

1: Captain Birdseye - Wikipedia

It is aye, aye, captain. In the pirate language aye is a equivalent for yes. So in this case ~Aye aye captain~ is like saying ~Yes captain~.

The Undertaker of Black Butler occasionally wears his hat in this manner. Kisuke Urahara of Bleach is seen with both the variations, especially the shadow-casting one. Sometimes, depending on the artist, his eyes are covered in shadows, even when we should be able to see them, or aiming his revolver at someone. When the brim is canted upwards very rare! Sometimes his eyes are seen to indicate surprise. In Soul Eater, Patty Thompson sports this look while wearing a beanie in flashbacks. She and her sister sometimes do this with the peaks of their cowboy hats. Genzo from Captain Tsubasa. Sometimes his hat cover the eyes. In The Hating Girl, the school bomber wears a knitted wool hat that covers his eyes and the horn on his head. Toshiyuki Karasawa of Daily Lives of High School Boys almost constantly wears his baseball cap that covers his eyes with shade. He wears it because of the nasty scar Habara gave to him when she was known as "Archdemon". However, sometimes his eyes can be seen through the shadow. In Tongari Booshi No Atorie, the Brimhats, a group of criminal witches that are known to use hats to hide their faces, specially their eyes. Pre-ninja Snake Eyes in the G. This was even done on the action figure depicting him this way "the figure had no eyes and instead there was a shadow painted over his face beneath his boonie hat. Comic Strips Beetle Bailey always wears his GI cap or helmet so that his eyes are unseen, even when sleeping and showering. In his college days, Beetle wore a cambered porkpie hat this way as well. His eyes have only been seen once. Lampshaded in a strip: In another strip, Lt. Andy Capp has always worn his cap to obscure his eyes, even while Reg Smythe adjusted his character models. Gasoline Alley trash collectors Joel and Rufus always don these. The thug working for Lord Blackwood who tries to shoot Watson in the opening temple fight. Mat Cauthon of The Wheel of Time wears his hat this way after losing an eye, in a nod to Odin, described below. He then reveals that eye to Vernon Dursley just to scare the crap out of him. Barney tries to peek around the brim. A frequent Fourth Doctor bit in Doctor Who. He favoured wide-brimmed hats and often used them to hide his face when secretly worried, scared or upset. Anne Bonny, as portrayed on Black Sails, often wears her hat this way. They discover the message, "Get out of Vietnam! Many re-tellings indicate it is impossible for Odin to go without concealing his missing eye somehow. Wotan wears his hat funny to cover his missing eye. Video Games Bobbery from Paper Mario: The Thousand-Year Door wears his hat in such a way to obscure one of his eyes. Vivian and her sisters also use this trope. In Borderlands 2, one of the heads available for Gaige the Mechromancer is a newsboy cap appropriately titled "Read All About It", the peak of which hides her eyes when viewing the character model on the title screen, either variant can occur depending on the angle her head is positioned. While there are many hats the soldier can wear that can show his eyes, there are also other hats that also obscure them. The Commissar is shown like this, all you see of his face is his nose, grim-set mouth and massive chin. Capcom artist Edayan seems to always have at least one character like this, as Roberto Miura from Rival Schools and Cracker Jack from Street Fighter EX have their eyes perpetually covered by their hats. Dark Souls has the aptly-named "Big Hat Logan". The item description deconstructs the trope by saying that Logan wore it out of shyness and fear, rather than out of any magical benefits it gave. Concept art of The Batter from OFF shows that his only visible facial feature is his mouth, despite his in-game sprite displaying eyes. SNK poster boy Terry Bogard zig-zags this. There is plenty of official art with his eyes clearly visible underneath his hat, but all of his game sprites have said hat obscuring them. An Elysian Tail wears a veiled hat covering much of his face through most of the game. Considering his tragic backstory, this may overlap with Hidden Eyes. Fidget mercilessly Lampshades this in a conversation early in the game. More noticeable in Dissidia: His Holy Dragoon outfit lacks the helmet, though. Blank from Final Fantasy IX wears a peculiar headwrap that involves a leather belt obscuring his eyes, complete with buckle. One wonders how he can see to do anything. Web Comics Ananth in Johnny Wander is always drawn with one of these. In El Goonish Shive, Duck, a comicbook shop regular, always wears a baseball cap that acts as this. In Blinding Bangs appeared to easier tell hatless Swampy from Red. His knitted hat falls below his eyes, but he has made

