

### 1: Four (Audiobook) by Veronica Roth | [www.enganchecubano.com](http://www.enganchecubano.com)

*Four: A Divergent Collection* is a collection of five short stories from the *Divergent* trilogy, told from Tobias Eaton's (Four) perspective, and written by Veronica Roth.

And that is as about as positive as I can get. It felt more like the author was frantically filling in plot holes rather than writing something new. The Transfer - Was this one reallllly necessary??? From the main books, we already know that Four picked Dauntless because he wanted to escape his abusive father. And this short story I suppose, it was just a really, really drawn out version Felt like a waste of page space. The Ini Overwhelmingly underwhelming. The Initiate - This was a bit interesting. We see some of the main players from *Divergent* mainly Eric and the Dauntless-born initiates as Four comes to terms with his new life. But honestly, it feels like we already lived through this. *Divergent - A Stiff* enters dauntless, gets ridiculed but manages to come out on top. And we see how he gets his tat. That bit bugged the ever-living daylights out of me. And what does he do? Literally gets the most divergent possible tattoo on his body ever. The Son - Four trains for a leadership position. He spends most of the time waffling on whether or not he wants to do it. Then decides not to "because reasons. The Traitor - honestly just filling in plot holes. How does he get into the computer room? How does he know about the abnegation attack? Then, he meets Tris and falls in love with her because reasons. No inner revelations, no big reveals. He seemed much more interesting that way.

*Fans of the Divergent trilogy by #1 New York Times bestselling author Veronica Roth will be thrilled by Four: A Divergent Collection, a companion volume that includes four pre-Divergent stories plus three additional scenes from Divergent, all told from Tobias's point of view.*

YA Dystopian Publication Date: July 8, Goodreads Synopsis: Here, he will not be called the name his parents gave him. Here, he will not let fear turn him into a cowering child. Initiation is only the beginning, though; Four must claim his place in the Dauntless hierarchy. His decisions will affect future initiates as well as uncover secrets that could threaten his own future—and the future of the entire faction system. Two years later, Four is poised to take action, but the course is still unclear. The first new initiate who jumps into the net might change all that. With her, the way to righting their world might become clear. With her, it might become possible to be Tobias once again. In my fit of not knowing what to read, I decided to start this collection. Even though we know his ultimate decision, the suspense is there. I do wish that there was more backstory with his mom. The Initiate Now, Tobias is a full-fledged initiate in Dauntless. Other than that it is a slower novella that explains the difference in initiation practices between Tris and Tobias and why things changed. It provides so much more insight in Tobias than I could have imagined. The scheme between Dauntless and Erudite is getting stronger. The Traitor This novella skips two years and melds with the beginning of Divergent. I like the budding romance between Tris and Tobias. I also like the change in dynamic between some of the other characters no spoilers, sorry! Unfortunately, it has a lot of the same scenes from Divergent. It became repetitive and predictable. I would love to see how he feels going into the rest of the series. The novellas show the changing among the factions and the origin story of Four. I enjoyed reading these novellas and seeing the Divergent series from another POV. Have you read this? Who was your first book boyfriend? Talk to me in the comments below! *0 Comments on Novella Review: The Divergent Series: Four - Veronica Roth Divergent is one of my favorite young adult dystopian series. The Divergent series is the series that started my love for dystopian books.*

For two years, he has been secretly spying on Max and Jeanine Matthews and keeping contact with his mother, Evelyn. Four learns that Max and Jeanine are planning on an invasion to Abnegation. Evelyn responds nonchalantly when Four brings it up, and makes Four reconsider his position on his old faction. Throughout the story, Four begins to get closer with Tris, helped by his admiration of her bravery and selflessness. He becomes protective of her, growing concerned when he learns that she is also a Divergent, and also saves her from an attack by her desperate fellow initiates. He also eventually allows her to know more about him by going through his fear landscape together. Four realizes that he will have to betray his new faction to protect his old faction: Seeing another option, he looks to Tris for assistance. Cover[ edit ] The cover of The Traitor features a greenish circle of crows flying away. Like all the previous covers in the Divergent trilogy, Joel Tipple designed this cover. Surprisingly for the two of them, the first jumper is a transfer, and a "Stiff", Abnegation. When he asks for her name, she hesitates and he feels she is familiar to him in some way. She eventually answers "Tris", and Four then proclaims, "First jumper" Tris! Careful, Tris[ edit ] Four introduces his pupils to the Pit. When the curious Candor transfer, Christina , bogs him on questions about his name and the Pit, he answers coldly in an attempt to make his pupils more serious about Dauntless. He again responds coldly, but to his surprise, she gives a bold response. You look good, Tris[ edit ] Four is drunk with Ezekial and begins laughing at a silly joke near the Pit. He approaches Tris, who is with her friends, and begins flirting with her. She puts up the defensive, but when Four interjects with "You look good, Tris" while touching her, she laughs and says that he should do that while sober. While he is talking with Tris she mentions that he should not be near the Pit while being drunk and Four winks and says he would do what she said. Four then thinks that being close with Tris helps him better to escape the harsh reality than alcohol.
