dramatist is very interesting. He was drenched in the horrifying experiences of an unpleasant contemporary life but tried to recreate the most significant historical developments in the Mysore dynasty. The complex world of his unique characters reminds, sometimes, one, of Shakespeare, who with his demonic power was an ideal to Samsa. But one cannot say that Samsa copied Shakespeare. He only seems to have drawn his strength from Shakespeare and has invested it with his own creative potential. Let me clarify this point a little further: Shakespeare was an ideal to D. Roy closely followed Shakespeare he was unable to get the essence of Shakespeare and ended up with melodrama. Kannada Drama received yet another boost with B. Srikantiah bringing the Greek forms to look at our own ancient classics with a new perspective. Sri was the father of Renaissance movement in Karnataka.

In weakness, we find strength. The walls must crumble before we advance. The darkness finds us before we seek out the light. True strength comes from loss. The only reason I know a good life now, is from the pain of my past. I was ruined from within and stripped to my final shreds of life. But I was given a second chance to live again, to rise up and be reborn. Burned pure by the fire, I rise on the wings of my second soul. But for some reason, I pray. I pray for a better day. I want us to earn what we need and deserve it. I will lift myself up and make it better. I go to church, and hide in the back in my hoodie, hoping no one will recognize me. Nobody here but the oldies and the goodies anyway. I listen, hoping to understand something the priest says. My family never went to church much. Just Easter and Christmas, at least until mama died. Then nobody cared anymore after that. I want something different now. I want something better. Let me unlock the key to a new life. Let me make a difference. One example is with the monologue called Demons - [http:](http://) The best performances were the ones who selected different types of emotions for different parts of the script. Even though the whole monologue is sad, there are elements of anger, fear, hurting, desperation, madness and even love. The actors that found different emotions to use in different parts were the most interesting and enjoyable to listen to. By practicing short monologues, it can boost your confidence. Some very famous people had stage fright: Stage fright is a challenge a lot of people have. But once I start performing I totally forget about the people and focus on my character. Focus only on your character and your story. If you become the character, then it is this other person up there and not yourself. Pick a point to look at in the back of the room and focus on that. Many performers including myself use the nervous energy and put it in their performance. Singer Stevie Nicks explains how this helps her performance rather than hurts it. But then I wonder: Freedrama gives you a chance to use some new, original, fresh monologues that have not been performed over and over again. Check out some great, newer monologues including many that are from published plays at [http:](http://)
