*Going Under is a new adult contemporary romance (with a college football player, main character- so maybe sports romance) and is the third book in the Blackhawk Boys series by Lexi Ryan. Going Under can be read as a standalone novel.*

A Book Review Blog dedicated to the love of reading between two friends. Max is amazing—sexy, sweet, and kind. I was starting to believe happily-ever-after might be in my future after all. Then the unthinkable happened and my world imploded. Did it go okay with Nate last night? This is my home. I need to touch her. With every breath, I feel another thread snap. She lifts her hand to my face and skims her fingers along my jaw. I groan softly and slide my hand into her hair as I lower my mouth to hers. Taking a fistful of her skirt, I yank her dress up around her waist and find the cotton of her panties. She gasps, and I rub her through the fabric as her fingers curl into my back. My lips find her neck and the skin in the sensitive juncture of neck and shoulder. The word is a warning. Someplace without those stairs that scare the living shit out of me every time I think of you climbing them. Someplace we can make our own. I want to wake up with you in my arms, Hanna. You and Claire are all that matter in my world. I want everything that matters to be what I come home to every night. While I was waiting for her to take my ring, she was with another man, and I was never allowed to be angry because that man died and she needed to grieve. I drag a hand through my hair and look at the ceiling. I pull her against my chest. Not surprisingly, reading and writing remain my favorite activities, though both come in bits and pieces these days, not the big hunks of time I enjoyed before I had children.

*About the Book. If I met Alexandra DeLuca for the first time today, I would only need one word to describe her: MINE. She's everything she was when we said goodbye.*

Does he get an off the charts gift--Lexi Ryan!! Lexi is overcoming a bruised ego and hurt over her boyfriend that decides to marry his ex. The Wrong Room is a new line from Geri Foster. Geri adds a little suspense to her stories with great characters, great plot and great romance! I recommend this book to anyone wanting to read a wonderful story by an amazing author! Only that her plan does not happen the way she thought. While she still has the nerve she is ready to go tell Howard off Only that she grabbed her library card not her room card. Just great someone is coming and she knocks on a door and it opens. Jack Harrison is celebrating his thirty fifth birthday in Las Vegas, Sin City and his two best friends have told him that they have a birthday gift he is going to love. He knows that he should be home working besides is business is running on fumes but he is going to enjoy the weekend. When a knock comes to his door and this sex kitten walks in with her red and black lingerie he knows he has died and gone to heaven. This will be a birthday he will never forget. Lexi and Jack hit the sheets and OMG was it an erotic, sexy read. Lexi had never felt as naughty as how she felt with Jack. Her touch, her caresses her moans were driving him crazy. Her parents would be ashamed and she could not show her face. So when morning came, she left never to see him again. Only Jack had other plans and it seemed that faith was on his side. Wrong Room is the first in a new series by Geri Foster. There was so much going on that I wanted more, I wanted to know what happened to Lexi and Jack. Did she not run for State Representative and go for her dream job? Did Lexi finally get proposed to and have a stunning wedding? The storyline is amazing. The characters are well developed and the pace of the story was perfect. Lexi is a strong, beautiful woman that goes for what she wants. They have a romance that slowly comes to live and it will be up to Lexi to go forward and form a relationship with Jack and put her heart out there for him to take. The other thing that Lexi can do is dream about what could have been, could they have been happy, could have had a family. The writing is excellent and this is easily one of the best novellas that I have read this year.

When that did not come and her boyfriend went to Vegas on business she decided to follow him. So with her red and black teddy she decided how could she not get a proposal out of him that way? Well the fact that he went to Vegas and married his ex could put a big damper on that plan. Jack is in Vegas with some friends celebrating his 35th birthday. They told him that they had a surprise for him. When Lexi knocked on his door he thinks she is his surprise and he is in no way disappointed. In fact he is trying to figure out how to extend his surprise though the rest of the weekend. After he talks to his friends and finds out they have no clue what he is talking about he sets out to try and find her although he has no luck at the hotel. Imagine Jack's surprise when he finds her when he is working. He was hired to protect her from a potential Stalker. Jack would like to see where things can go with her. Kimmie Being a huge Geri Foster fan, I was excited to see she had decided to branch out into other genres. It follows the story of Lexi Ryan and Jack Harrison. They met by chance, but fate quickly intervened. The night was one to remember, no matter how hard she tries to forget. Wrong Room is a quick read, full of steamy romance and strong characters. Their sex life has gotten dull and she had at least expected a marriage proposal on her birthday. When that did not come and her boyfriend went to Vegas on business she decided to follow him. Lexi has a hard time trusting but Jack is willing to try. I definitely recommend reading!! Samantha Woods Lexi has been with her boyfriend for two years. Its nothing to write home about but was sexy and cute. This was a short and spicy story that was just what i needed. Not bad for a short little kinky read. Mare More character development then I expected, which was a pleasant surprise; especially for a free book. Lexi goes to surprise her boyfriend of 2yr on his business trip to Vegas. The story does develop beyond this point which is nice. A night with Jack Harrison in Vegas is way outside of who she normally is that it throws her even farther in doubt. Neither expect such a

