

1: Easy Laser Printer Maintenance and Repair by Stephen J. Bigelow

*Easy Laser Printer Maintenance and Repair [Stephen J. Bigelow] on www.enganchecubano.com *FREE* shipping on qualifying offers. This book is for those who want to get their laser printer up and running fast while saving money.*

He told me of the company history and it is very obvious that he is proud to work at Laser Line. He was patient, respectful and friendly. He asked questions about how I use my printers to allow him to offer advice and support in addition to simply repairing this particular problem. He was genuinely interested in how Laser Line could support me. I will continue to recommend Laser Line to associates. I called and then stopped by their office with a Canon laser printer that needed an error code reset P07 per Canon In the end it worked! Thank you Laser Line! Kanda â€™” Department Manager Maggie, our receptionist, also loves working with your customer service department. She said everyone is very courteous, reliable and the response time is incredible. Keep up the great work and we look forward to working with James and Laser Line for our printing needs in the future. The plant manager and myself were discussing the terms of the project when a representative of your company appeared. He was very professional in his demeanor. He displayed thorough knowledge of the task at hand. Not only did he replace the cartridge but provided maintenance to the laser jet, all the while not having to interfere with the meeting I was engaged in. You know from a few instances that I had with your company that if the quality provided by your company I feel is lacking I will echo that sentiment. Its service like this that I enjoy acknowledging and give accolades where there is just cause, and why I look forward in doing business with your company for the years ahead. Dominic â€™” IT Manager I know of no better way to describe the level of satisfaction we have experienced with Laser Line over the past several years but to say, you make it easy for us to do business with you. There are many organizations in your space with which our company might do business. However, continuous outrageous service and ease of doing business continue to place Laser Line at the top of our preferred vendor list. Please let your associates know that the work they do for our company does not go unnoticed. Ray â€™” IT Manager Our primary call center staff no longer have to serve as a warehouse managers and delivery agents for the dozens of models of printer toner needed to support over printers on our two campuses, nor do we need to have our second tier support personnel spending countless hours diagnosing printer failures only to eventually have to send the device out to a vendor for repairs. The time savings alone made this a very profitable solution for us but the other benefits are numerous. Debbie â€™” IT Manager I just wanted to take a moment to let you know how pleased we are with your company and the printer service you provide. Both your sales representatives and your technicians display an extreme professionalism and are very attentive to our needs. The response time is exceptional! We hardly get off the phone from placing a call and your service technician is at our door ready to perform whatever service is required. Thank you for providing our company with exceptional printer management services. Monica â€™” HR Manager Your staff is pleasant and professional and the response time to clear a jam, change a print cartridge or just fix an aging printer has been remarkable. I would have many disgruntled employees if I ever decided to even try a new vendor.

2: Laser Printer Repair Services | HP Xerox Lexmark Canon Brother Dell | Laser Innovations

This is a guide to laser printing troubleshooting, service and repair for all types of laser printers. It is aimed at both the non-specialist and specialist. The book provides flowcharts to analyze printer malfunction symptoms, to eliminate possible causes and to diagnose the actual problem and make.

The HP Supportpack Advanced Maintenance Service was created for customers who want the security that comes from regular maintenance check-ups and quick response for hardware repairs. This HP Supportpack provides proactive notification when a printer healthcheck is required. A multipoint cleaning and preventive maintenance procedure will be performed at this yearly, onsite visit. Regular, properly performed maintenance that preserves the life of the printer and maintains high print quality. Higher return on a printer investment and maximized cost-effectiveness of highly trained in-house staff who will no longer need to be distracted with printer maintenance. Increased productivity due to increased uptime. Assurance that an HP-service trained and qualified technician will perform the service in a professional manner and to a high standard. Choice of four-hour four business hours or next business day Monday through Friday excluding HP holidays response to repair an HP LaserJet printer Replacement of fuser and transfer maintenance kit during the three-year contract see limitations Driver update notification Optional purchase and registration available by Web, email or fax Three-year, fixed cost hardware support HP will provide all labor, parts, travel and materials necessary to maintain a working printer. HP will arrive within four hours four business hours or next business day Monday through Friday excluding HP holidays depending on the level of service purchased. Annual healthchecks HP will schedule three annual onsite healthchecks to perform a multi-point cleaning and preventive maintenance procedure. Convenient scheduling HP will notify the Supportpack owner when their annual healthcheck is due and schedule maintenance during normal business hours Monday - Friday, 8 a. The maintenance kit will be replaced when the printer display panel advises or at the annual healthcheck. Before arriving for the healthcheck, HP will have the customer print a test page to determine if the maintenance kit should be replaced ; or this will be done at the third and final annual healthcheck if the service has not been performed previously. Driver update notice HP will provide an e-mail update of new printer drivers, which can be downloaded via the web customer must provide operating system details and email address to receive this service. Hardware verification After completing onsite service, HP will perform a test print to verify functionality. Maintenance checklist HP will provide a multipoint cleaning and maintenance checklist after completing the annual healthcheck. This response time applies to customer locations within miles of an HP support office. Service includes one healthcheck per year and one maintenance kit over the term of the contract. Click here to visit the Service Locator to find resellers in the U. To purchase from HP in the U. Click here to contact HP directly. Customer responsibilities To receive Advanced Maintenance Service, the customer agrees to provide HP immediate and unrestricted access to the printer as requested by HP. Limitations The printer must be in full working order before the service can be purchased. The service must be purchased within days of the purchase of a new printer. During the three-year contract, HP will replace a maximum of: One fuser maintenance kit for monochrome HP LaserJets. One maintenance kit if required for HP Designjet printers. Response time may increase if the location is farther than miles from the HP Support Office. The information in this document is subject to change without notice.
