He is the people of God, the firstborn of the new creation – the new Genesis Jesus is everything that God has promised. You can read part one here , if you like. Whoever is among you of all his people, may the Lord his God be with him. Let him go up. The whole structure of Matthew seems to follow the whole structure of the Old Testament, not just in the beginning and end. While the inclusion of women would have been unusual in that time, Matthew would find it quite helpful in that these women were important figures in key Old Testament events. It would also explain why he skipped some names that rightly would have fit in the genealogy, but were not significant to the retelling of the Old Testament. This should remind us of the story of Isaac, the unexpected and miraculous son given to Abraham and Sarah, particularly since Matthew connected Jesus to Abraham in the genealogy. In chapter 2, Matthew records the visit of the Magi and their visit to King Herod. A familiar story, often we miss the humor of the Magi telling King Herod that they have come to see the real King of the Jews. Afraid of losing his throne, Herod has all of the male children two years and under put to death; exactly as Pharaoh did in Exodus. Note that Matthew has moved from Genesis to Exodus. Jesus is the new creation Genesis , the new Abraham, the new and greater Cyrus, and the new Moses. And the Moses typology continues in the gospel - particularly in events like the temptation of Jesus, where He wanders for 40 days, and is tempted in the wilderness; as the Hebrews wandered and were tempted in the wilderness. But, notice that here too, Jesus is both Moses and Israel. Another particularly interesting comparison can be found with Matthew 2: So, Jesus is Israel. He is the people of God, the firstborn of the new creation – the new Genesis that Matthew is writing about; the new mankind. He is the Messiah, He is the new creation, the firstborn of the new creation, the new Abraham, the new Moses, the true Israel, the Son brought out of bondage in Egypt, and even the new Cyrus emperor of heaven and earth – yet He is greater than them all. He is the fulfillment. As Paul said, in Colossians 1: For by him all things were created, in heaven and on earth, visible and invisible, whether thrones or dominions or rulers or authorities – all things were created through him and for him. And he is before all things, and in him all things hold together. And he is the head of the body, the church. He is the beginning, the firstborn from the dead, that in everything he might be preeminent.

His rejection of the reverential circumlocution and Semitic origin hypotheses of this language is convincing. In this work, rising scholar Jonathan Pennington articulates a fresh perspective on this key interpretive issue. Pennington argues that rather than being a reverent way of referring to God, as is typically assumed, "heaven" in Matthew is part of a highly developed discourse of heaven and earth language. Now available in paperback, this volume will appeal to students of the New Testament, including those interested in its theological and pastoral applications. Endorsements "When I began to read this book, I was sure that the main thesis was wrong. When I finished, I was sure it was right. This is a significant contribution that corrects much we have mistakenly taken for granted. Dearborn Professor of New Testament, Princeton Theological Seminary "This book is a refreshingly well-written compendium of research that is both comprehensive and convincing. Pennington has articulated a more careful understanding of a pervasive theme in the first Gospel that must be accounted for in subsequent scholarship. He challenges long-standing exegetical assumptions, showing that they lack a credible foundation. He offers a deft and insightful interpretation of the terms heaven and earth in Matthew and fruitfully explores the theological import of the terms. We stand in debt to Pennington for this significant and creative study. Pastors and advanced students will benefit from his practical findings. Pennington PhD, University of St. Andrews is associate professor of New Testament interpretation and director of research doctoral studies at the Southern Baptist Theological Seminary in Louisville, Kentucky. He is the author of Reading Continue reading about Jonathan T. Pennington Reviews "Pennington succeeds in what he sets out to do in this book--to unsettle a long-settled scholarly consensus. While noting antecedents to individual parts of his thesis in previous discussion, Pennington draws the material together into a thematically coherent entity. His rigor in the examination of heaven language in Jewish sources alone makes the book a worthy addition. This book makes an important contribution to Matthean studies. Pennington shows that decades of Matthean scholarship have failed to scratch the surface of an important Matthean theme. Even those who disagree with the conclusions will find the research and argumentation nearly unassailable. Those with interests in the First Gospel, especially future commentators, need to pay attention to this book. Skinner, Religious Studies Review "The book corrects several misunderstandings. Sometimes in scholarly circles, as in life, a saying is repeated so frequently that one never takes time to question its validity. Pennington gives reason to pause, reflect, and challenge such assumptions. In this case the challenge proves illuminating since it uncovers a theme latent in Matthew. The book has already convinced several significant Matthean scholars. This volume provides helpful insights for students of Matthew, Daniel, Genesis, and the influence of Second Temple thought on NT authors. Pennington successfully shows how Matthew intended to reconfigure the worldview of the readers so that they would align their behavior, beliefs, and values with the God who dwells in heaven. Bird, Southern Baptist Journal of Theology "The main contribution of this work lies in its compelling critique of the reverential circumlocution hypothesis. It also offers a plausible thesis that the theme of heaven and earth in Matthew serves a distinctive literary and theological purpose. This book provides a helpful analysis of a neglected topic in Matthean studies. This study is superb in every respect. Pennington has taken a given in the interpretation of Matthew and shown the evidence needed to cause all exegetes to rethink their understanding of the function of heaven and earth within the gospel. This book should be commended to New Testament scholars, theologians, and pastors alike. Benson, Africanus Journal Stay in the know!