connection to one another, but Lexi runs scared. A hot, short read. I voluntarily reviewed a copy of this book. Debbie Lexi goes to Vegas to surprise her boyfriend. Drunk and upset she goes to see him and ends up in the wrong room. Jack is celebrating his birthday and thinks Lexi is a gift from his friends. They share the hottest night of their lives. Scared to face Jack the next morning, Lexi sneaks out without giving him her name. Jack is determined to find her and spend more than one night. This was a very short story. I liked the characters, especially Jack. But I got it for free, and it had a happy ending.

### 5: Lexi Ryan | New York Times and USA Today Bestselling Author » Going Under

*If I met Alexandra DeLuca for the first time today, I would only need one word to describe her: MINE. She's everything she was when we said goodbye. Be.*

Our scars can make us more beautiful than we were before. Going Under feels like a runaway train, a sinking ship. You can feel the intensity growing with every turn of the page. You know the impact is going to kill you, and yet you hang on and hold out hope because you simply can not look away, because the ride feels too damn good. I read this story with knots in my stomach. I had such a visceral reaction to e We break, and we heal. I had such a visceral reaction to everything Lexi Ryan was throwing at me. I both loved and hated every bit of it. Please, please, just NO. There are hints dropped. There are secrets unearthed bit by bit as the story evolves, and with each glimpse into the truth, my heart rebelled. This time, I preferred the lies. I want to brush my fingers over that space where demons I know too well reached beyond their boundaries and caught an innocent. I LOVE every single book in this series. And these stories are nothing short of intoxicating. I just get lost. Each standalone is better than the last, more intense, more emotional, more gripping. And wow, Going Under might be the best one yet. From the first page, I was hooked. I was ready for that storyline, excited for it. The prologue, the first few chapters, I was addicted. I was over the moon with the push and pull of their attraction, with the knowledge of what once was and what will never be. I was IN this story immediately. This is a seriously complex storyline that grows heavier with each passing page, becomes so much more than just a forbidden romance. It becomes something so much heavier, so much more heartbreaking, a story full of lies and deceit and impossibility. I was absolutely gripped by this story, by each new twist and turn. I both hated and dreaded where it was going, yet I turned each page hungrily. Lexi Ryan brings her A-game to every single story, pulling and pushing the reader to their emotional limits with what these characters have gone through. Going Under is no different, with Alexandra and Sebastian navigating such a heavy, tragic course as they struggle with their past, their promises, their scars. I love a well-written story that delivers romance, sensuality, and emotional hits that tug at the heart strings. It is hard to read, this book. Going Under is beautiful and sexy and riveting. And Going Under is the best one yet!

*New York Times bestseller Lexi Ryan brings you GOING UNDER, a sexy and emotional standalone sports romance set in the world of the Blackhawk [www.enganchecubano.com](http://www.enganchecubano.com) can be read alone or enjoyed with the other books in the series.*

