

1: Food Services of America - your foodservice distributor

This is the history of the Ford Motor Company's achievements and products during World Wars I and II. It demonstrates how, in addition to well-known contributions like jeeps, Eagle Boats and B Liberators, Ford also produced key items ranging from squad tents and the ultra precision gun director.

With the blessing of the Ford family, it was placed back into circulation in as part of the Michigan Football Legends program and issued to sophomore linebacker Desmond Morgan before a home game against Illinois on October Ford also visited with players and coaches during practices; at one point, he asked to join the players in the huddle. Instead, he took a job in September as the boxing coach and assistant varsity football coach at Yale University [19] and applied to its law school. Yale officials at first denied his admission to the law school because of his full-time coaching responsibilities. He spent the summer of as a student at the University of Michigan Law School [21] and was eventually admitted in the spring of to Yale Law School. The petition was circulated nationally and was the inspiration for the America First Committee , a group determined to keep the U. Ford graduated from law school in and was admitted to the Michigan bar shortly thereafter. Ford is second from the right, in the front row. Following the December 7, , attack on Pearl Harbor , Ford enlisted in the navy. Naval Reserve on April 13, On April 20, he reported for active duty to the V-5 instructor school at Annapolis, Maryland. After one month of training, he went to Navy Preflight School in Chapel Hill, North Carolina , where he was one of 83 instructors and taught elementary navigation skills, ordnance, gunnery, first aid, and military drill. In addition, he coached in all nine sports that were offered, but mostly in swimming, boxing and football. During the year he was at the Preflight School, he was promoted to Lieutenant, Junior Grade , on June 2, , and to lieutenant, in March Sea duty[edit] Navy pilots playing basketball in the forward elevator well, mid Jumper at left is Gerald Ford. While he was on board, the carrier participated in many actions in the Pacific Theater with the Third and Fifth Fleets in late and In , the carrier helped secure Makin Island in the Gilberts, and participated in carrier strikes against Kavieng , New Ireland in During the spring of , the Monterey supported landings at Kwajalein and Eniwetok and participated in carrier strikes in the Marianas , Western Carolines , and northern New Guinea , as well as in the Battle of the Philippine Sea. The Third Fleet lost three destroyers and over men during the typhoon. During the storm, Ford narrowly avoided becoming a casualty himself. As he was going to his battle station on the bridge of the ship in the early morning of December 18, the ship rolled twenty-five degrees, which caused Ford to lose his footing and slide toward the edge of the deck. The two-inch steel ridge around the edge of the carrier slowed him enough so he could roll, and he twisted into the catwalk below the deck. As he later stated, "I was lucky; I could have easily gone overboard. One of his duties was to coach football. On October 3, , he was promoted to lieutenant commander. He was released from active duty under honorable conditions on February 23, On June 28, , the Secretary of the Navy.

