Couple of problems in the way – I hate the Fae and the Prince of the Dark Fae is bound and determined that I work for him. Oh – did I mention that he is absolutely sex-on-a-stick gorgeous and he makes me feel things that I never ever wanted to feel for a Fae – every time he touches me or looks at me with those golden eyes seems to pull me further in under his spell, despite my better judgment. Mature content and language not intended for anyone under the age of eighteen. This is a dark, dangerous, intense, gritty and raw. Scenes are dark, disturbing, and scorching HOT. This book is a soul crushing, tear jerking, and leave you hanging on the edge of your seat fast paced book. Side Effects may include, but are not limited to: Drooling, lip biting, wet panties, crying, and screaming at the author. If any of these things happen, do not seek medical attention – get the next book in the series and enjoy the ride! My mind is blown. I am so confused. I read Fighting Destiny in less than 24 hours. Between work and sleep, I had trouble stopping. This might be one of my new favorite series. I am going to give an unpopular opinion and say that I think this book is better than the Fever series by Karen Marie Moning, sorry Karen and Mac. Synthia is a strong, stubborn female lead. Ryder is tall, dark and mysterious. The unknown is real in this book. Be prepared for a wild ride. I just purchased the second novel, Taunting Destiny, on my kindle. There is a little statement at the beginning warning against this. The whole thing is filled with romantic suspense and is not appropriate for the young, prying eyes.

Customer Reviews by WendyKingston The heroine is manipulated by who becomes the hero. First she is "mind raped". Apparently to the Author, this is sexy. This whole book is a No means Yes book. Play a woman with enough mind altering drugs ie the Fae , and her true inner sexual self will be revealed. Umhuh, sounds like the get the woman drunk excuse. So, this book leaves a sour taste in my mouth. It would have been a better book. K so as soon as I read this book I bought every book from her that I could! I read through the night and most of the next day because this series is so addictive! What a awesome book.. Dark, sexy, absolutely riveting Witches and Fae are being killed left and right. Syn meets Ryder, alpha male fae and their story is off an running. If your looking for a book jammed with twists, turns, and surprises with every turn of the page. Then this is the book for you!!! Just went you thought you had it all figure out "Bam"!!! Other Books in This Series 2.

Such as this fun one! You guys had that right! The Fae were beautiful, ethereal creatures. Many had taken jobs as movie stars or models. They were the ideal creatures to be on the posters representing the Otherworld beings as they never aged. Timeless beauty frozen right around the age of thirty. It was why they were considered the most deadly of the Otherworld. They could make you like it as they f ked you to death. After all, the recommendations for it have been phenomenal. Fighting-Destiny-The-Fae- Chronicles â€” was really good series! This is a must read. Shame on you Maryse! My favorite new book of the year, that had me laughing, crying, and gasping for breath in a good way! Those characters have gripped me tightly and I hope they never let go!!! I cannot get enough!! It reminded me if the Fever Series but way more romance. These books are great! At first I hated himâ€but that changed really fast! Oh I love hating the guy!!! Excited, and so honest in their fervor. Sooooo many here that have devoured these are are awaiting the next one with bated breath. I knew I was missing out. But you knowâ€ I was taking a slight break from paranormals. I had indulged in them daily, for two or three years straight. They were starting to run together. But I was ready. Especially when MichelleS said this: I am here to tell you it is absolutely NOTâ€ the over-the-top hot-hot chemistry and fantastic dialogue is what I loved about this series. Yes, it has the fantasy element, but who cares? How else could these characters be as wicked as they are? One fantastic hot-as-heck alpha male. Forget felt it all day everyday!! I get that way every time I think about these books!! I also am 3x that age, but for Ryder I will break any taboo rules any day anytime!! When the next book comes out it will be likeâ€.. Read the Fae Chronicles. Ryder is beyond hot, a total alpha jerk , and story is there. It just drags you in, making you wonder wtf is really going on. Almost done with the first one. I was so in the mood for a paranormal. It almost seems like the paranormal part of it takes a bit of a back seat. At first, I thought the heroine was too weak and the Hero too over the top jerk y. Why do we like these men in our books. She was done with my lollygagging. It was time, and the time was NOW!! And while I was able to put it down, here and there, it certainly had that impassioned alpha-jerk bent on making my life, erâ€ I mean her life, miserable. And yet, even with all of his alpha-jerk ways, he was making me yes, me, this time! I raised my eyes to, set his head on. Threw a few more monkey-wrenches into this already messed-up mix. Their world, and the pieces of the puzzle that built the story? Often convoluted, and yet a bit basic at the same time. It felt like I was sometimes missing pieces of the puzzle without even knowing that I was missing them. Or that I needed them. Or that I needed to think or worry about them. Things would happen, and answers would come to fruition, but it was almost as if the build-up to that thing went right over my head. Snapped into place, and we continued on our journey. I felt teasedâ€ excitedâ€ but not quite fulfilled in the romantic-angst department. But what there was an immense build-up of, was who she truly wasâ€ how she fit into their world. That mystery was so fun to try and decipher, andâ€ the BEST part of the storyâ€ the sexual and eventual romantic tension that was simply off the charts! And romance with an absolute jerk or as my friend Amy would sayâ€ d! Nothing better than having that push-pull resistance with the most wrong-for-you make in the universe. Or is he the most right for you. And yes, there is a difference. Just you waitâ€in the next books you are going to love him just for the OPI reference alone!!! I have the first three four maybe? In booksâ€ alwaysâ€ onlyâ€ in books. Yes to Barrons, but both ass hats are so worth it in the end!! All the way to the very end. He sure acts like it! Together they will rule the human and paranormal world, and bring world piece, or utter chaos orâ€ well you get the picture. They are both absolutely gorgeous, and their marriage is expected. Needed, for alliances and whatnot. However there is someone or something? And Syn is going to figure it out. I was that good. And anyway, it all becomes clear as the story progresses. He had touched my f king soul. He knows now that I am darker inside; that I have secrets. I never felt like I was missing out with the cliffhangers â€” and more Ryder was always worth it. Solved by the end! He was Barrons-like although he could have been worse â€” which would have been even better for me , and 3.