Forget about the future. She shoves away my hands. Pulling her dress back up, she grabs her bra off the floor and is headed to the stairs when I stop her. I rented a little cabin for after prom, and I already have it set up with rose petals, candles, and strawberry wine. For the first time. The people around me reunite with their loved ones and I try to shake this sense of impending disappointment. A mom drops her bag as she sinks to her knees and gathers a little girl in her arms. A young woman with bright eyes wraps her arms around her pierced and tatted boyfriend. I scoot back to get out of the way, scanning the crowd for her face. The traffic around the baggage carousel clears, person by person. My heart turns stony in my chest and sinks to my gut as I watch the shiny conveyor belt turn. All the bags are gone. Cally is nowhere to be seen. My hands are unsteady as I pull my cell phone from my pocket and punch in her number. It rings once and goes to voicemail. This time it goes straight to voicemail. I sink onto a bench and cradle my head in my hands. How am I supposed to let her go when she still has a hold of my heart? It had to happen eventually. Better sooner than later. First, I need to prepare the girls for life without me. I follow the direction of her gaze and my steps stutter. Asher Logan is climbing into the back of a big black pickup, handing supplies to the guys. Drew looks like she might vomit. I bite my lip to keep from laughing at her. I roll my eyes. The one Hanna likes. I prop my hands on my hips. Drew grimaces next to me. He just winks at me as if last night in the kitchen never happened. I know I should feel something. A couple of hours later, the old carpet and linoleum are gone, Sam and Asher are patching the bad spots on the roof, and Max and William have started working on the rotted planks on the deck, pulling off the bad ones and replacing them with new. The sun is high in the sky and cutting through the trees, turning the autumn day hot. William peels off his shirt and tosses it aside, giving me a hell of a view as I try to tape the windows for painting. Next to me, Drew clears her throat and nudges me in the side with her elbow. First, the truck arrived with the flooring, then another truck brought a new stove and refrigerator, and a third brought new living room furniture and loft beds for the girls and desks that go under each. I grab his hand and pull him around the side of the house, where we can talk without curious eyes watching us. He runs a hand through his curls and looks up at the trees as if trying for patience, but his eyes burn with anger when they turn back to me. A possession is something you own, something you control. I want you to be mine. I have no interest in buying it or controlling it. I want you to give it to me freely. Because you already own mine. I have to ask. Arousal shoots like an electric pulse down my spine. He backs me up until he has me against the side of the house, and I suddenly wish everyone else was gone, so I could take him up on the promise in his eyes. Because I want Cally so much it hurts. When I get home from work and walk in my door, my nose is assaulted by garlic and basil. The table is set for two with taper candles burning in the center and flickering shadows on the walls. Bowls of spaghetti, salad, and garlic bread wait, and a wine bottle sits on ice in a stainless steel bucket.

Portrayed by Jack Wagner. Peter Burns first appears in the third season as the chief of staff at Wilshire Memorial Hospital, where Michael, Kimberly and Matt also work. He has been in a relationship with Amanda several times. He is often very manipulative around people, particularly Michael and Amanda. In season four, after Kimberly is institutionalized, he takes a romantic interest in her, and also tries to help her get her life back together. Towards the end of season four, while Kimberly is running a mental hospital under the personality of "Betsy", she gets Peter institutionalized, despite the fact he is sane, while she is not. Michael and Amanda eventually rescue him. After he is rescued, it is revealed his real name is Peter Howell, and he was once married to a woman named Beth, now deceased. As his relationship with Taylor began to deteriorate, Taylor told him she was pregnant in an attempt to save him. This plan does not work however, as he finds out the truth and humiliates her at their wedding. Peter then entered a relationship with Lexi, but he broke up the relationship because he still had feelings for Amanda. Peter attempted to get Amanda back with no success, so he began a relationship with Eve. Soon after, Peter and Eve got married. Although Lexi tried to break them up, Peter and Eve stayed together. Their relationship began to fail however when Peter and Amanda went on a business trip and became close again, realizing they have always loved each other no matter who they are with, resulting in Peter being unfaithful to Eve. Eve and Peter then get divorced. When Eve discovers Amanda was guilty of a murder she was imprisoned for prior to the show, Eve becomes mentally unstable, and becomes destructive towards their relationship. At the end of the series, Peter and Amanda became rich and moved to an island, escaping the country to avoid jail time. The couple then gets married and decides to have a family, and Peter says they will name their kids after the former residents of Melrose Place, promising Amanda they will not name any of their children after Kimberly. Portrayed by Kristin Davis. She immediately took an interest in Billy, and since she did not want others in the group in the way of her relationships, cut them out of the picture, and convinced her father to arrange a marriage with him, and made Billy believe that she wanted him. During this time, Brooke and Billy become engaged, but she appears to have been in an affair. Their relationship was unsuccessful but nevertheless important and valuable in some regards. When her father dies, she finds out that he had cut her out of the will. Billy then decides to leave her for good when she becomes too controlling. She then slips, falls and hits her head in the pool, killing herself instantly. Portrayed by Patrick Muldoon. Although never credited as a main character, he appears in nearly every episode since his debut in season three until his death in season five. Richard is introduced as the husband of fashion designer, McKenzie Hart, whose business he runs. After McKenzie dies when Kimberly blows up the apartment complex, he begins dating Jane. Richard and Jane become engaged in season four, but he breaks it off with her after learning from Jo that she does not really love him. After a brief relationship with Jo, while Jane is dating Jake, he turns abusive and rapes her. In the season four finale, plotting revenge, Jane attempts to kill him, but that does not go as planned when Sydney secretly removed the bullets from her gun. He then attacks Jane again, but Sydney knocks him unconscious with a shovel, believing him to be dead. The two girls then drive out and bury him in a remote location. In the final scene of season four, it is revealed he is still alive. After he escapes, he begins playing mind games with Jane and Sydney, leading them to believe he is still alive, this is later confirmed when he confronts them directly. He eventually dies in a police stand-off. Portrayed by Brooke Langton. She began dating Billy, but it did not last as she realized he still had feelings for Alison. While she began dating Billy again, her abusive convict father, Jim, escaped from prison in Maryland. As she was protecting him, Samantha and Billy got arrested for aiding a known criminal. Although they were released, Jim continued to blackmail them. One time, Jim robbed Samantha in the middle of a retail store, and took her hostage. In season 6, Billy and Samantha got married. During the marriage, both parties harbored romantic feelings for other people. Samantha began an affair with a baseball player, Jeff Baylor, while Billy became attracted to Jennifer. In an attempt to keep Billy away from Jennifer, she sent a fake fax, pretending to