The first president was not Ford, but local banker John S. During its early years, the company produced just a few cars a day at its factory on Mack Avenue and later its factory on Piquette Avenue in Detroit , Michigan. Groups of two or three men worked on each car, assembling it from parts made mostly by supplier companies contracting for Ford. Within a decade, the company would lead the world in the expansion and refinement of the assembly line concept, and Ford soon brought much of the part production in-house in a vertical integration that seemed a better path for the era. It has been in continuous family control for over years and is one of the largest family-controlled companies in the world. More efficient production methods were needed to make automobiles affordable for the middle class, to which Ford contributed by, for instance, introducing the first moving assembly line in at the Ford factory in Highland Park. Hundreds or a few thousand of most of these were sold per year. In , Ford introduced the mass-produced Model T , which totalled millions sold over nearly 20 years. In , Ford replaced the T with the Model A , the first car with safety glass in the windshield. Henry Ford purchased the Lincoln Motor Company in , in order to compete with such brands as Cadillac and Packard for the luxury segment of the automobile market. This division was responsible for the manufacture and sale of the famous Continental Mark II. At the same time, the Edsel division was created to design and market that car starting with the model year. During the s, Ford began using the advertising slogan, "Have you driven a Ford, lately? Most of the corporate profits came from financing consumer automobile loans through Ford Motor Credit Company. Profit margins decreased on large vehicles due to increased "incentives" in the form of rebates or low interest financing to offset declining demand. Fields previewed the Plan, named The Way Forward , at the December 7, , board meeting of the company and it was unveiled to the public on January 23, In developing the hybrid electric powertrain technologies for the Ford Escape Hybrid SUV, Ford licensed similar Toyota hybrid technologies [24] to avoid patent infringements. Some of the vehicles will be evaluated "in typical customer settings", according to Ford. Upon the retirement of president and chief operations officer Jim Padilla in April , Bill Ford assumed his roles as well. This arrangement took effect on January 1, The agreement also gives hourly workers the job security they were seeking by having the company commit to substantial investments in most of its factories. But we also must prepare ourselves for the prospect of further deteriorating economic conditions". Mulally stated that "In addition to our plan, we are also here today to request support for the industry. In the near-term, Ford does not require access to a government bridge loan. The company retained sufficient liquidity to fund its operations. The generous amount has been a sore point for some workers of the company. The Ford Focus will now be manufactured in the existing plant in Mexico. Hackett most recently oversaw the formation of Ford Smart Mobility, a unit responsible for experimenting with car-sharing programs, self-driving ventures and other programs aimed at helping the year-old auto maker better compete with Uber Technologies Inc. Ford began development on an urban campus in the Corktown neighborhood of Detroit in with its purchase, renovation and occupation of The Factory building at Michigan and Rosa Parks. The focus of the campus will be on autonomous vehicles and electric vehicles which Ford plans to move aggressively into the development of.

Get this from a library! Ford in the service of America: mass production for the military during the world wars. [Timothy J O'Callaghan] -- "Ford Motor Company's products during World Wars I and II: jeeps, Eagle Boats, B Liberators, squad tents, the ultra precision gun director, tanks, and aircraft engines.

Visit Website Did you know? In the first several years of their marriage, Ford supported himself and his new wife by running a sawmill. In , he returned with Clara to Detroit, where he was hired as an engineer for the Edison Illuminating Company. Rising quickly through the ranks, he was promoted to chief engineer two years later. On call 24 hours a day for his job at Edison, Ford spent his irregular hours on his efforts to build a gasoline-powered horseless carriage, or automobile. Birth of Ford Motor Company and the Model T Determined to improve upon his prototype, Ford sold the Quadricycle in order to continue building other vehicles. He received backing from various investors over the next seven years, some of whom formed the Detroit Automobile Company later the Henry Ford Company in After his departure, it was reorganized as the Cadillac Motor Car Company. The following year, Ford established the Ford Motor Company. At the time, only a few cars were assembled per day, and groups of two or three workers built them by hand from parts that were ordered from other companies. Ford was dedicated to the production of an efficient and reliable automobile that would be affordable for everyone; the result was the Model T , which made its debut in October As a result, he put into practice techniques of mass production that would revolutionize American industry, including the use of large production plants; standardized, interchangeable parts; and the moving assembly line. Mass production significantly cut down on the time required to produce an automobile, which allowed costs to stay low. Even as production went up, demand for the Tin Lizzie remained high, and by , half of all cars in America were Model Ts. After a court battle with his stockholders, led by brothers Horace and John Dodge, Henry Ford bought out all minority stockholders by In , Ford moved production to a massive industrial complex he had built along the banks of the River Rouge in Dearborn, Michigan. The plant included a glass factory, steel mill, assembly line and all other necessary components of automotive production. That same year, Ford ceased production of the Model T, and introduced the new Model A, which featured better horsepower and brakes, among other improvements. By that time, the company had produced some 15 million Model Ts, and Ford Motor Company was the largest automotive manufacturer in the world. Ford opened plants and operations throughout the world. In , Ford introduced the first V-8 engine, but by the company had dropped to number three in sales in the automotive industry. Despite his progressive policies regarding the minimum wage, Ford waged a long battle against unionization of labor, refusing to come to terms with the United Automobile Workers UAW even after his competitors did so. Ford Motor Company signed its first contract with UAW in , but not before Henry Ford considered shutting down the company to avoid it. He made a failed bid for a U. Senate seat in , narrowly losing in a campaign marked by personal attacks from his opponent. In the Dearborn Independent, a local newspaper he bought in , Ford published a number of anti-Semitic writings that were collected and published as a four volume set called The International Jew. He died two years later at his Dearborn home, at the age of

