Contents [show] Synopsis Finn mysteriously receives a bag full of miniature versions of his friends and enemies and experiments with their lives. Plot The episode begins on a cliff by a lake at sunset. There, Finn and Jake are discussing relationships, with Finn wondering whether it is better to date someone with a similar or opposite personality. As they talk, Magic Man spies on them, and decides to prank them with his magic. Jake worries that this is black magic, but his worry is assuaged by Finn, who points out that one of the toys is Jake playing his viola, while Lumpy Space Princess goes piggyback on him, Finn dances, and BMO struggles to right itself. Excited, both Finn and Jake rush to their home, the Tree Fort, where Jake makes spaghetti with his special sauce and Finn continues playing with the Little People. He removes the characters he considers "C-list," which Jake considers impolite, especially since the characters left behind include the Ice King. Upon hearing the word "chemistry," Finn becomes quiet and thoughtful, ignores his food, and watches the various characters interact with one another: Cupcake lifts dumb-bells in the corner. That night, Finn cannot sleep, so he decides to play with the little people. He starts to experiment with interactions of the little people starting with Mr. Cupcake and Lumpy Space Princess, who hit it off and begin to kiss. Finn is surprised by this and decides to experiment some more. Cupcake, and they begin kissing. Finn then upturns the sack to release all the little people, and an intense look appears on his face. With all different characters, the possibilities would be endless. The next morning, Jake finds Finn with a pile of books by Jay T. Doggzone, and asks Finn if he stayed up all night reading them; in fact, Finn had constructed a world for the little people to play in, and the book he appeared to be reading had a heartbroken Jake curled up inside it. Jake wonders why his miniature looks so lonely and asks Finn to pass him mini-Lady, to which Finn replies that the two have broken up, and that Lady is pursuing a relationship with a "cool guy" - in fact, mini-Finn. Jake becomes outraged when he sees Finn and Lady dating - Finn shows that he began relationships between a number of characters: After Jake leaves, Finn sees mini-Flame Princess and decides to see how the two figures interact with one another. Initially, mini-Finn is shy, while mini-Flame Princess appears bored, until Finn gives his miniature a piece of his cookie, and moves him closer to Flame Princess; he shares the cookie with her, and they begin to chew on it together in a way that looks like kissing since the real Finn and Flame Princess cannot kiss - Lady Rainicorn sees this and, heartbroken, begins to yell and weep melodramatically, before retreating into her book-house. Finn adds in Princess Bubblegum in the middle and makes her give mini-Finn a backrub, and the two figures begin kissing; this makes mini-Flame Princess furious, and they begin to fight, during which Flame Princess sets Bubblegum on fire. Finn looked at the battle and turns a bit red as if a situation like that happened, Finn would have been the thing the Princesses were fighting for. Finn attempts to contact Finn in various ways, including licking him in the mini-world, this only manifests itself as large waves in the lake. Jake suggests that they are on a different vibration level, and that Finn should shake them. Finn shakes his miniature self at increasing speeds - when he gets to the correct speed, he appears as face in the clouds, which puzzles mini-Finn. He then moves on to Princess Bubblegum, Lady Rainicorn and Flame Princess and explains the same information but says that they should make up and have a "dance party. All the miniatures dance, during which Jake notices that BMO and the Ice King are hitting it off - their miniatures are shown dancing together - thus answering the question of whether the two would make a good couple. At this point the episode ends.

My girls LOVE the farm, and what people do books so I ordered more. This book is not lift the flap and not nearly as educational as the others. It is good to use as more of a seek and find book, but would definitely recommend a different little people book.