be Alison, before he left with Jennifer to Rome. However, Samantha followed him there, and proposed to him. He accepted her proposal, and she moved to Florida to be with him, concluding her time on the show. Portrayed by Rob Estes. First appearing in season five, along with his wife, Taylor, Kyle is a former Marine, and a chef from Boston. It is revealed that prior to the show, he had an affair with Jennifer. After he had a fight with Taylor, he had a brief affair with Sydney, while Taylor had an affair with Peter. After Amanda proposed a business arrangement in which she would invest in a jazz club called The Upstairs, which Kyle had dreamed of owning, the two planned to get divorces that way each of their unfaithful spouses Taylor and Peter would have no legal rights over the business. Kyle was devastated about the divorce because his parents were married for 35 years, and he had hoped for the same thing. During this time, he and Amanda kissed, but they both agreed not to continue a relationship. However, they did eventually start a serious relationship, and they got married in season 6. Before their wedding, Kyle began having nightmares over a woman, Christine Denton, whom he knew during his time in the Marines. When Kyle was not interested in going back to the fake-Christine, she faked being suicidal on their wedding day, postponing the wedding, as Kyle went out to save her. However, Nick accidentally killed Tiffany "Christine", and he and Taylor put her on railroad tracks, making it appear that she did commit suicide. Kyle and Peter were able to put their differences aside and become friends. Kyle and Amanda later decide to have a baby together, but Kyle is informed that he is sterile. After finding out, he develops a drinking problem. When Amanda discovers she is pregnant, he accuses her of cheating on him, and he throws her off a balcony, causing a miscarriage. He later finds out was misdiagnosed, the baby was his, and Amanda was faithful. However, his drinking problem caused he and Amanda to divorce, and she reunited with Peter. Afterwards, he started a relationship with Jane. Portrayed by Lisa Rinna. First appearing in season five when she and her husband, Kyle, move to Los Angeles from Boston. It is eventually revealed that her late sister, Beth Davis, was married to Peter. When her relationship with Peter began to deteriorate, she told him that she was pregnant in an attempt to keep him around. The attempt was unsuccessful, and she leaves her at the altar at their wedding. After being humiliated by Peter, she tries to win Kyle back. Although the real Christine actually did die in the war, Nick led Taylor to believe Tiffany the fake Christine to be the real Christine. This does not go as planned, as Nick and Taylor accidentally kill "Christine", and make it look like a suicide. Michael then reunited with his ex-wife, Jane, and Taylor gives birth to a son, Michael Davis. Shortly after giving birth, Taylor moves back to Boston with her son. Portrayed by Kelly Rutherford. First appearing in season five, Megan was a prostitute Kimberly hired to have sex with Michael, during a time Kimberly did not feel well enough to do so herself. Megan became a prostitute after she ran away from home at the age of 14, due to an alcoholic father. Michael then divorces Kimberly without her knowledge, and then marries Megan in Las Vegas. Although Michael was divorced from Kimberly, he still stayed close to her while she was sick, which Megan was annoyed with. This caused her and Michael to separate temporarily, but they later get back together when he finds out Kimberly hired her. Eventually, Megan becomes disgusted by Michael, and she divorces him. Portrayed by David Charvet. Craig and Amanda then had sex for real, but she did want to further their relationship. Eventually, Craig fell in love with Sydney. In the season five finale, they got married. He eventually committed suicide by gunshot, stating that he missed Sydney. Portrayed by Alyssa Milano.