Ford in Service of America by Timothy J. O'Callaghan The story of the Ford Motor Company's World War I and II efforts. Henry Ford II.

Instead of a steering wheel, the Quadricycle had a tiller. The gearbox had only two forward gears with no reverse. Ford leaves company within one year. The company was a separate organization with its own set of shareholders. It was created to sell vehicles not just in Canada, but also all across the then-current British Empire. Childe Harold Wills designed the Ford logo. However, the Ford oval would not be featured on a car until the Model A. Ford sold 15 million Model Ts before ceasing production in May , making it one of the best-selling vehicles of all time, and arguably the most famous car in the world. In , there were only about 18, miles of paved roads in the US. To deal with the primitive roads, Ford used light and strong vanadium steel alloy for critical parts. At the time, most of the automobiles in existence were luxurious novelties rather than affordable transport. Fortunately for millions of new drivers, it was. The accelerating speed with which Ford could produce cars helped him continue to lower the price of the Model T. The increased pay, increased leisure time, and even increased the personal mobility of car ownership were all critical factors in the creation of an American middle class. It would become the largest integrated factory in the world by the following decade. Throughout its history, the self-contained Rouge Complex has contained a wide array of industries necessary to produce cars, including steel mills, a tire factory, a glass factory, a power plant and a reception depot for coal, iron ore, rubber and lumber. In the s the complex employed over , workers. Today the River Rouge Complex continues to evolve to meet the needs of modern manufacturing processes. This early pickup was rated at one ton. These 42 Eagle-class boats were the first product manufactured at the Rouge. In its efforts to aid the Allies in WWI, Ford also produced more than 38, Model T cars, ambulances, and trucks, 7, Fordson tractors, two types of armored tanks, and 4, Liberty airplane engines for the Allies. Afterward, Ford hired disabled veterans returning from the war, making the automaker one of the first companies to hire people with disabilities and to adapt work environments to their specific needs. On the same day, Henry Ford put a plan in place to buy out his investors and make himself, Clara Ford, and Edsel the sole owners of the business. His aesthetic legacy lives on in the original Lincoln Continental. While the Model T dominated the auto industry from to the early s, by the middle of the decade there was fierce competition from other automakers. After the 15 millionth Model T drove off the assembly line on May 26, , Ford closed plants all over the world to spend six months retooling factories and perfecting the design of a new car. The car was the first vehicle to sport the iconic Blue Oval logo, and it included innovative features like a Safety Glass windshield. As with the new Model A, Henry Ford shut down all other production operations to work on this innovative project. At great effort and expense, the company engineered a way to cast the first commercially successful V8 engine. The flathead was a hit. It was affordable, versatile, and introduced just as the American market was becoming fascinated with ever-more powerful engines. It remained in production for over 22 years. To this day the flathead remains extremely popular with hot rodders. Much like the Mercury brand, Lincoln-Zephyr was designed to sell at a price point between the Ford V8 De Luxe and the high-end luxury cars offered by Lincoln. Edsel Ford created Mercury cars to bridge the gap between affordable Fords and luxurious Lincoln cars. The vehicles were nicknamed for their "GP," or general-purpose designation. Through its manufacturing expertise, Ford facilities built a staggering number of automobiles, planes, tanks, aircraft engines and other materiel for the war effort. In , Rose Will Monroe was working at Willow Run as a rivet gun operator when she was chosen to appear in a promotional film for war bonds. Edsel was the only child of Henry and Clara Ford. When Henry II took over, the company and its bookkeeping practices were in disarray. With the help of ten former U. With its first postwar truck design, Ford ceased building trucks on car platforms and used a purpose-built truck platform instead. In , the F was replaced by the F line of trucks. Since , F-series has been the best-selling vehicle in the U. View slideshow Ford introduces the Ford. With its wind tunnel-tested aerodynamic shape, integrated pontoon fenders, airplane-inspired spinner grille and an updated V8, the new car was as radical a change as the Model A. The T-Bird emphasized comfort and convenience over sportiness.

