In addition, receive the "Plants Need Proper Nutrition" poster when you order this set. These posters are a great addition to any classroom to spark discussions on healthy eating habits. This booklet is packed with useful facts and reference lists related to plant characteristics, fertilizer and nutrients, stand establishment, animal requirements, grazing, and forage quality, including hay and silage. It was developed by the authors of the book, Southern Forages. The first section covers basic perspectives focusing on how potassium movement across plant cell membranes and within the plant is both facilitated and regulated and also how potassium status interacts with basic aspects of cell function. The second section focuses on developing a new and fuller understanding of how potassium nutrition and cultural management interact with crop plant performance and quality factors. These page activity books introduce plant nutrients, as characters in a variety of activities such as dot-to-dot, word puzzles, coloring, mazes, matching pictures, and experiments. Each poster includes 30 photos with seed drawings and descriptions. Appropriate for classrooms, dealerships, seed stores, or on the farm. There is an increase in shipping costs if sent in a tube rather than folded. Please specify when ordering.
