

### 1: Steam Community :: Guide :: The Complete Fire & Ice Guide

*Fire and Ice has 12 ratings and 1 review. Lewis said: These are just simple shoot-em-up books, but they are the best shoot-em-up books of their time. I.*

When Leather is in a foul mood he usually kills some of his flunkies. The flunky a tax general that had the misfortune to delivery the bad news thinks fast. He suggests that Chicago should be eliminated. This gets Leather to thinking of grand dreams of conquest and an eventual alliance is formed with the other two feudal states to wipe out Chicago. Leather kidnaps Lucky the best mechanic in Chicago to build him three fearsome war machines. Bonner chases Leather and shoots him in the head. It ends with him picking up his girl and riding off into the sunset. The final book in the Outrider series. There was a notice at the end for the next in the series called Black Death. Unfortunately Pinnacle books went bankrupt and Black Death was never released. I always wondered about that book. I found recently on an Amazon review that some enterprising man actually tracked down the author and asked. The sixth book was never written. I always will wonder where Black Death would have taken the saga. If the author by some whim comes across this please send me a short message on the plot. Otherwise I am content to imagine an ending. The series ended with closure. Leather and the other thugs that ruled the continent got their just rewards. I like to think Bonner took his girl and went off to find the inhabitants of Almost Normal from book three. Settled down and raised a family. Final thoughts on this series. Obviously this was never going to go down in history with Shakespeare, Hemingway and Twain. The author was hired to crank out books and did his job well. The characters are over the top and the plots are improbable at best. Still I really like it. As a young teenage boy in Nevada it gave me hours of escapist joy. Rereading these books brought me back to those carefree days. That it entertains and gives pleasant memories.

### 2: Fire and Ice ( film) - Wikipedia

*Bonner could feel the old Outrider impulses coming back to him, but no longer felt the gentle guidance they had provided in the old days. He wanted to be an Outrider again but this time he wanted to kill.*

Martin at Archipelacon in Mariehamn , Martin was already a successful fantasy and sci-fi author and TV writer before writing his A Song of Ice and Fire book series. He grew frustrated that his pilots and screenplays were not getting made [25] and that TV-related production limitations like budgets and episode lengths were forcing him to cut characters and trim battle scenes. Tolkien in his childhood, he wanted to write an epic fantasy, though he did not have any specific ideas. Martin in [30] In , Martin gave his agent, Kirby McCauley , the first pages and a two-page story projection as part of a planned trilogy with the novels A Dance with Dragons and The Winds of Winter intended to follow. Bantam Books published A Storm of Swords in a single volume in the United States in November , [15] whereas some other-language editions were divided into two, three, or even four volumes. Since the events on the Iron Islands were to have an impact in the book and could not be told with existing POV characters, Martin eventually introduced three new viewpoints. On one hand, Martin was unsatisfied with covering the events during the gap solely through flashbacks and internal retrospection. On the other hand, it was implausible to have nothing happen for five years. Printing the book in "microtype on onion skin paper and giving each reader a magnifying glass" was also not an option for him. The Winds of Winter The Winds of Winter will resolve the cliffhangers from A Dance with Dragons early on and "will open with the two big battles that [the fifth book] was building up to, the battle in the ice and the battle [ And then take it from there. Four hundred pages of the sixth novel had been written as of October , although Martin considered only as "really finished"; the rest needed revising. He also revealed there had been a previous deadline of October that he had considered achievable in May , and that in September he had still considered the end-of-year deadline achievable. He further confirmed that some of the plot of the book might be revealed in the upcoming season of Game of Thrones. There are a lot of dark chapters right now Winter is the time when things die, and cold and ice and darkness fill the world, so this is not going to be the happy feel-good that people may be hoping for. Some of the characters [are] in very dark places. On the other hand, Martin noted the challenge to avoid a situation like the finale of the TV series Lost , which left some fans disappointed by deviating too far from their own theories and desires. This included the end stories for all the core characters. However, he will see if his audience follows him after publishing his next project. Martin believes the most profound influences to be the ones experienced in childhood. Lovecraft , Robert E. Howard , Robert A. Above all, the books were extremely unpredictable, especially in a genre where readers have come to expect the intensely predictable. However, where historical fiction leaves versed readers knowing the historical outcome, [81] original characters may increase suspense and empathy for the readers. Writing process[ edit ] Setting out to write something on an epic scale, [87] Martin projected to write three books of manuscript pages in the very early stages of the series. Martin said he needed to be in his own office in Santa Fe, New Mexico to immerse himself in the fictional world and write. On occasion, improvised details significantly affected the planned story.