With its performance, design and distinctive porthole windows, the car would become a classic. In the 60 years since then, Ford has performed more than 31, crash tests around the world. In recent years Ford has also used virtual crash testing to maximize the quantity and availability of crash data. In tandem with physical testing, the crash simulations help Ford gather more data than ever before. Edsel and designer E. Gregorie named these stylish and elegant cars for the inspiration they drew from the "continental" cars they saw in Europe. Introduced as a recession was beginning in the United States, the Edsel was simply the wrong car for the wrong time. The Mustang came to define the pony car class with its combination of a long hood, short deck, affordable price and customization options. The Mustang was a huge success, and today it remains one of the fastest-selling vehicles in history. With its role in movies like Bullitt and songs like "Mustang Sally," the car quickly became a cultural icon as well. Ford owned Philco from to , during which the company produced consumer electronics, computer systems, and military projects. These satellites are still used today to send television transmissions and telephone calls between continents. IIs sweep the podium at the 24 Hours of Le Mans. Moreover, Ford built a massive plant in Almusafes, Spain, near Valencia, to manufacture the car. The investments paid off, and the Fiesta broke the one-year sales record of the Mustang. The smaller platform debuted in response to rising oil prices and new fuel economy regulations. When the Ford Escort was first sold in North America, the car was designed to share components with the European Escort. The car was an important part of a worldwide shift in automotive design. Within Ford, the car represented a shift toward increased quality standards and front-wheel drive designs. The modular assembly line made use of automated ancillary assembly lines to produce vehicle sub-assemblies. The sub-assemblies were then added into the main assembly line. The trial run at St. Louis was a success, and today most Ford plants use modular assembly lines. In doing so, Ford helped launch the domestic SUV market. The Explorer was a more comfortable and better-handling replacement for the Ford Bronco, which was discontinued in Today the Mondeo is known as the Fusion in the United States. With lead acid batteries, regenerative braking, and a lb. To commemorate the centennial of the company that put the world on wheels, Ford offered limited production centennial editions of five of the vehicles in its lineup at the time. Instead of waiting out the crisis, Ford continued to aggressively invest in product development so that when the economy recovered Ford products would be some of the best vehicles on the market. One Ford envisioned every person in every part of the global enterprise as part of a single team united by a common culture and a shared goal to deliver outstanding products. Created from a partnership between Ford and Microsoft, SYNC offers a hands-free, voice-activated connectivity system with mobile phone integration, navigation and voice-activated access to entertainment. Ford has continuously updated SYNC since its introduction in order to help drivers keep their hands on the wheel and their eyes on the road while remaining connected to their technology. The technology necessary to create the new truck resulted in over new patents approved or pending for Ford. For , the all-new sixth generation of the iconic pony car includes an independent rear suspension and a selection of high-output engines. Fields is committed to building momentum around the One Ford plan through product excellence and instilling a spirit of innovation throughout the company. With a focus on changing the way the world moves, Ford Smart Mobility takes the company to the next level in connectivity, mobility, autonomous vehicles, the customer experience, and data and analytics. This includes the launch of the more intuitive Sync 3 System on Ford and Lincoln vehicles, more than 30 global mobility experiments, testing of autonomous vehicles in the snow â€” a first for the industry, and the introduction of FordPass for Ford members and non-members alike. Ford Chip Ganassi Racing enters four Ford GTs numbered 66, 67, 68 and 69 to honor the historic four consecutive victories that began 50 years prior.
