

### 1: Fern (Seven Brides Series) | eBay

*Fern Sproull, a young, swaggering opinionated ruffian, dressing and behaving like a cowboy, is determined Hen Randolph will hang for killing her cousin.*

As Kimberly pointed outâ€tight jeansâ€nice buttsâ€the swagger.. So I may be changing my theory on westerns yet! Or it could be because each of these women are strong and independent enough to handle the wild and untamed west, yet soft enough to gentle these cowboys. But for whatever reason, these seven brides, all named after flowers capture the hearts of these seven menâ€who just happen to be brothers. In correct reading order, here are the novels: Rose Thornton accepts that job. She arrives at the homestead to find six men ranging in ages from six to twenty-four years old. Once they learn her father was an officer in the Union Army, they vote to send her back to town. George Randolph was an officer in the Confederate army. He feels responsible for his family, but wants to rejoin the army, the only time when his life was ordered and predictable. At the same time seeks ways to repair the fragile bonds that hold this family together. But how is she going to know what tricks Madison gets up to unless she follows him around? Madison Randolph, the brother who abandoned his younger orphaned siblings to go to Harvard during the Civil War, has come to Abilene, Kansas to defend his brother against a murder charge. He means to start a ranch for the family and one for himself so he can get out from under the irritating and watchful eye of his older brother, George. The last thing he needs is a southern belle, steeped in flirting and vanity, on the filthy, exhausting trek over a thousand miles of dangerous, unsettled country. Her kind is strictly for looking at, not for buying. Neither does he need double the cows and double the responsibility. He already has three brothers along to worry about. When Monty refuses to take her along, she puts her herd on the trail ahead of him and mixes the herds together. The continual danger of stampedes, rustlers, and Indian attacks drive the couple together, forming a relationship neither welcomes nor is able to deny. Beset by a thieving foreman and a long lost brother, Monty is the only person Iris can trust. And she means to trust him whether he likes it or not. They needed someone ruthless enough to protect them from the Blackthornes who have harassed the town and run off the previous sheriffs.. When he saves a young widow. Laurel Blackthorne has no need for gunslingers or guns. She wants little more than to prove she was legally married to Carlin Blackthorne and that her son is legitimate. But when he does and carefully tends her wounds, she sees the tender man this gunslinger could be. When the killers come after her, he makes it his job to protect her. Tyler is a loner not used to have a woman around. Daisy Singleton has no idea who killed her father and tried to kill her, or why. Being stranded in a mountain cabin with a silent, kind, bossy, bear of a man is frustrating. The last person he expects to stand in his way is a fiery redhead from Massachusetts who is the housemother for his two mischievous nieces, the stereotype of everything he detests in a woman. Violet Goodwin has come west to discover what happened to her uncle and why the mine he left her is worthless. After Jeff Randolph is quarantined in the school with her and her sixteen young charges for five days, she wonders how she can be attracted to a man she dislikes so much. He appears to be self-pitying, angry, and emotionally distant. She hardly notices his missing arm, but she is stingingly aware of his ridiculous ideas about women. He takes care of the girls who work for him, but no woman is as exciting as gambling, no woman means as much to him as his saloon. His life is perfect until a distant cousin, Lily Sterling, arrives from Virginia and upsets everything. Taking Zac up on a casually extended invitation, this fresh-faced beauty has fled her father and a prospective husband. He knows Lily is too innocent for San Francisco. Lily was more than happy to believe Zac loves her, but Zac is determined to stay away from Lily so he can leave her with a clean conscience. He even sent me a nice letter once, after I sent him a note about the books he composes hugs.

### 2: Seven Brides Series | Coffee Time Romance & More - Coffee Thoughts: The Book Blog

*Fern has ratings and 14 reviews. Danielle The Book Huntress (Back to the Books) said: Madison is the black sheep of his family. He went off to the No.*

