1: ocr maths gcse january paper ebooks preview

Endorsed for the OCR J GCSE Mathematics Higher tier specification for first teaching from , our Homework Book is an ideal companion to the OCR Higher tier Student Book and can be used as a standalone resource.

Your search for the best Maths tutor service in Harrow is over. Simply ask for details when you call. Kamal has been my A-Level Maths tutor for the past 2 years and after my experience with him, I can only sing his praises. I came to him desperately trying to turn around a D grade in Maths and came out with an A grade in the end. I found the subject to be an uphill battle and particularly struggled with modules like C4 and C3, but I ended up scoring high in those with his help 87 and 80 UMS respectively. I have found him to be very supportive, not just in helping me with Maths but also in getting to the core of the habits and study techniques holding me back so we can alter them. He helped me to timetable my work and we set targets together to ensure everything would be complete on time, giving me a massive boost of confidence for my exams. He put in extra time nearing my exams and I was always given clear guidance as to what I needed to get done at home. He is thorough, attentive to detail and has niche knowledge of the syllabus and exams which allowed me to access a high grade. Despite Maths having been my weakest subject, I am pleased to say that I achieved the grade I needed to study Law at Durham University this coming September. I cannot recommend him highly enough as a tutor! Specialist guidance is available on the following subjects: This requires students to be thoroughly prepared to score a decent grade. And this is good news for us! To watch the video explaining the changes please click here Which subject s do you teach? Tell me about your qualifications. I have a B. What kind of experience do you have? So far I have tutored over students on a basis in the past 7 years alone. Hence I have an accurate and in-depth knowledge of the most recent syllabus changes and the exam boards. That combined with my daily touch of solid Maths puts myself in a very strong position to very quickly and thoroughly assess the educational needs of a student and then build upon their strengths. My lessons are Laser sharp and objective oriented wherein I intend to achieve a very concrete goal at the end of each of my tutoring sessions. Not having prepared and risking an incomplete, confused or incoherent explanation instils confusion in the student, rather than confidence. Regular feedback and homework: My one to one maths tuition sessions is invigorating, inspirational and full of cutting-edge techniques geared for Entrance level maths exam success in the shortest amount of time left. I have a very direct approach to Maths worded problem-solving wherein I dive deep into the concepts of Maths which students are struggling to understand. From over 10 years of Maths classroom teaching experience, I have developed an approach which is very simple. I make the lessons fun and engaging. I strive hard to promote interest in the Maths subject so learning Maths becomes fun and an ongoing natural process. Students take this into the school environment and start seeing the results immediately. As a result, the burden of Maths reduces allowing students to focus on other subjects and achieve well holistically. I am very confident the cost of my private maths tuition in Harrow, Watford or Chalfont is excellent value for money due to the fact that I have delivered outstanding results for my GCSE and A-Level students who completed exams in June Please do not take my word for it. Instead, you may contact the many satisfied parents clients prior to contract my services. Feel welcome get in touch soon to book your place for Exams in Summer