FAMOUS EYES (EYE EYE CAPTAIN) pdf

two eyeholes in the fabric to see through. Wade from Kick Buttowski has a knit cap that covers up his eyes. Averted by the title character of Secret Squirrel , whose hat brim almost touches his nose, but has two eye holes so that he can see. Lunt from VeggieTales has a hat that obscures his eyes. The abnormally short gangster Rocky from the Looney Tunes Rocky and Mugsy cartoons has an absurdly tall hat which obscures his eyes. Lazy in The Mr. Men Show has a hat that covers his eyes. Kids Next Door almost always wears her Tomboyish Baseball Cap over her eyes, though she can be seen without it a few times. Unless he sees a flying doghouse. Sloppy Smurf of The Smurfs wears a Smurf hat that completely covers his eyes.

2: Eye Care Tips - Lifesc

Famous Quotes About Eyes Our eyes have been inspiring authors and philosophers for thousands of years. Some claim they can tell quite a bit about a person just by looking into their eyes, even peering into the depths of their soul.

He is an expert in his field, and very reassuring. His work was impeccable, and I would thoroughly recommend him to anyone wanting a professional, kindly, expert service. Samer Hamada who provided me with a world class experience. My vision improved significantly since the surgery. Samer Hamada is definitely a Keratoconus expert. Tareq Kasshout I am glad to be with Mr. I am glad to be examined by Mr Hamada who acts responsibly and professionally. I never had this experience before from a previous ophthalmologist. I am thankful to Mr. Hamada for the successful diagnosis and treatment of my case. Ghiath Sumainah What a Consultant. Hamada is a man who was born for this profession. As soon as we walked into the room you felt that you had met a man who was gentle and kind. His demeanour was of a man who knew his trade. He speaks in a way that you will understand. He explains exactly what is wrong and the way he will help fix it for you. Sam Brock Over 8 years ago I had cataract surgery at our local teaching hospital. Immediately afterwards I was photophobic and had no tears and constant infections and pain. I was becoming more disabled by the day. My husband and I were in a very dark place. Kathryn Wyss-Janes Eye Clinic London ECL is a private ophthalmology clinic devoted to the treatment and management of various eye conditions and diseases. We specialise in corneal disease and surgery, cataract surgery, stem cell and corneal transplantation, and refractive surgery on the cornea and lens both in adults and children. Eye Clinic London was established by Mr. Samer Hamada with an aim to make it a centre of excellence in treating eye diseases using the latest diagnostics, advanced evidence based therapies and performing the most innovative yet safest treatment modalities. Hamada is not only a leading surgeon but is also the only dual fellowship trained in corneal diseases in children from reputable institutions in the UK. At Eye Clinic London we work closely with other consultant ophthalmologists, optometrists and orthoptists to achieve the best outcomes for our patients. Our main aim is to make sure our patients get the safest and best treatments available to them. We put your safety before anything else so you can rest assured that if you choose us you will be in the best and safest hands. Hamada is a pioneer in managing corneal diseases in children; he is one of the very few eye surgeons in the world who has educational, academic and clinical skills to manage corneal diseases in children. Eye Clinic London is also one of the very few clinics in the world where we give special attention to dry eye disease. We have a dedicated dry eye clinic where we use various types of treatment, including our new MiBo Thermoflo treatment, to help control and manage dry eyes. Whether it is cataract surgery, refractive laser vision correction LASIK and LASEK , refractive lens exchange, implantable contact lens ICL , corneal cross linking for keratoconus or corneal transplantation you can rest assured that you will always receive our honest advice and that we will discuss the best options to meet your expectations. Each treatment is tailored to suit your particular needs and to enable you to enjoy your maximal visual potential. We differ from various other eye clinics because you will see Mr. Hamada at all of your appointments not just the initial consultation. He will carry out your surgery, if required, and all follow up appointments. We look after you from the very moment you call up to enquire, all the way through to the point you are discharged, and then anytime you may need us again. We thrive to excel in everything we do and invest in new innovations to give you a treatment that is truly life changing. We want to win and keep your trust; so please go ahead and contact us now, we will be very pleased to assist you. Why Eye Clinic London? Simply because you can trust us with your eyes. Mr Hamada is a leading surgeon and world renowned specialist in cornea, cataract and refractive surgery. He is thorough, knowledgeable, and equipped with the latest advances in vision correction and corneal surgery. He has treated thousands of patients with excellent results. He is very much liked by his patients and colleagues who describe him as caring, professional, and kind

3: Famous Quotes About Eyes

The beginning of each session was devoted to the project of taking an extreme close-up of the celebrity's eye. The next step was to stage a second image, which usually integrated the first portrait of the person's eye.

Why did pirates wear a patch over one eye? In actuality, it was simply a result of navel combat. Splinters caused by the wood of the ship be hit with cannon fire and gun fire could get in the eye, gun powder itself can be damaging, not to mention, the chance of bullets and knives landing in them. So to sum it up for you, pirates wore patches because they damaged or lost their eyes. Why do pirate wear eye patches? Some people say its there to cover either a missing eye or an eye that was wounded in battle, but in actual fact it is conditioning their eye so they can fight in the dark . Jamey Sheridan is a Tony award winning actor. Why do pirates were eye patches? Actually, pirates wore a patch over one eye to have instant night vision when going from bright daylight on deck to pitch blackness below deck. Normally the rods and cones of our eyes take between 20 to 30 minutes to acclimate from daylight to blackness. It was instantaneous for patch wearing pirates! Why does Nick fury wear an eye patch? Well people say he wears in because of a grenade accident in WWII. BUT I find that hard to believe. If you look, you see black veins or scar tissue 3 lines of it under his eye. He was mentioned in the x-men comics, and he lost his eyes in a fight with wolverine. They fought because Nick, kept trying to recruit Wolverine. Why does Dale chihuly wear and eye patch? In , driving in England with painter friend Seaver Leslie, Chihuly was in a head-on collision as the pair approached a rotary intersection in the countryside west of Londo. He spent weeks in a hospital, received stitches in his face, lost his left eye and nearly lost his right one. The vision that remained lacked depth perception, complicating his already delicate work, but Chihuly says he has not dwelled on the accident.

4: Eye Drops - Which Eye Drops Are Best For You? Get Coupons

Some stars have beauty, some have smarts, and some have eyes that could make a stone fall in love. Here are five superstars whose career defining moment came literally in the blink of an eye.

Over-The-Counter Eye Drops vs. Prescription Eye Drops Eye drops and ointments can be broken down into two categories: Over-the-counter eye drops are appropriate in many cases, and can be cheaper and more convenient. But if symptoms worsen or persist, you should always visit your eye doctor to rule out a potentially sight-threatening eye disease or eye infection. Eye Drops For Dry Eyes Lubricating eye drops, also known as artificial tears, can provide relief for short-term dry eyes, when the cause is related to temporary circumstances such as computer eye strain, being outdoors in windy and sunny conditions, and tiredness. Decongestants make your eyes look less red, but they also can worsen dry eye symptoms in the long run. If your dry eye problems are more severe, you may need to use a lubricating gel or ointment. Because gels and ointments for dry eyes can cause blurry vision for a while after you put them in your eyes, most people use them just before going to sleep. Eye Drops For Redness Decongestant eye drops, or whitening eye drops, contain vasoconstrictors that eliminate red eyes by shrinking the tiny blood vessels on the white part of your eyes sclera, making them less visible. While decongestant eye drops are effective at getting rid of redness, be mindful that they can mask a potentially serious underlying problem. Decongestant eye drops can cause dryness and irritation, dilated pupils and other adverse effects if they are used too often. Also, your eyes can develop a tolerance to the eye-whitening effect of these drops, and even greater redness called rebound hyperemia can occur when the effect of the drops wears off, forcing you to use them more and more. If your eyes are red from tiredness, dryness, lack of sleep or general irritation, an OTC lubricating eye drop can offer safe relief. Allergy eye drops work by reducing histamine in the eye tissues. Allergies can cause eye symptoms such as itchiness, redness, wateriness and puffy, swollen eyes, for which OTC antihistamine eye drops also may be useful. Some decongestant eye drops for red eyes also have antihistamines in them. But if your eyes are sore a lot, you should have an eye exam to see if your vision needs correcting for nearsightedness, farsightedness, astigmatism or presbyopia. Lubricating eye drops may provide relief for eye irritation from visual stresses such as crying, eye discharge related to allergies and swelling from inflammation and allergies. However, "mattering" or thick, yellowish eye discharge caused by an eye infection may require prescription antibiotic eye drops. The term "pink eye" is a catch-all for several different types of conjunctivitis. Bacterial conjunctivitis usually makes your eyes really red and sore, with a thick, yellow, sticky discharge. Bacterial eye infections should be treated with prescription eye drops from your doctor. Viral conjunctivitis is contagious. Some viral types of pink eye go away on their own, but the severe kind will cause red, watery, sore eyes, along with a clear or whitish eye discharge. You may also have blurred vision. If you have viral conjunctivitis, OTC lubricating eye drops can make your eyes feel better, as can cold compresses or ice packs. But if symptoms grow worse, you should see your eye doctor for additional treatment. Advantages Of Preservative-Free Eye Drops Most eye drops contain preservatives that inhibit bacterial growth and keep them safer. But some people are sensitive or even allergic to these preservatives. So keep in mind that eye drops containing preservatives actually can cause irritation, redness and more dryness, rather than easing these symptoms. Many eye doctors suggest using preservative-free eye drops to avoid this problem. Allergic conjunctivitis is the most common cause of eye redness and usually causes itching, swollen eyelids and watery, bloodshot eyes. Allergic pink eye is not contagious. Over-the-counter lubricating and antihistamine eye drops can provide relief in most cases. If symptoms are severe, your eye doctor may need to prescribe stronger eye drops or oral medications. You could contaminate the bottle, which could spread infection. Eye Drops And Contact Lenses Rewetting drops are specifically formulated for contact lenses and can provide relief for dry eyes and discomfort associated with contact lens wear. Unlike rewetting drops, many eye drops are not intended for contact lens wearers, and you may need to remove your lenses before applying the drops to your eyes.

5: Did any famous pirates wear an eye patch

Other famous folks with two color eyes? How about NHL captain of the Edmonton Oilers, Shawn Horcoff, and Alexander the Great! Heterochromia refers to differences in coloration caused by concentration and distribution of melanin in the iris.

Add to Wishlist Install In cooperation with ophthalmologists with experience in successful amblyopic treatment, the first Android App designed to assist in keeping vision acuity and assisting in amblyopic correction [Captain Lazy eye] has been created! That overall out of people there are 1 to 4 people who are amblyopic. That in regions with poorer medical care that the rate is even higher! Sharon Chuang, for her career-spanning experience in successfully treating amblyopic children in order to design a software specially for assisting vision correction for these children. Between the ages 3 to 8, it is the perfect time for treatment of amblyopia. After this golden period, nerves in the eye begin to mature, and correction thereafter becomes increasingly difficult. Correction of amblyopia usually involves tedious and repetitive coordinative exercise, such as navigating a maze on paper, drawing lines on paper, etc. The blandness of such exercises is the primary reason that children become resentful or even express refusal to cooperate in the treatment! The App turns amblyopic correctional exercises into fun and interesting games, assisting them with fascinating themes like pirates and princesses, enticing the children to perform the necessary occlusion for the training and ultimately making real correctional progress. Recovery of vision from amblyopia does not happen overnight, nor is there a shortcut. This is precisely why active participation of those who need it is vital. Feature of Captain Lazy eye: Makes training into fun and interesting games, increasing willingness to participate in correction. Records the daily performed exercises and correctional results, providing a better picture for physicians and parents for assessment of progress. Puts training results into easily to view charts. Rotating grating Vision is stimulated by looking at objects through gratings of different thickness and spacing. Color-Light training The various colors and shades stimulate the visual nerves. Eyeball muscle exercise The frequent change of focal point gives eyeball muscles a workout. Hidden object recognition Eyes get trained to recognize specific objects in a visually distractive background. Color sensitivity training The recognition of a specific color from a selection of similarly shaded colors is trained. Eye-hand Coordination This exercises combines spatial and visual acuity in training to control visual muscles. Hurry and get your App on! Allow your children to do exercises that are good for the eyes in a home environment! This software is meant to be used under the guidance of and regular return visits to your physician. You should also enter the results of periodic doctor visits into a function provided in the app for you to more easily track treatment progress.

6: Why Did Pirates Wear Eye Patches? | Mental Floss

A beautiful eye color can be a striking feature on anybody's face, but what about two beautiful eye colors? This is often due to heterochromia iridum, a condition that results in a difference in.

If you are concerned about the overall look of your eyes, then you can take special care of your eyes. Eyes are one of the most beautiful features of the human body. Our eyes are highly emotional and convey all our feelings through them. However, through passage of time, you get dark circles, wrinkles, puffiness, redness, and so more. These might hinder the appearance of our eyes. If you wish to look your youthful best, then you must take proper care of your eyes. Here are some of the best eye care tips for your glowing eyes: **Tips for Dark Circles** If you have dark circles under your eyes, then you definitely would wish to get rid of the same. Here are some of the helpful tips: You can apply iced tea bags over your closed eyes. The black tea bags are considered to be the most effective for healing your dark circles. You can dip cotton rolls in chilled water. Keep it for around minutes on your closed eyes. This will be highly effective for treating dark circles under your eyes. This is by far one of the most conventional treatments for reducing dark circles under the eyes. Place 2 slices of cold cucumber under your eyes and experience the relief offered by the same. **Tips for Sunken Eyes** These create the impression of dark circles under your eyes. Sunken eyes appear dull and worn out. Here are some tips for minimizing the sunken eyes: Mix half tablespoon almond oil with one tablespoon of honey. Apply this mixture at bedtime every night. Soak around 5 almonds every night. Peel them the next morning and eat the almonds followed by a glass full of milk. This natural treatment is highly effective in reducing the sulkiness of your eyes. Get a fresh start of every morning by reducing the puffiness in your eyes through these effective tips: Grate some small potatoes and preserve the pulp of the same. Mix the pulp with a cup of tea. Make cubes out of this mixture. Apply the ice cubes to your puffy eyes. Observe the noticeable changes. One can also make the cold compress out of ice cubes bags. When you start feeling the warmth while applying to your eyes, dip these bags into cold water. Apply them again until the puffiness of the eyes goes away. Tea bags are not only effective in reducing dark circles under the eyes. You can also reduce puffiness from your eyes using the tea bags. Take good care of your eyes from these helpful tips. Have a great time this Diwali by availing our special offers!