This series tells the stories of the seven sons of William Henry and Aurelia Randolph. William Henry was an abusive, alcoholic womanizer who wasted the family fortune and put a serious blot on one of the most respected names in Virginia history. His friends and family got together and bought him a ranch in Texas just to get him out of Virginia. Aurelia was a beautiful woman who worshiped her husband but was too weak to protect her sons from his brutality. The series begins in Texas after the end of the Civil War when the older boys come home. They must fight to save their ranch, their only inheritance, from Indians, rustlers, and the officials of the Reconstruction. George Randolph, the oldest brother and patriarch of the family, needs someone to wash, cook, and clean for the brothers on their Texas ranch. Rose Thornton accepts that job. She arrives at the homestead to find six men ranging in ages from six to twenty-four years old. Once they learn her father was an officer in the Union Army, they vote to send her back to town. George Randolph was an officer in the Confederate army. He feels responsible for his family, but wants to rejoin the army, the only time when his life was ordered and predictable. At the same time seeks ways to repair the fragile bonds that hold this family together. Reviews "ROSE is a nongenre story with a uniqueness that truly sets it apart. And the author is a dynamo of a storyteller whose major strength is his liberal use of quick-witted dialogue. Kick up your heels and get set to enjoy a big, boisterous romance. If ROSE is any example of the strength and power of this series then readers will have six more wonderful books to enjoy in the future. These are characters you lock within you to keep for a "down" day and take them out to cherish. Even though the readers will be totally caught up in the believable relationship that evolved between the hero and heroine, a piece of their hearts will go out to the remaining Randolph brothers. Fern Fern Sproull, a young, swaggering opinionated ruffian, dressing and behaving like a cowboy, is determined Hen Randolph will hang for killing her cousin. But how is she going to know what tricks Madison gets up to unless she follows him around? Madison Randolph, the brother who abandoned his younger orphaned siblings to go to Harvard during the Civil War, has come to Abilene, Kansas to defend his brother against a murder charge. Gentle persuasion, rough-housing vitriolic verbiage, and passionate loving, stirred with the tender, loving pen of Leigh Greenwood present the reader with an unforgettable high-caliber read! Iris Monty Randolph plans to take a herd to Wyoming. He means to start a ranch for the family and one for himself so he can get out from under the irritating and watchful eye of his older brother, George. The last thing he needs is a southern belle, steeped in flirting and vanity, on the filthy, exhausting trek over a thousand miles of dangerous, unsettled country. Her kind is strictly for looking at, not for buying. Neither does he need double the cows and double the responsibility. He already has three brothers along to worry about. When Monty refuses to take her along, she puts her herd on the trail ahead of him and mixes the herds together. The continual danger of stampedes, rustlers, and Indian attacks drive the couple together, forming a relationship neither welcomes nor is able to deny. Beset by a thieving foreman and a long lost brother, Monty is the only person Iris can trust. And she means to trust him whether he likes it or not. The character depth and portrayal in this work is nothing short of remarkable. IRIS is a dynamic combination of a wild western trail ride and a charming Americana romance. They needed someone ruthless enough to protect them from the Blackthornes who have harassed the town and run off the previous sheriffs.. When he saves a young widow. Laurel Blackthorne has no need for gunslingers or guns. She wants little more than to prove she was legally married to Carlin Blackthorne and that her son is legitimate. But when he does and carefully tends her wounds, she sees the tender man this gunslinger could be. What can I say but magnificent, superb, wonderful, and captivating. The characters are so true to life, I feel they are personal friends of mine. I really enjoyed this story. This is a must-not-miss series. The story is fact-paced, entertaining, and highly recommended. Daisy While Tyler Randolph is prospecting for gold in New Mexico to get the money to build the hotel of his dreams he finds a woman wounded and left to die in a blizzard. When the killers come after her, he makes it his job to protect her. Tyler is a loner not used to have a woman around.

Daisy Singleton has no idea who killed her father and tried to kill her, or why. Being stranded in a mountain cabin with a silent, kind, bossy, bear of a man is frustrating. Tyler is one of the most adorable yet naive heroes to grace the pages of a romance novel, making him a man that every woman will want for her own. Daisy is a tender, touching love story. The characters reach out and touch you. This tale of two misfits who find love is sure to warm your heart. Fans of the series, as well as new readers, will find this a "not-to-be-missed keeper. Violet Jefferson Randolph is angry at the world for the arm he lost in the War Between the States and the destruction of his family. The last person he expects to stand in his way is a fiery redhead from Massachusetts who is the housemother for his two mischievous nieces, the stereotype of everything he detests in a woman. Violet Goodwin has come west to discover what happened to her uncle and why the mine he left her is worthless. After Jeff Randolph is quarantined in the school with her and her sixteen young charges for five days, she wonders how she can be attracted to a man she dislikes so much. He appears to be self-pitying, angry, and emotionally distant. She hardly notices his missing arm, but she is stingingly aware of his ridiculous ideas about women. Reviews "Leigh Greenwood is one of the marvels of the modern world. Very few authors can write a seven book saga in which each tale is better than the previous one, but every one is ultra-excellent. The refreshingly original plot held my interest throughout. The story moves smoothly from one crisis to the next; yet the romance is always in the forefront. Without tricks or gimmicks, Leigh Greenwood created a fascinating picture of Denver and peopled it with believable characters. He takes care of the girls who work for him, but no woman is as exciting as gambling, no woman means as much to him as his saloon. His life is perfect until a distant cousin, Lily Sterling, arrives from Virginia and upsets everything. Taking Zac up on a casually extended invitation, this fresh-faced beauty has fled her father and a prospective husband. He knows Lily is too innocent for San Francisco. Lily was more than happy to believe Zac loves her, but Zac is determined to stay away from Lily so he can leave her with a clean conscience. Leigh Greenwood at his considerable best. His powerful "Seven Brides" saga will be read and enjoyed for generations. LILY has romance, intrigue, and especially humor with some very lovable characters. Its plot is simply wonderful.

### 3: Fern (Seven Brides, #2) by Leigh Greenwood

Leigh is a man! They were everywhere I looked, in the den, on the kitchen table, in the living room, stacked along one whole wall in the bedroom, even in the bathroom. I admit I was a little supercilious about her choice of reading material. After all, I was reading Dickens, Hemingway, Austen, the classics! I started calling them her "sin, lust, and passion" books. I thought it was funny. After reading them all several times, I asked my wife to suggest some other books. By now I was completely addicted. Somewhere along the line, I read that women could make decent money more than I could as a music teacher writing historicals, so I tried to get my wife to write one. I sat down and started writing. A badly overwritten romance, but a book nonetheless. Wyoming Wildfire was published by Zebra in Unfortunately, after thirty-six years of marriage, my wife and I divorced. Even though it was amicable, it has been a difficult adjustment. My ex-wife is an excellent cook so I gave up cooking once we were married. In fact, I find myself standing over a simmering sauce or making soup to freeze when I should be writing. I recently celebrated my 70th birthday so I call writing my mid-life crisis career. I enjoy gardening and singing in both church and community choirs. I have just welcomed a beautiful grandson, and a granddaughter is on the way. Now if I can just live long enough to tell them stories about their parents.

## FERN (SEVEN BRIDES) pdf

*This was a really great book. Fern is 2nd in the Seven Brides series. Rose was the first book. Both books were wonderful. This book has a murder mystery that plays right along with the romance. Fern & Madison have a cat & dog fighting relationship at first that quickly turns into a very dear romance.*
