Die Menschen ziehen in Scharen nach Berlin, Wohnungen, zumal bezahlbare sind knapp. Und mittendrin ein Mann unter Strom: Und es ist eine Geschichte mit erstaunlichen Parallelen zum Berlin des Jahres Heute vor hundert Jahren ist Emil Rathenau gestorben. Berlin in den 60er- und 70er-Jahren des Und dieses kreative Schaffen zieht Menschen aus aller Welt an. Berlin hat, als Rathenau Unternehmer wird, noch keine Million Einwohner. Es gibt allerdings bereits Industrie, vor allem Maschinenbau. Es gibt in der Folge einen wahren Wirtschaftsboom im Reich. Und Berlin ist die Hauptstadt. Das Wachstum hier ist besonders rasant. Im selben Jahr wird der S-Bahn-Ring geschlossen. Rathenau wird am Dezember in Berlin als Sohn eines Kaufmanns geboren. Rathenau schaut sich die neueste Erfindung aus den USA an: Ob er bereits alles, was folgen sollte, vorhergesehen hat? Aggressives Marketing Rathenau sieht im Strom die Zukunft. Er kann aus seiner Sicht Menschen ersetzen, die Produktion rationalisieren und in der Folge die Preise senken. Und Rathenau wagt Neues. Und in einem zweiten Schritt Geld verdienen. Um arbeiteten bereits rund

Invention of the hairdryer. An AEG-equipped experimental three-phase railcar achieved a speed of This world speed record for rail vehicles was held until Entry into the aircraft building market. AEG produced its first compressor-driven refrigerators and temperature controlled irons. AEG joined other large manufacturing companies to support Adolf Hitler On 20 June , founder Emil Rathenau died at age You can help by adding to it. AEG donated 60, Reichsmarks to the Nazi party after the Secret Meeting of 20 February at which the twin goals of complete power and national rearmament were explained by Hitler. They joined with other large companies such as IG Farben , Thyssen and Krupp in their support of the Nazis, especially in promoting re-armament of the German Army , Luftwaffe , and Kriegsmarine. During the war itself, they used large numbers of forced labourers as well as concentration camp prisoners, under inhuman conditions of work. In , AEG began to relocate goods and evacuate workers. Goods were relocated to various places, including Berlin and Sudetenland. Most of these would die in during the death marches and finally in Buchenwald. The first factory part was the high voltage switchgear factory HSF , later the refrigerator factory KSF , the ticketprinter factory FDF , the isolating material factory IF as well as the worldwide accepted high voltage institute HI were founded. In the early sixties more than people worked for AEG in Kassel. Today, the site Lilienthalstrasse still produces high voltage switchgear. The number of employees in the Group rose from 20, in September to 55, persons in September In the same year the turnover exceeded one billion DM for the first time, however the high level of investment in the rebuilding of the company to over million DM placed a considerable strain on the balance sheet. The Group has , employees and generates annual sales of 3. In Spring a new factory is opened in February a new factory for the production of fluid control units with employees. Robert Kennedy attends the opening. In , AEG-Telefunken had , employees worldwide, and was the 12th largest electrical company in the world. The company was burdened by, among other things, unsuccessful projects such as an automated baggage conveyor system at Frankfurt Airport and nuclear powerplant construction. As a result, the company paid its last dividend in The building had been previously rented to the Technical University of Berlin In , to circumvent the requirement of equal participation of employees in the Supervisory Board, Dr. AEG boss from to created four further companies as wholly owned joint stock companies in addition to the two household appliance companies.
