

ENCYCLOPEDIA OF RIBBON EMBROIDERY FLOWERS pdf

1: An Encyclopedia of Ribbon Embroidery Flowers: Designs by Deanna Hall West

This is a great reference book for any kind of silk ribbon embroidery flowers you might want to use. I really appreciated the chart that gave different brand of ribbons and their corresponding color matches, especially since Bucilla doesn't make their ribbon anymore.

A bonus ribbon embroidery rose 1. Fishbone stitch flowers This is made the same way that you do the fishbone stitch in embroidery. The fishbone stitch is made very closely, making them small as you go up the stalk. You can make flowers using the same stitching around a point. Lazy daisy flowers Stand alone lazy daisy stitch is made around a point just like you do in lazy daisy flower embroidery. Twisted flowers This is a very easy embroidery flower. You need to keep a small hand needle and sewing thread in matching thread nearby before making this flower. In this you have to thread ribbon the same way that you do embroidery thread. Knot at the end. Take up the thread from under the fabric to the front. Now twist the thread all the way to the needle as below. When you get the fully twisted coil, twist the coil around somewhat closely around the point where you started the stitch. Hold the coils with your hand and use the hand needle and thread to attach the coils on the fabric with small stitches 4. Buttonhole flowers Small buttonhole stitches are made around a point. You can go through the same hole to make the buttonholes. If the hole gets big place a small bead or a sequin. Gathered flower This is a very easy flower to make. You need a long hand sewing needle and matching thread. Thread ribbon on the big needle and knot one end. Bring up the thread from the back to the face of the fabric. Make gathers by tightening the thread. Now form the gathers around the point. Stitch in place 6. Ribbon stitch flower Make ribbon stitches around a point. These stitches look just like petals 7. Spider web flower These flowers are made by weaving ribbon between hand sewn stitches, the same way that it is done in the rose flower embroidery tutorials 8. Folded flowers And the most easy of all – the beautiful folded flowers. This involves just you and the ribbon playing fold. Take a long ribbon. Fold by half and from the fold, start folding the tails stacking on top of each other. In the end you will get a piece like below. You just have to pull one of the ribbon tails now to get a beautiful flower. Twisted bud This flower is made the same way that the earlier shown twisted flower is done. The difference being that the flower is not made with the whole twisted ribbon. The twisted ribbon is taken to the back of the fabric through a hole just 2- 3 threads from the take up hole. This will create a twisted bud shaped flower which is very small and looks like a small rose – mine not so much. You can do better. Just two wraps around the needle and you have this sweet little flower to fill designs or as a stand alone flower. A bonus ribbon embroidery rose Step 1 To make this very beautiful rose you have to first take a 3 inch piece of ribbon and then fold it to make the small bud shape inside. Step 2 Tie thread on the base of this to make the bud shape Step 3 Cut off the extra in this bud. Use a needle and thread to fix this on to the fabric Step 4 Bring up a ribbon embroidery needle with ribbon and curl the ribbon around the bud. These will form the petals. You can make a beautiful ribbon Pansy flower with ribbon embroidery stitches- checkout the post on 4 ways to recreate a Pansy flower for more details Related posts:
